## Huffy Green Machine 20 Inch Drift Trike User Manual

Model: 98623

### INTRODUCTION

Welcome to the Huffy Green Machine 20 Inch Drift Trike user manual. This guide provides essential information for the safe assembly, operation, maintenance, and troubleshooting of your new drift trike. Please read this manual thoroughly before use to ensure a safe and enjoyable experience.

The Huffy Green Machine 20 Inch Drift Trike is designed for thrilling rides, featuring dual-stick steering for precise control, a durable steel frame, and exciting LED light accents. It is built for riders aged 8 and up, supporting up to 180 pounds, and includes an adjustable seat to accommodate growing riders.

### IMPORTANT SAFETY INFORMATION

Your safety is paramount. Always adhere to the following safety guidelines when operating the Huffy Green Machine:

- Always wear a properly fitted helmet that meets safety standards.
- Ensure adequate space for use, away from traffic, pedestrians, and obstacles.
- Adult supervision is recommended, especially for younger riders.
- Do not ride on public roads, uneven surfaces, or near steep inclines/declines.
- Inspect the trike before each ride for loose parts, damaged components, or worn tires.

- Do not modify the trike in any way, as this may compromise its safety and performance.
- Keep hands and feet clear of moving parts.

As stated in the product information: Always wear a helmet and ensure adequate space for use.

## PACKAGE CONTENTS

Upon opening the package, please verify that all the following components are present:

- Drift trike (main frame and pre-assembled parts)
- Batteries (for LED lights)
- User Manual

If any parts are missing or damaged, please contact Huffy customer support immediately.

## SETUP AND ASSEMBLY

While the Huffy Green Machine comes partially assembled, some setup is required before its first use. Follow these general steps:

1. Carefully remove all components from the packaging.
2. Attach the front wheel and handlebars according to the detailed instructions provided in the separate assembly guide (if included). Ensure all bolts are securely tightened.
3. Install the batteries for the LED lights as indicated in the light compartment.
4. Adjust the seat to the rider's height for optimal comfort and control. The seat offers three adjustable positions.

## OPERATING YOUR GREEN MACHINE

The Huffy Green Machine is designed for intuitive operation, allowing riders to quickly master its unique features.

### Dual-Stick Steering

The trike features dual-stick steering, providing precise control for executing turns, 180-degree spins, and smooth side drifts. Push and pull the sticks to guide the front wheel and initiate drifts. Experiment with different movements to master various maneuvers.

### Coaster Brake

The front coaster brake allows for easy and confident stopping. To engage the brake, simply pedal backward. This mechanism provides reliable stopping power when needed.

### **LED Light Accents**

The Huffy Green Machine is equipped with bright LED lights located under the seat and on the rear wheels. These lights illuminate during operation, adding a dynamic visual element to your ride. Ensure batteries are properly installed for light functionality.

## CARE AND MAINTENANCE

Regular maintenance will extend the life of your Huffy Green Machine and ensure continued safe operation:

- Cleaning:** Wipe down the trike with a damp cloth after each use to remove dirt and debris. Avoid using harsh chemicals or abrasive cleaners.
- Inspections:** Periodically check all nuts, bolts, and fasteners to ensure they are tight. Loose components can affect performance and safety.
- Tires:** Inspect the front tire for wear and proper inflation. The rear wheels are designed for drifting and are durable, but check for any damage.
- LED Lights:** If the LED lights dim or stop working, replace the batteries. Refer to the battery compartment for the correct battery type and installation.
- Storage:** Store the trike in a dry, covered area away from direct sunlight and extreme temperatures to prevent material degradation.

## TROUBLESHOOTING

Refer to the table below for common issues and their potential solutions:

Problem	Possible Cause	Solution
LED lights not working or dim	Dead or incorrectly installed batteries	Replace batteries with new ones, ensuring correct polarity.

Problem	Possible Cause	Solution
Steering feels loose or unresponsive	Loose bolts on handlebars or steering mechanism	Inspect and tighten all bolts related to the steering assembly.
Trike not drifting smoothly	Riding surface is too rough or grippy; rear wheels are worn	Ensure you are riding on a smooth, flat, and appropriate surface. Check rear wheels for excessive wear.
Coaster brake not engaging	Brake mechanism requires adjustment or is damaged	Consult a qualified bicycle technician or contact Huffy support for assistance.

## PRODUCT SPECIFICATIONS
