

Aigostar Difusor de Aromaterapia

Aigostar 100ml Ultrasonic Essential Oil Diffuser User Manual

Model: Difusor de Aromaterapia

1. INTRODUCTION

Thank you for choosing the Aigostar Ultrasonic Essential Oil Diffuser. This device combines the benefits of an aromatherapy diffuser and an air humidifier, designed to enhance your environment with soothing aromas and comfortable humidity. Its elegant retro design and multi-color LED lighting create a relaxing atmosphere in any room.

This manual provides detailed instructions for the safe and efficient use of your diffuser. Please read it thoroughly before operation and retain it for future reference.

2. IMPORTANT SAFETY INFORMATION

To ensure safe operation and prevent damage, please observe the following precautions:

- Avoid direct contact with undiluted essential oils.
- Keep the device out of reach of children and pets.
- Ensure adequate ventilation during use.
- Do not exceed the maximum water fill line (100ml).
- Use only clean tap water or distilled water.
- Do not immerse the unit in water or other liquids.
- Unplug the device before cleaning or refilling.
- Do not block the mist outlet.

3. PRODUCT OVERVIEW

The Aigostar Essential Oil Diffuser features an ultrasonic atomizer for fine mist dispersion, a 100ml water tank, and customizable lighting options.

Image 2: Visual representation of the diffuser's key features, including ultrasonic atomization, aromatherapy diffusion, humidification, 100ml capacity, 7-color light, and 4 timer options.

Key Components:

- **Mist Outlet:** Where the aromatic mist is released.
- **Decorative Casing:** Outer shell with tree pattern.
- **Water Tank:** Holds up to 100ml of water and essential oils.
- **Power Button:** Controls power and mist timer settings.
- **Light Button:** Controls LED light colors and modes.
- **Power Port:** For connecting the power adapter.

4. SETUP INSTRUCTIONS

Follow these steps to set up your diffuser:

1. **Open the Casing:** Gently twist and lift the top casing to reveal the water tank.
2. **Add Water and Essential Oil:** Fill the water tank with clean water up to the 100ml maximum fill line. Add 3-5 drops of your preferred essential oil directly into the water. Do not overfill.
3. **Connect Power:** Connect the power adapter to the power port at the bottom of the diffuser, then plug

the adapter into a wall outlet.

4. **Close the Casing:** Place the top casing back onto the base and twist gently to secure it.

Open

Twist gently and remove the casing

Add to

Add water and favorite essential oil (max: 100ml)

Cover

Cover the case and press the power button to start working

Connect

Connect the power adapter to the power port of the aromatherapy machine

5. OPERATING INSTRUCTIONS

Mist Control (Power Button):

Press the Power button to turn on the mist and cycle through timer settings:

- **First Press:** 1-hour continuous mist.
- **Second Press:** 2-hour continuous mist.
- **Third Press:** 3-hour continuous mist.
- **Fourth Press:** Continuous mist until water runs out (H+).
- **Fifth Press:** Turn off the mist.

The diffuser features an automatic shut-off function when the water level is low, ensuring safety and preventing damage.

Image 4: The diffuser displaying its timer options: 1 hour, 2 hours, 3 hours, and continuous (H+).

Light Control (Light Button):

Press the Light button to control the LED illumination:

- **First Press:** Lights cycle through 7 colors automatically.
- **Subsequent Presses:** Fix the light to a specific color. Continue pressing to cycle through the 7 available colors.
- **Long Press:** Turn off the light.

The soft LED lights can also function as a night light, aiding relaxation and sleep.

6. MAINTENANCE

Regular cleaning helps maintain the diffuser's performance and extends its lifespan.

Cleaning the Water Tank:

1. Unplug the diffuser from the power outlet.
2. Remove the top casing and empty any remaining water from the tank.
3. Wipe the inside of the water tank with a soft cloth or sponge. For stubborn residue, use a small amount of white vinegar diluted with water.
4. Rinse the tank thoroughly with clean water, ensuring no vinegar residue remains.
5. Wipe the ultrasonic plate gently with a cotton swab dipped in vinegar if mineral buildup is present. Do not scrub or use abrasive materials.
6. Allow all parts to air dry completely before reassembling or storing.

External Cleaning:

Wipe the exterior of the diffuser with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.

7. TROUBLESHOOTING

If you encounter issues with your diffuser, please refer to the following common problems and solutions:

- **No Mist or Low Mist Output:**

- Ensure the water level is between the minimum and maximum fill lines.
- Check if the power adapter is securely connected.
- Clean the ultrasonic plate as described in the Maintenance section. Mineral buildup can affect mist production.
- Ensure the top casing is properly aligned and secured.

- **No Power/Unit Not Turning On:**

- Verify the power adapter is correctly plugged into both the diffuser and the wall outlet.
- Test the wall outlet with another appliance to confirm it is working.

- **Light Not Working:**

- Press the Light button to cycle through modes or turn it on.
- Ensure the diffuser has power.

- **Unusual Noise:**

- Ensure the diffuser is placed on a flat, stable surface.
- Check if the water level is too low or too high.

If the problem persists after trying these solutions, please contact customer support.
