

SONOFF M5-1C-120W

SONOFF M5-1C-120W Matter Smart Light Switch User Manual

Model: M5-1C-120W | Brand: SONOFF

1. INTRODUCTION

This manual provides detailed instructions for the installation, setup, operation, and maintenance of your SONOFF M5-1C-120W 1-Gang Matter Smart Light Switch. Please read this manual thoroughly before installation and use to ensure proper function and safety.

2. SAFETY INFORMATION

WARNING: Risk of electric shock. Installation should be performed by a qualified electrician or service personnel. Ensure power is turned off at the circuit breaker before installation or maintenance.

- Always disconnect power at the circuit breaker before working with electrical wiring.
- This device requires a neutral wire for operation. Verify your electrical box has a neutral wire before installation.
- Do not install with wet hands or when standing on wet or damp surfaces.
- Ensure all wire connections are secure and properly insulated.
- Operate within the specified voltage and current ratings (100-240V AC, 10A Max).
- The product is FCC certified for safety.

3. PACKAGE CONTENTS

The SONOFF M5-1C-120W Smart Light Switch package includes:

- 1 x Smart Switch

Note: Additional accessories like screws or wire nuts may be included or required for installation.

4. PRODUCT OVERVIEW

The SONOFF M5-1C-120W is a 1-gang Matter-compatible smart light switch designed for seamless

integration into your smart home ecosystem. It supports 2.4GHz WiFi connectivity and can be controlled via the eWeLink app, voice commands through Alexa and Google Home, and other Matter-enabled platforms like Apple Home and SmartThings.

5. INSTALLATION

Before You Begin: Ensure the power is OFF at the circuit breaker. This switch requires a neutral wire. If your electrical box does not have a neutral wire, this switch is not compatible.

1. **Turn Off Power:** Locate your circuit breaker panel and turn off the power to the light switch you are replacing. Verify the power is off using a voltage tester.
2. **Remove Old Switch:** Carefully remove the existing wall plate and unscrew the old switch from the electrical box. Disconnect the wires from the old switch, noting which wire was connected to which terminal.
3. **Identify Wires:** You should identify the Live (Line), Load, and Neutral wires. The ground wire should also be present.
4. **Connect New Switch:** Connect the wires to the SONOFF M5-1C-120W switch according to the wiring diagram. Ensure the Live wire connects to L-in, Load wire to L-out, and Neutral wire to N. Connect the ground wire if available.

eWeLink-Remote Gateway Function

SONOFF's R5 series can be added as a sub-unit to jointly control the same device

Image: Diagram showing the wiring connections for the SONOFF M5 Smart Switch, including Live, Load, and Neutral terminals.

5. **Mount Switch:** Gently push the wired switch into the electrical box and secure it with screws. Attach the wall plate.
6. **Restore Power:** Turn the power back on at the circuit breaker. The switch indicator light should illuminate.

6. SETUP

6.1 eWeLink App Pairing

1. Download the eWeLink app from the App Store or Google Play.
2. Register or log in to your eWeLink account.
3. Put the switch into pairing mode (refer to the device's specific instructions for pairing mode activation, usually by pressing and holding a button).
4. In the eWeLink app, tap the "+" icon to add a device and follow the on-screen instructions to complete the pairing process.

6.2 Matter Integration

The SONOFF M5-1C-120W supports the Matter protocol, allowing integration with various smart home platforms.

1. Ensure your Matter controller (e.g., Google Home Hub, Apple HomePod, Amazon Echo, SmartThings Hub) is set up and online.
2. Follow the instructions provided by your specific Matter controller app to add a new Matter device.
3. Scan the Matter QR code located on your device or its packaging, or manually enter the pairing code.
4. Complete the setup process within your chosen smart home app.

Time to Switch to "Matter" Life

7. OPERATING INSTRUCTIONS

7.1 Manual Control

Press the physical button on the switch to turn the connected light ON or OFF.

7.2 App Remote Control

Use the eWeLink app or your integrated smart home app (Google Home, Apple Home, Alexa, SmartThings) to control the light switch remotely from anywhere with an internet connection.

App Remote Control

Enjoy The Convenience of Smart Life

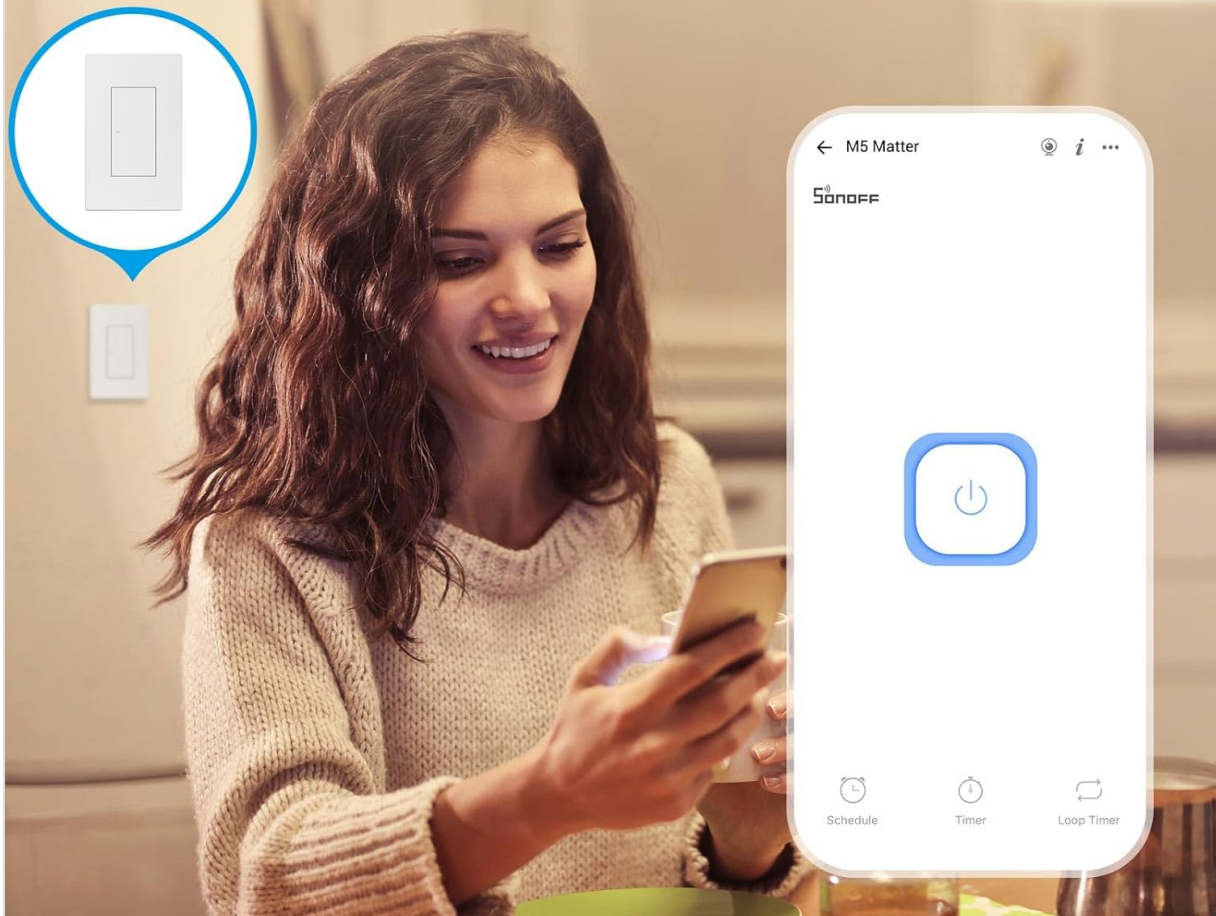

Image: A user controlling the smart switch remotely using the eWeLink application on a smartphone.

7.3 Voice Control

Integrate with voice assistants like Amazon Alexa or Google Home for hands-free control. Once linked, use commands such as:

- "Alexa, turn on the living room light."
- "Hey Google, turn off the kitchen light."

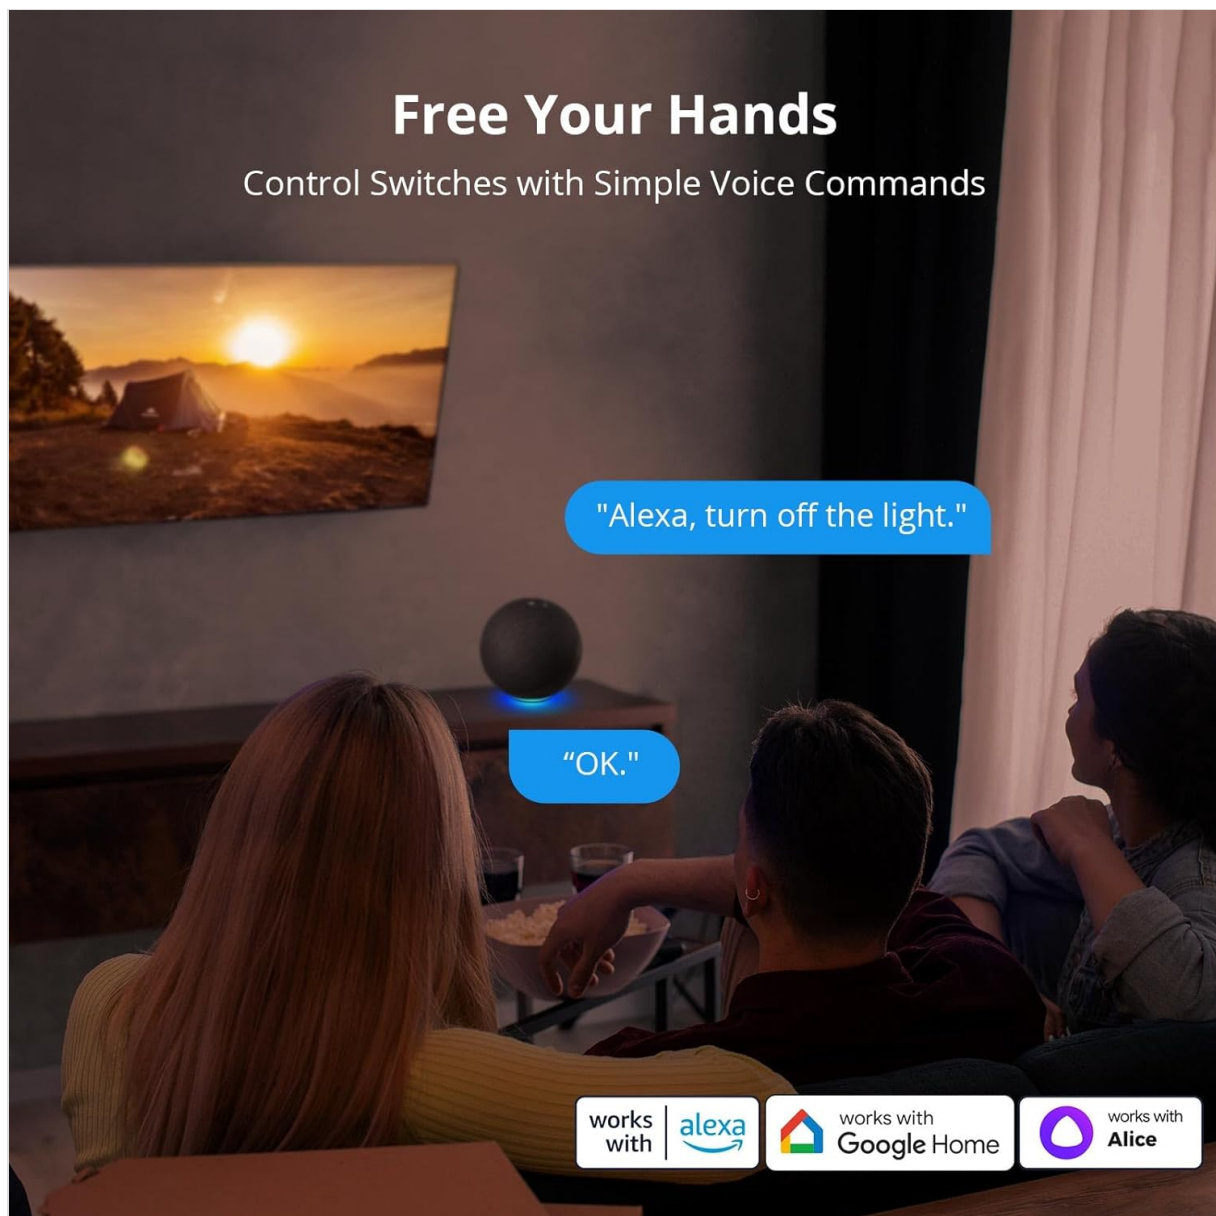

Image: A couple using voice commands with an Alexa device to control their smart lighting.

7.4 Scheduling and Routines

Set custom schedules and timers within the eWeLink app or your smart home platform to automate your lighting. For example, schedule lights to turn on at sunset or off at bedtime.

Scheduled On / Off

Share Surprise Moments With Your Loved Ones

Image: A graphic illustrating a scheduled ON/OFF event for the smart switch, depicted with a clock overlay on a festive gathering.

7.5 Smart Scenes

Create smart scenes to link your light switch with other smart devices. For instance, set up a scene where the light turns on automatically when a door sensor detects entry.

Smart Scene Makes Your Life Convenient

Add a smart scene to build a linkage with DW2-WiFi door sensor which makes the light is turned on automatically when you open the door.

Image: A smart scene demonstrating a door sensor (DW2-WiFi) triggering the smart light switch to turn on the light upon opening the door.

7.6 Two-Way Control (with R5 series)

Utilize SONOFF's R5 series scene controllers to achieve two-way or multi-way control without complex wiring, allowing you to control the same light from multiple locations.

eWeLink-Remote Gateway Function

SONOFF's R5 series can be added as a sub-unit to jointly control the same device

Image: Diagram illustrating the eWeLink-Remote Gateway Function, where an R5W scene controller can jointly control the same device as the M5 Matter switch for two-way control.

7.7 Adjust LED Backlight

The LED indicator on the switch button can be adjusted for brightness to suit your preference, especially for locating the switch in the dark or minimizing disturbance during sleep. This adjustment is typically done through the eWeLink app.

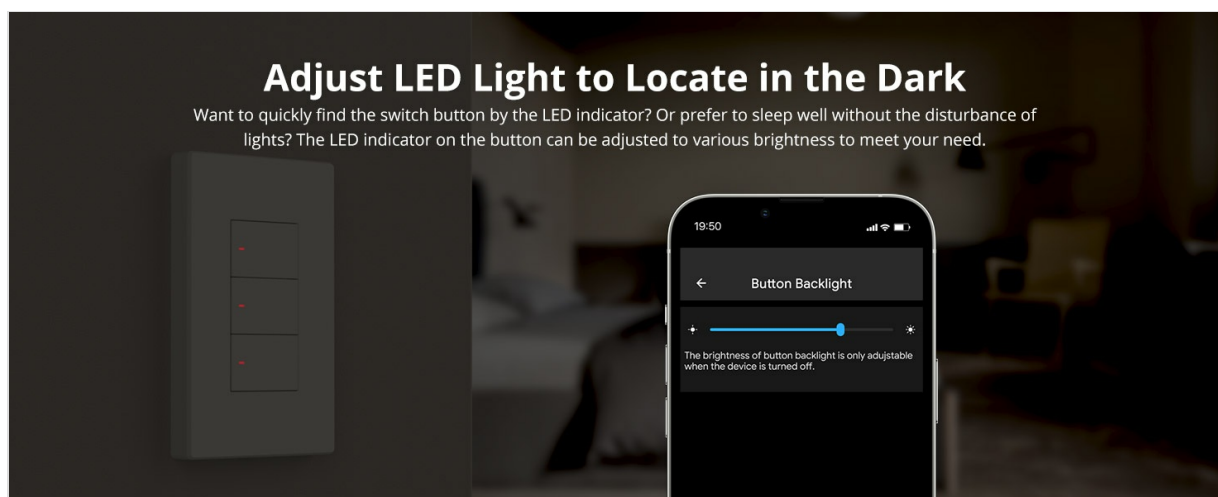

Image: A smartphone screen showing the eWeLink app interface for adjusting the brightness of the LED backlight on the smart switch.

8. MAINTENANCE

- Clean the switch surface with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Ensure the switch is kept dry and away from excessive moisture.
- Periodically check for firmware updates through the eWeLink app to ensure optimal performance and security.

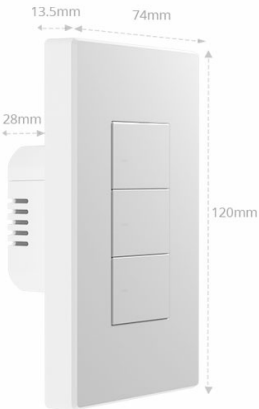

9. TROUBLESHOOTING

- **Device Offline:**
 - Check your Wi-Fi router and ensure it is powered on and functioning correctly.
 - Verify the switch is within range of your 2.4GHz Wi-Fi network.
 - Restart the switch by turning off the power at the circuit breaker for 10 seconds, then turning it back on.
 - If the issue persists, try re-pairing the device with the eWeLink app or your Matter controller.
- **Voice Control Not Working:**
 - Ensure the smart switch is properly linked to your Alexa, Google Home, or other voice assistant account.
 - Check the device name in your voice assistant app; ensure it is easily recognizable.
 - Verify your voice assistant device is online and responsive.
- **Light Not Responding:**
 - Check the physical connection of the light bulb and the switch wiring.
 - Ensure the light bulb is functional.
 - Verify the switch has power.

10. SPECIFICATIONS

Product Dimensions	4.72 x 2.91 x 1.61 inches; 7.78 ounces
Item Model Number	M5-1C-120W
Brand	SONOFF
Operation Mode	ON-OFF
Current Rating	10 Amps
Operating Voltage	100-240 Volts AC
Contact Type	Normally Closed
Connector Type	Clamp
Terminal	Screw

Circuit Type	1-way
Actuator Type	Voice Recognition
Casing Material	PC V0 + CRS
Working Temperature	-10°C to 40°C
Certification	CE/FCC/ISED
Wi-Fi	IEEE 802.11 b/g/n 2.4GHz

Model:
M5-1/2/3C-120W

Gang:
1-gang/2-gang/3-gang

Casing material:
PC V0 + CRS

Working temperature:
-10°C~40°C

Certification:
CE/FCC/ISED

Wi-Fi:
IEEE 802.11 b/g/n 2.4GHz

Max. load:

1C: 2200W

2C: 2200W (1100W/Gang)

3C: 1320W (440W/Gang)

Input:

1C:100-240V 50/60Hz 10A Max

2C:100-240V 50/60Hz 10A Max

3C:100-240V 50/60Hz 6A Max

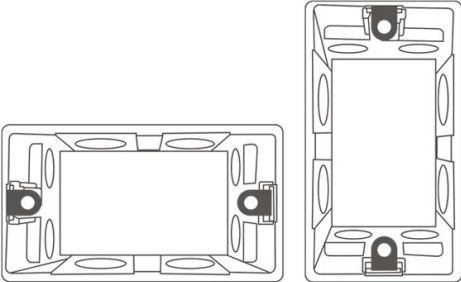

Output:

1C:100-240V AC 50/60Hz 10A Max

2C:100-240V AC 50/60Hz 5A/Gang

3C:100-240V AC 50/60Hz 2A/Gang
