SETUP

Mounting Options

The LAMTTO Carplay screen offers flexible mounting options to suit various vehicle interiors. Use the 360-degree rotatable suction cup mount for windshield attachment or the self-adhesive bracket for dashboard console placement. Both options ensure secure positioning and easy removal.

OPERATING INSTRUCTIONS

Wireless Carplay & Android Auto

This portable car stereo is compatible with both Apple Carplay and Android Auto. Your smartphone will automatically connect to the Carplay screen upon entering the vehicle. This allows you to access your phone's apps, maps, music, and other features directly on the display.

Mirror Link (Android/IOS)

Connect your smartphone via Apple Airplay or Android Cast to mirror your phone's screen onto the Carplay display. This feature allows you to play videos from platforms like YouTube or TikTok, enjoying high-definition content on the 1600*600 resolution screen.

Image: Demonstrates the Mirror Link feature, enabling video playback from your smartphone on the Carplay screen.

Smart Voice Control (Siri & Google Assistant)

The built-in clear microphone enables hands-free calling while driving. You can send voice commands to access Siri or Google Assistant for tasks such as playing music, navigating, sending messages, or making phone calls, ensuring a safer driving experience.

GPS Navigation

Through CarPlay or Android Auto, the LAMTTO screen provides a real-time smart car navigation system. This eliminates the need for frequent map updates or additional fees, offering convenient and up-to-date directions.

Dual Bluetooth 5.0

Built-in Bluetooth 5.0 chip makes the Bluetooth signal more stable and quickly connects to your phone and car.

Split-Screen Display

The system supports a split-screen display, allowing you to view multiple applications simultaneously. For example, you can have navigation on one side and music playback or camera feed on the other, enhancing multitasking capabilities.

Compared to Traditional Car Stereo

- ✓ No installation skills required
- ✓ Quick installation, 5 minutes to complete
- ✓ Direct replacement if after-sales required
- ✓ Wireless connect with the phone

- ⊗ Installation skills required
- ⊗ Long installation time, take 3 hours
- ⊗ Reassemble the car if after-sales required
- ⊗ Destructive installation

Image: Examples of different split-screen configurations available on the Carplay display.

MAINTENANCE

To ensure the longevity and optimal performance of your LAMTTO Carplay system, regular maintenance is recommended. Keep the touchscreen clean using a soft, lint-free cloth. Avoid abrasive cleaners or solvents that may damage the screen. Periodically check all cable connections to ensure they are secure.

TROUBLESHOOTING

Airplay Incompatibility (IOS 17.2)

There is a known Airplay incompatibility issue with IOS 17.2 version, which may render the Screen Mirroring

function unavailable. If you have updated to IOS 17.2, please contact LAMTTO support to upgrade the system firmware and resolve this issue.

General Troubleshooting

If you encounter any other issues, please try the following:

- Ensure all power and audio cables are securely connected.
- Restart the device by unplugging and re-plugging the power cable.
- Check your smartphone's Bluetooth and Wi-Fi settings to ensure proper pairing.
- Refer to the included manual for specific error codes or advanced troubleshooting steps.
