Bellemave bed-frames

Bellemave Twin Size House Bed Frame Instruction Manual

Model: bed-frames

Introduction

This manual provides detailed instructions for the assembly, use, and maintenance of your Bellemave Twin Size House Bed Frame. Designed with a sturdy metal frame and a unique triangle structure, this bed frame offers a safe and engaging sleeping environment for children. Please read all instructions carefully before assembly and use.

Important Safety Information

- **Age Recommendation:** This product is suitable for children aged 3 years and older.
- **Small Parts Warning:** Keep away from children under 3 years old due to the presence of small parts during assembly, which may pose a choking hazard.
- **Assembly:** Ensure all parts are securely fastened before use. Regularly check all connections to ensure they remain tight.
- **Weight Capacity:** Do not exceed the maximum weight capacity of 250 lbs (113 kg).
- **Mattress:** Use a standard Twin size mattress (39" x 75") with a recommended thickness of 6 inches. Do not use a mattress that is too thick or too thin, as this may affect safety.
- **Supervision:** Adult supervision is recommended, especially for younger children, to ensure safe use of the bed frame.
- **Modifications:** Do not modify the bed frame in any way, as this may compromise its structural integrity and void the warranty.

Package Contents

Before beginning assembly, please verify that all components listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Metal Frame Components (various beams, posts, and connectors)
- Bed Slats (14 pieces)
- Hardware Pack (screws, bolts, washers, Allen wrench)
- Assembly Instruction Guide

Note: Mattress is not included.

Setup and Assembly

Assembly of the Bellemave Twin Size House Bed Frame requires two adults and approximately 60-90 minutes. All necessary tools are provided. Follow these steps carefully:

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface to prevent scratches. Refer to the included parts list in your separate assembly guide to identify each piece.
2. **Assemble Base Frame:** Connect the side rails and end rails to form the rectangular base of the bed. Secure with the provided bolts and Allen wrench. Do not fully tighten bolts until all parts are aligned.
3. **Attach Vertical Posts:** Connect the four vertical corner posts to the base frame. Ensure they are oriented correctly according to the assembly guide.
4. **Install Triangle Structure:** Attach the upper triangle-shaped posts to the vertical posts, forming the house-like structure. Secure the horizontal top bar between the two peak points.
5. **Insert Bed Slats:** Place the 14 bed slats evenly across the base frame. Secure each slat to the side rails using the designated fasteners. This provides support for the mattress.
6. **Final Tightening:** Once all components are in place and aligned, systematically tighten all bolts and screws. Ensure all connections are firm and secure.
7. **Placement:** Position the assembled bed frame in its desired location. Ensure it is on a flat, stable surface.
8. **Mattress Placement:** Carefully place a standard Twin size mattress onto the bed slats.

Operating and Usage

The Bellemave Twin Size House Bed Frame is designed for comfortable and safe use. Follow these guidelines for optimal experience:

- **Mattress Compatibility:** Use a Twin size mattress (39" x 75"). The bed frame does not require a box spring.
- **Decoration:** The horizontal bar of the house frame can be used for hanging lightweight decorations such as fairy lights, fabric drapes, or small toys. Ensure any decorations are securely attached and do not pose a strangulation or falling hazard.
- **Play Area:** The house structure provides an imaginative space for play. Ensure children play safely and do not climb on the frame or hang heavy objects from it.
- **Low Profile Design:** The low height of the bed makes it easy for young children to get in and out independently.

Maintenance

Proper maintenance will extend the life of your Bellemave Twin Size House Bed Frame.

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these

can damage the powder-coated finish.

- **Fastener Check:** Periodically (e.g., every 3-6 months) inspect all bolts and screws to ensure they are tight. Re-tighten if necessary to maintain stability and safety.
- **Damage Inspection:** Regularly check the frame for any signs of damage, such as bends, cracks, or loose welds. Discontinue use if significant damage is found and contact customer support.
- **Product Care Instructions:** The product care instructions mention "Dry Clean Only" which typically applies to fabric components. Since this is a metal bed frame, this instruction likely refers to any bedding or fabric accessories that might be sold separately or used with the bed. For the metal frame itself, follow the cleaning instructions above.

Troubleshooting

Problem	Possible Cause	Solution
Bed frame feels wobbly or unstable.	Loose bolts or screws. Uneven floor surface.	Ensure all assembly bolts and screws are fully tightened. Move the bed to a level surface or use shims under the feet if the floor is uneven.
Squeaking noises.	Loose connections between metal parts.	Re-tighten all bolts and screws. If squeaking persists, apply a small amount of silicone lubricant to the connection points.
Difficulty assembling parts.	Incorrect orientation of parts. Bolts not aligned with holes.	Refer to the assembly guide and ensure each part is oriented correctly. Do not force parts together. Loosen previously tightened bolts to allow for better alignment.
Mattress slides on the frame.	Smooth surface of slats.	Consider placing a non-slip mat or rug gripper between the mattress and the bed slats.

Specifications

Model Number	bed-frames
Brand	Bellemave
Size	Twin
Color	White
Material	Metal
Finish Type	Powder Coated
Overall Product Dimensions (L x W x H)	78" x 41.3" x 63"
Twin Bed Dimensions (L x W)	75.6" x 39"
Total Height	63"
Number of Bed Slats	14
Recommended Mattress Thickness	6"

Bed Weight Capacity	250 lbs
