

ANOUV P1011

ANOUV P1011 10000mAh Portable Power Bank

Instruction Manual

INTRODUCTION

Thank you for choosing the ANOUV P1011 10000mAh Portable Power Bank. This device is designed to provide reliable and fast charging for your electronic devices on the go. Its ultra-slim and lightweight design makes it an ideal companion for travel and daily use. This manual will guide you through the setup, operation, and maintenance of your new power bank.

PRODUCT FEATURES

- **Ultra-Slim and Lightweight Design:** Measuring only 4.01 x 2.63 x 0.66 inches, this 10000mAh power bank is designed for portability, easily fitting into pockets or bags.
- **PD 22.5W Fast Charging:** Equipped with advanced PD 3.0 & QC 3.0 technology, it offers up to 22.5W fast charging and recharging. It features a USB-A output and a Type-C input/output port.
- **Wide Compatibility:** Compatible with a broad range of smart devices, including smartphones (Android and iOS), tablets, and laptops, ensuring versatile use.
- **Smart Protection Chip:** Built-in safeguards protect your devices against overcurrent, overheating, and overcharging, ensuring safety for both the power bank and your electronics.
- **Digital Display:** An integrated digital display shows the remaining battery percentage, allowing you to monitor power levels easily.

PACKAGE CONTENTS

- 1x ANOUV P1011 10000mAh Portable Power Bank
- 1x Type-C Fast Charging Cable
- 1x User Manual

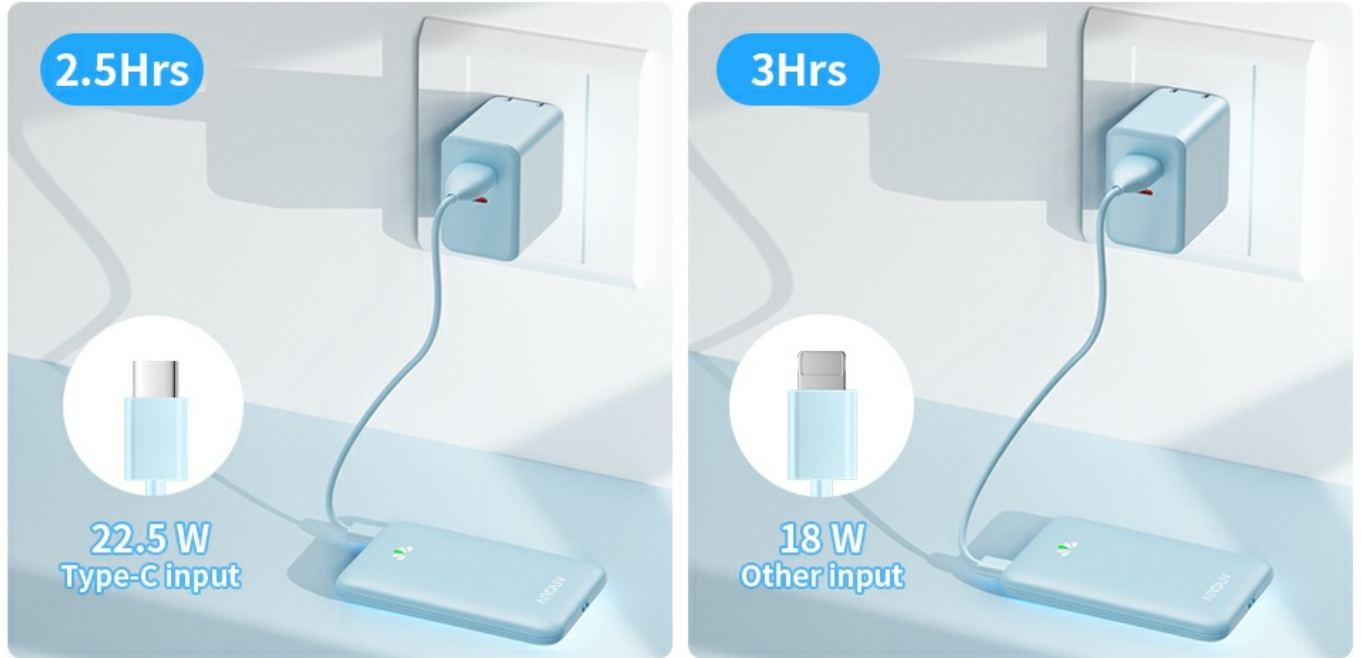

SETUP AND RECHARGING THE POWER BANK

1. **Initial Charge:** Before first use, fully charge your ANOUV P1011 Power Bank. Connect the provided Type-C cable to the power bank's Type-C input/output port and the other end to a compatible wall adapter (not included).

2. **Charging Time:** The power bank supports 22.5W Type-C input for fast recharging, taking approximately 2.5 hours for a full charge. Using an 18W input via another port will take approximately 3 hours.
3. **Battery Indicator:** The digital display will show the charging progress and current battery percentage.

Two Ways for Fast Recharge

Save 70% of recharging time!

ANOUV P1011 Power Bank demonstrating two fast recharging methods: 2.5 hours via 22.5W Type-C input and 3 hours via 18W other input.

OPERATING INSTRUCTIONS

1. **Charging Your Device:** Connect your device's charging cable to either the USB-A output port or the Type-C input/output port on the power bank. The power bank will automatically begin charging your device.
2. **Fast Charging:** For optimal fast charging, ensure your device and charging cable support PD 3.0 or QC 3.0 protocols. The power bank can deliver up to 22.5W output.
3. **Checking Battery Level:** The digital display on the power bank will show the current battery percentage.
4. **Simultaneous Charging:** The power bank supports charging two devices concurrently.

Charge 2 Devices Simultaneously

MAINTENANCE

- Keep the power bank dry and away from moisture.

- Avoid exposing the device to extreme temperatures (hot or cold).
- Do not disassemble, crush, or puncture the power bank.
- Clean the device with a soft, dry cloth. Avoid using harsh chemicals.
- Store in a cool, dry place when not in use for extended periods.

TROUBLESHOOTING

- **Device not charging:** Ensure the power bank is sufficiently charged. Check that the charging cables are securely connected to both the power bank and your device. Try using a different cable or port.
- **Slow charging:** Verify that your cable and device support fast charging protocols (PD 3.0 or QC 3.0) to achieve 22.5W speeds.
- **Power bank not recharging:** Ensure the charging cable and wall adapter are functioning correctly. Try a different cable or power source.
