## Tribesigns Indoor Plant Stand

# Tribesigns 70.9" Tall Indoor Plant Stand User Manual

Model: Indoor Plant Stand | Brand: Tribesigns

## 1. IMPORTANT SAFETY INFORMATION

Please read and understand all instructions before assembly and use. Keep this manual for future reference.

- Ensure all parts are present and undamaged before assembly.
- Do not overtighten screws during assembly to avoid damaging the material.
- Place the plant stand on a flat, stable, and level surface to prevent tipping.
- Distribute weight evenly across the shelves. Do not exceed the maximum load capacity of 200 pounds.
- For added stability, especially in homes with children or pets, consider securing the stand to a wall using appropriate hardware (not included).
- Keep small parts away from children during assembly.
- Avoid exposing the wood shelves to excessive moisture or direct sunlight for prolonged periods to prevent warping or discoloration.

## 2. PACKAGE CONTENTS

Verify that all components listed below are included in your package. If any parts are missing or damaged, please contact Tribesigns customer support.

### 3. SETUP AND ASSEMBLY

---

Assembly is designed to be straightforward. Follow these steps carefully for a stable and secure plant stand.

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Identify all metal frame parts and wooden shelves. Refer to the included Assembly Guide for part identification.
3. Begin by assembling the main vertical metal frames. Secure connections loosely at first.
4. Attach the horizontal support bars and the ladder-style shelves to the main frame. Ensure the ladder shelf design is correctly oriented as per the diagram in the Assembly Guide.
5. Once all major components are in place, gradually tighten all screws and bolts. Do not overtighten.
6. Attach the top mesh shelf and the S-hooks to the designated areas on the top bar.
7. Adjust the foot pads at the base of the stand to ensure stability on uneven floors.
8. Perform a final check to ensure all connections are secure and the stand is stable before placing plants or other items on it.

## 4. OPERATING INSTRUCTIONS (USAGE)

---

The Tribesigns Plant Stand is designed for versatile use, not just for plants but also as a display or storage unit.

- **Plant Display:** Utilize the 7 tiers to arrange various sizes of plant pots. The varying heights of the ladder shelves allow for optimal sunlight exposure for different plant types.
- **Hanging Plants:** Use the 5 S-hooks on the top bar to hang smaller plants, terrariums, or decorative items.
- **Multi-purpose Use:** This stand can also function as a bookshelf, display rack for collectibles, or storage for daily essentials.
- **Placement:** Suitable for indoor use in living rooms, dining areas, balconies, or gardens. Consider placing it in a corner or against a wall to maximize space.
- **Arrangement:** For a symmetrical and visually appealing arrangement, especially if purchasing multiple units, consider setting them up side-by-side or in an L-shape.

## 5. MAINTENANCE

Proper maintenance will ensure the longevity and appearance of your plant stand.

- **Cleaning:** Wipe down the metal frame and wood shelves with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners that could damage the finish.
- **Moisture:** While the engineered wood is durable, it is recommended to use plant saucers or trays under pots to prevent water spills from directly contacting the shelves, which can cause water damage or warping over time.

- **Stability Check:** Periodically check all screws and bolts to ensure they remain tight. Retighten if necessary.
- **Sunlight Exposure:** Prolonged direct sunlight can fade wood finishes. If placing near a window, consider rotating the stand or using curtains to protect it.

## 6. TROUBLESHOOTING

---

Common issues and their solutions.

Problem	Possible Cause	Solution
Stand is wobbly/unstable.	Uneven floor; loose screws; improper assembly.	Adjust the foot pads at the base. Tighten all screws. Review assembly steps in Section 3.
Parts do not align during assembly.	Incorrect orientation of parts; screws overtightened prematurely.	Loosen all screws, re-align parts, then gradually tighten. Ensure parts are not forced. Refer to the Assembly Guide diagrams.
Wood shelves appear discolored or warped.	Excessive moisture exposure; prolonged direct sunlight.	Use plant saucers to prevent water contact. Avoid prolonged direct sunlight. This issue may not be reversible if damage is severe.
Missing parts.	Packaging error.	Contact Tribesigns customer support with your purchase details for replacement parts.
