Soocas X3U-NEW Pink

Soocas X3U-NEW Pink Electric Toothbrush User Manual

Model: X3U-NEW Pink | Brand: Soocas

1. INTRODUCTION

This manual provides essential information for the safe and effective use of your Soocas X3U-NEW Pink Electric Toothbrush. Please read it thoroughly before first use and retain it for future reference.

Image: The Soocas X3U-NEW Pink Electric Toothbrush, including the handle, three different brush heads, a facial brush, and a travel case.

2. SAFETY INFORMATION

- Do not charge the device in a wet environment to prevent electrical hazards.
- Do not use this product while it is charging.
- Keep out of reach of children under 6 years old.
- Consult a dentist before use if you have severe gum disease or oral surgery.
- The product contains ABS and METAL components.

3. PACKAGE CONTENTS

Verify that all items are present in your package:

- Soocas X3U-NEW Pink Electric Toothbrush Handle
- 3 x Toothbrush Heads (Clean, Sensitive, Polish)
- 1 x Facial Brush Head

- 1 x Travel Case
- 1 x USB-C Charging Cable
- User Manual (this document)

Image: An illustration showing the four different brush types: whitening, facial cleansing, sensitive, and standard cleaning.

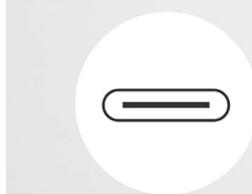

Image: The electric toothbrush and its heads neatly stored within the included travel case.

4. SETUP

- 1. Charge the Device:** Before first use, fully charge the toothbrush. Connect the USB-C charging cable to the port at the bottom of the handle and plug it into a compatible USB power source (e.g., power bank, laptop, adapter, car charger). A full charge takes approximately 4 hours.
- 2. Attach Brush Head:** Align the desired brush head with the metal shaft on the toothbrush handle and push it down firmly until it clicks into place.

4-Hour Charging for 30 Days

USB-C quick charger

*Based on 2-minute brushing time, twice a day

5. OPERATING INSTRUCTIONS

5.1 Power On/Off and Mode Selection

- Press the power button once to turn on the toothbrush. It will start in the last used mode due to the Smart Memory Chip Technology.
- Press the power button repeatedly within 5 seconds to cycle through the available modes: Cleaning, Sensitive, Gentle, Whitening.
- To turn off the toothbrush, press and hold the power button for 2 seconds, or press the power button once if it has been operating in the same mode for more than 5 seconds.

5.2 Brushing Technique and Smart Timer

- Apply a small amount of toothpaste to the brush head.
- Place the brush head against your teeth at a slight angle towards the gum line.
- Move the brush slowly across your teeth, allowing the sonic vibrations to clean each tooth surface. Do not scrub vigorously.
- The toothbrush features a **2-minute Smart Timer**, which is the dentist-recommended brushing time.
- A **30-second Reminder** will briefly pause the vibrations every 30 seconds, signaling you to move to a different quadrant of your mouth.

5.3 Using the Facial Brush

- Attach the facial brush head to the toothbrush handle.
- Wet your face and apply your preferred facial cleanser to the brush head or directly to your skin.
- Gently move the facial brush in circular motions across your face. The high-density bristles provide deep cleaning, while the patterned silicone massages and soothes the skin.
- Rinse your face and the facial brush thoroughly after use.

Video: An official product video from the seller demonstrating the features and operation of the Soocas X3U-NEW Pink Electric Toothbrush.

6. CHARGING

- The Soocas X3U-NEW Pink Electric Toothbrush features a long-lasting battery. A 4-hour charge provides approximately 30 days of use (based on 2 minutes of brushing, twice daily).
- To charge, locate the USB-C port at the bottom of the handle.
- Connect the provided USB-C cable to the toothbrush and a suitable USB power source.
- The battery indicator light will show charging status.

Image: An illustration of the battery indicator on the toothbrush handle, showing the current charge level.

7. MAINTENANCE AND CARE

7.1 Cleaning the Toothbrush

- After each use, rinse the brush head thoroughly under running water while the toothbrush is still on to remove any remaining toothpaste and debris.
- Turn off the toothbrush and remove the brush head. Rinse the brush head and the metal shaft of the handle separately.
- Wipe the handle with a damp cloth. Do not immerse the entire handle in water for extended periods, although it is IPX7 waterproof.
- Ensure the charging port cover is securely closed when not charging to maintain water resistance.

Image: The Soocas electric toothbrush partially submerged in water, demonstrating its IPX7 waterproof capability for easy cleaning.

7.2 Replacing Brush Heads

- Dentists recommend replacing toothbrush heads every 3 months, or sooner if the bristles appear frayed or worn.
- To remove a brush head, pull it straight off the handle.
- To attach a new brush head, align it with the metal shaft and push down firmly until it clicks.

- The brush heads feature DuPont Soft Bristles with 100% rounded ends and non-metal bristles for effective yet gentle cleaning.

Image: A diagram detailing the DuPont Soft Bristles technology, highlighting features like increased bristle count, 100% rounded ends, and non-metal construction for gentle and effective cleaning.

8. TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|--|---|--|
| Toothbrush does not turn on. | Battery is depleted. | Charge the toothbrush for at least 4 hours. |
| Weak vibration or reduced performance. | Low battery or worn brush head. | Recharge the toothbrush. Replace the brush head if it is old or frayed. |
| Toothbrush does not charge. | Charging cable or adapter issue; charging port not clean. | Ensure the USB-C cable is properly connected and the power source is functional. Clean the charging port if necessary. |
| Unusual noise during operation. | Brush head not properly attached. | Remove and re-attach the brush head, ensuring it clicks into place. |

9. SPECIFICATIONS
