## TROUBLESHOOTING

If you encounter any issues with your Eafurn Modular Sectional Sofa, refer to the following common solutions:

- **Sofa feels too firm:** New upholstery and foam often require a break-in period. Continued regular use will gradually soften the cushions and improve comfort.
- **Zippers on cushion covers breaking:** Handle zippers gently when removing or replacing covers. Avoid overstuffing cushions. If a zipper breaks, contact customer support for potential replacement parts or advice.
- **Modules not staying connected:** Ensure the connecting brackets on the underside of the modules are fully engaged and locked. Check for any obstructions preventing a secure connection. Verify that all modules are placed on a level surface.
- **Squeaking noises:** Check all leg and module connections to ensure they are tight. If the noise persists, ensure the sofa is on a flat, even surface.
