## Parryware C898F46

# Parryware LUCO Series Full Pedestal Wash Basin

## INSTRUCTION MANUAL - MODEL C898F46

### 1. Introduction

---

Thank you for choosing the Parryware LUCO Series Full Pedestal Wash Basin, Model C898F46. This manual provides essential information for the proper installation, usage, and maintenance of your new ceramic wash basin. Please read these instructions carefully before installation and retain them for future reference to ensure long-lasting performance and satisfaction.

### 2. Safety Information

---

Please observe the following safety precautions during handling and installation:

- Always handle ceramic products with care to prevent chipping or breakage.
- Wear appropriate personal protective equipment (PPE) such as gloves and safety glasses during installation.
- Ensure the installation area is clear and well-lit.
- It is recommended to have two people for lifting and positioning the basin and pedestal due to its weight (approximately 50 kg).
- If you are unsure about any installation steps, consult a qualified plumber or professional installer.

### 3. Package Contents

---

Verify that all components are present and undamaged before proceeding with installation:

- Parryware LUCO Series Wash Basin (White, Ceramic, Rectangular, with 1 Faucet Hole)
- Full Pedestal (Model C898E)
- *Note: Faucet, drain, and mounting hardware are typically sold separately and are not included.*

## 4. Setup and Installation

The Parryware LUCO Series Full Pedestal Wash Basin is designed for freestanding installation. Professional installation is highly recommended to ensure proper fitting and functionality.

### General Installation Steps (Consult a Professional):

1. **Preparation:** Ensure the floor is level and the plumbing connections (water supply and drain) are correctly positioned for a full pedestal basin.
2. **Positioning the Pedestal:** Place the pedestal in the desired location, ensuring it is stable and aligned with the wall.
3. **Mounting the Basin:** Carefully lift the basin and align it with the pedestal and the wall. Mark the drilling points for wall mounting.
4. **Drilling and Securing:** Drill holes as marked and secure the basin to the wall using appropriate fasteners (not included). Ensure the basin is level and firmly attached.
5. **Connecting Plumbing:** Install the faucet into the pre-drilled faucet hole. Connect the water supply lines and the drain assembly according to manufacturer instructions for those components.
6. **Sealing:** Apply a suitable sealant around the edges where the basin meets the wall to prevent water ingress.

7. **Testing:** Turn on the water supply and check for any leaks at all connections.

## 5. Usage

---

The wash basin is designed for standard bathroom use, including hand washing and general hygiene. Ensure that the faucet is properly installed and functioning before use. Avoid placing excessively heavy objects on the basin or applying undue force, as this may cause damage to the ceramic or its mounting.

## 6. Maintenance and Care

---

Proper care will help maintain the appearance and longevity of your Parryware ceramic wash basin:

- **Regular Cleaning:** Clean the basin regularly with non-abrasive cleaners. Mild soap and water are generally sufficient.
- **Avoid Harsh Chemicals:** *Do not use harsh chemicals such as acid-based cleaners, abrasive powders, or scouring pads*, as these can damage the ceramic glaze, leading to scaling and discoloration.
- **Drying:** After cleaning, wipe the basin with a dry, soft cloth to prevent water spots and maintain its shine.
- **Stain Removal:** For stubborn stains, use a ceramic-safe cleaner and follow the product's instructions.

## 7. Troubleshooting

---

Here are some common issues and general advice:

- **Leaks:** If you notice any leaks around the faucet or drain, check all connections for tightness. If the leak persists, consult a plumber.
- **Slow Drainage:** A slow draining basin often indicates a partial blockage in the drain pipe. Try using a plunger or a chemical drain cleaner (ensure it is safe for your plumbing system). If the issue continues, professional help may be required.
- **Chips or Cracks:** Ceramic is durable but can chip or crack if subjected to heavy impact. Small chips can sometimes be repaired with ceramic repair kits. For significant damage, replacement may be necessary.

## 8. Specifications

---

<b>Model Number</b>	C898F46
<b>Series</b>	LUCO
<b>Mount Type</b>	Full Pedestal, Freestanding
<b>Shape</b>	Rectangular
<b>Color</b>	White
<b>Material</b>	High Quality Durable Ceramic
<b>Product Dimensions (Overall L x W x H)</b>	51 cm x 42 cm x 71 cm

<b>Basin Dimensions (Approx. D x W x H)</b>	42 cm x 39 cm x 11 cm
<b>Item Weight</b>	Approximately 50 kg
<b>Faucet Holes</b>	1 Hole
