Instruction Manual

UYODM 123-AB

UYODM 2-Pack Adhesive Metal Wall Mount Bracket

COMPATIBLE WITH GOOGLE NEST CAM (OUTDOOR/INDOOR, BATTERY - 2ND GENERATION) - MODEL 123-AB

1. INTRODUCTION

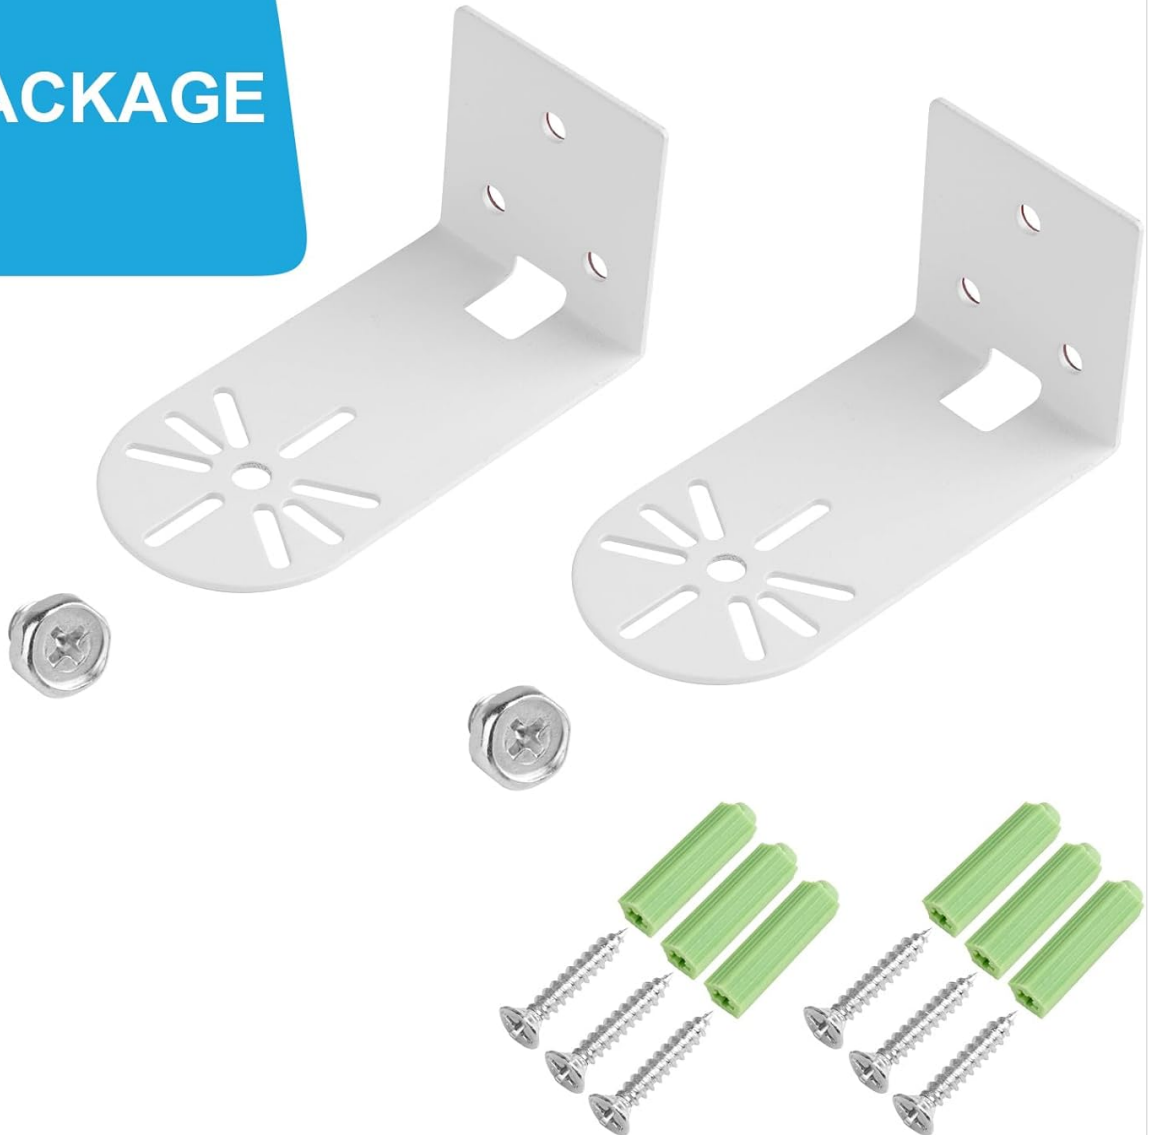

This instruction manual provides detailed guidance for the installation and use of your UYODM 2-Pack Adhesive Metal Wall Mount Bracket. Designed for the Google Nest Cam Outdoor or Indoor, Battery - 2nd Generation, this bracket offers versatile and secure mounting options to optimize your camera's view.

2. PACKAGE CONTENTS

Please verify that all items listed below are included in your package:

- 2 x Metal Wall Mount Brackets
- 2 x 1/4 Screws (for camera attachment)
- 6 x Wall Screws (for bracket installation)
- 6 x Wall Plugs (for screw installation)

PACKAGE

Note: Magnetic base is not included.

Figure 1: Package Contents. This image displays all components included in the UYODM 2-Pack Adhesive Metal Wall Mount Bracket package, ensuring you have everything needed for installation.

3. PRODUCT FEATURES

- **Durable and Sturdy Construction:** Made from high-quality metal with a painted, rust-proof surface for longevity and aesthetic appeal.
- **Versatile Mounting Options:** Supports two installation methods: VHB adhesive for smooth surfaces or screws for a more permanent fixture.
- **Optimized Viewing Angle:** The L-shaped design provides an enhanced view for monitoring, minimizing blind spots.
- **Compatibility:** Specifically designed for Google Nest Cam Outdoor or Indoor, Battery - 2nd Generation. *Note: Not compatible with Google Indoor Nest Security Cam 1080p (Wired).*

4. SAFETY INFORMATION

- Ensure the mounting surface is clean, dry, and structurally sound before installation.
- **VHB Adhesive Warning:** VHB adhesive is not suitable for moist walls or uneven planes. For these surfaces, screw installation is strongly recommended to ensure secure mounting.
- When using screws, ensure appropriate wall plugs are used for the wall material to prevent damage or instability.
- Keep small parts (screws, nuts) out of reach of children to prevent choking hazards.

5. INSTALLATION

The UYODM mount offers two primary installation methods: adhesive or screw-based. Choose the method best suited for your mounting surface.

5.1. Adhesive Installation

1. **Prepare Surface:** Clean the desired mounting surface thoroughly. Ensure it is smooth, dry, and free of dust or grease. Suitable surfaces include smooth glass, tiles, metal, and marble.
2. **Apply Adhesive:** Peel off the protective film from the VHB adhesive pads on the back of the bracket.
3. **Position Bracket:** Firmly press the bracket onto the cleaned surface in the desired location.
4. **Curing Time:** Allow the adhesive to cure for at least **24 hours** before attaching the camera. This ensures maximum adhesion strength.

5.2. Screw Installation

1. **Mark Holes:** Hold the bracket against the wall at the desired mounting location and mark the positions for the screw holes.
2. **Drill Pilot Holes:** Drill pilot holes at the marked positions. For drywall or masonry, insert the provided wall plugs into the pilot holes.
3. **Secure Bracket:** Align the bracket with the pilot holes and secure it using the provided wall screws. Tighten until the bracket is firmly attached to the wall.

Two Installation Methods

Adhesive installation

Suitable for smooth surfaces such as glass, tiles, metal, and marble

Tear off the adhesive film and stick it to the wall for **24 hours** before installing the camera

Screw installation

Suitable for all types of walls

Figure 2: Two Installation Methods. This graphic shows the adhesive method suitable for smooth surfaces like glass, tiles, metal, and marble, and the screw installation method recommended for all types of walls, especially uneven or moist ones.

5.3. Attaching the Camera to the Bracket

1. **Prepare Camera Base:** The Google Nest Cam (Battery) has a magnetic base. The UYODM bracket is designed to work with this.
2. **Secure Camera:** Align the magnetic base of your Google Nest Cam with the circular plate on the UYODM bracket. The camera will magnetically attach to the bracket.
3. **Final Tightening (Optional):** For added security, use the provided 1/4 screws to further secure the camera to the bracket, if applicable to your camera model's base.

Figure 3: Magnetic Attachment. This image illustrates how the Google Nest Cam magnetically connects to the UYODM wall mount bracket for easy and secure placement.

Figure 4: Mounted Camera Example. This image shows a Google Nest Cam securely mounted using the UYODM bracket under the eaves of a building, demonstrating an outdoor installation.

Corner-Mounted

Providing 360° surveillance coverage without any blind spots

Figure 5: Corner-Mounted Camera. This image highlights the L-shaped bracket's ability to provide 360-degree surveillance coverage when corner-mounted, eliminating blind spots.

6. USAGE AND ADJUSTMENT

Once the camera is attached to the bracket, you can easily adjust its angle to achieve the desired monitoring view. The L-shaped design allows for flexible positioning.

Video 2: IP67 Waterproof for Nest Cam Mount Indoor and Outdoor Use. This video showcases the durability and weather resistance of a Nest Cam mount, suitable for both indoor and outdoor environments.

7. MAINTENANCE

- Regularly inspect the bracket and camera for any signs of loosening or damage.
- Clean the bracket with a soft, damp cloth as needed. Avoid abrasive cleaners that could damage the painted surface.
- For outdoor installations, periodically check for debris accumulation around the camera and bracket.

8. TROUBLESHOOTING

- **Bracket not holding (Adhesive):** Ensure the surface was clean, dry, and smooth. Allow the full 24-hour curing time before attaching the camera. If the surface is moist or uneven, switch to screw installation.
- **Camera feels loose:** Verify that the camera's magnetic base is fully engaged with the bracket's plate. If using the 1/4 screws for additional security, ensure they are tightened.
- **Difficulty with screw installation:** Ensure pilot holes are drilled correctly and wall plugs are appropriate for your wall material. Do not overtighten screws to avoid stripping.

9. SPECIFICATIONS

Product Dimensions	3.54 x 1.57 x 1.57 inches
Item Weight	5.9 ounces
Item Model Number	123-AB
Color	White
Special Features	Rust Resistant
Compatible Devices	Nest Cam Outdoor or Indoor, Battery (2nd Generation)
Mounting Type	Wall Mount (Adhesive or Screw)

10. WARRANTY AND SUPPORT

For warranty information or technical support, please refer to the product packaging or contact UYODM customer service directly. Contact details can typically be found on the manufacturer's website or through your point of purchase.
