World War Supply GP100, Security Six, Model 686, Python, Model 66

World War Supply Black Leather Shoulder Holster for Revolvers: User Manual

Model: GP100, Security Six, Model 686, Python, Model 66

Introduction

This manual provides comprehensive instructions for the proper setup, operation, and maintenance of your World War Supply Black Leather Shoulder Holster. Please read this manual thoroughly before using the product to ensure correct usage and longevity.

Product Overview

The World War Supply Black Leather Shoulder Holster is designed for comfortable and secure carry of various revolvers. It features premium drum-dyed leather construction and integrated shell loops for ammunition storage.

Key Features:

- Premium Drum Dyed Leather construction.
- Shell Loops designed to hold up to 12 rounds of .38/.357 ammunition.
- Officially Licensed World War Supply product.

Compatible Revolvers:

- Ruger GP100 (.38/.357 caliber, up to 6" barrel)
- Ruger Security Six (.38/.357 caliber, up to 6" barrel)
- Smith & Wesson Model 686 L Frame (.38/.357 caliber, up to 6" barrel)
- Colt Python (.38/.357 caliber, up to 6" barrel)
- Taurus Model 66 (.38/.357 caliber, up to 6" barrel)

Setup and Adjustment

Proper adjustment of your shoulder holster is crucial for comfort and secure retention. Follow these steps to fit the holster to your body.

1. **Initial Fitting:** Place the holster over your shoulder. The holster pouch should rest comfortably under your arm, and the shoulder strap should sit securely on your shoulder.
2. **Adjusting Shoulder Strap Length:** The shoulder strap features a buckle for length adjustment. Adjust the strap so

the holster hangs at a comfortable and accessible height. Ensure the weight is evenly distributed.

3. **Securing the Leg Tie-Down:** The holster includes a leather loop at the bottom for a leg tie-down strap (not included). This strap helps stabilize the holster against your body, preventing excessive movement during activity. Thread a suitable strap through this loop and secure it around your thigh.

Operating Instructions

This section details the proper use of your shoulder holster for carrying your revolver and ammunition.

1. **Inserting the Revolver:** Carefully slide your compatible revolver into the holster pouch. Ensure the firearm is fully seated and the trigger guard is covered. The leather may be stiff initially and will conform to your firearm with use.
2. **Securing the Retention Strap:** The holster features a retention strap with a snap closure. Fasten this strap over the hammer or grip of your revolver to secure it in place.
3. **Using Shell Loops:** The shoulder strap is equipped with shell loops. Insert .38 or .357 caliber rounds into these loops for convenient access to spare ammunition. The loops are designed for a snug fit to prevent rounds from falling out.

Maintenance

To ensure the longevity and performance of your leather shoulder holster, follow these maintenance guidelines:

- **Cleaning:** Wipe the leather with a damp cloth to remove dirt and dust. Avoid harsh chemicals or abrasive cleaners.
- **Conditioning:** Periodically apply a quality leather conditioner to keep the leather supple and prevent drying or cracking. Follow the conditioner manufacturer's instructions.
- **Storage:** Store the holster in a cool, dry place away from direct sunlight and extreme temperatures. Avoid storing in plastic bags, which can trap moisture.
- **Breaking In:** New leather holsters can be stiff. Regular use and conditioning will help the leather conform to your firearm and body over time.

Troubleshooting

This section addresses common issues you might encounter with your shoulder holster.

- **Holster feels too stiff:** Leather holsters require a break-in period. Repeatedly inserting and drawing your firearm, along with applying leather conditioner, will help soften the leather.
- **Revolver fit is too tight:** Ensure your firearm is one of the compatible models listed. During the break-in period, the fit will be snug. Do not force the firearm, as this can damage the holster or firearm finish.
- **Holster moves excessively:** Re-adjust the shoulder strap for a tighter fit. Consider using a leg tie-down strap to secure the bottom of the holster to your thigh, preventing swinging.
