Sector No Limits 450 Series Quartz Watch R3253276011 User Manual

Model: R3253276011

INTRODUCTION

Thank you for choosing the Sector No Limits 450 Series Quartz Watch, model R3253276011. This manual provides essential information for the proper setup, operation, and maintenance of your timepiece. Please read it carefully to ensure optimal performance and longevity of your watch.

PRODUCT OVERVIEW

The Sector No Limits 450 Series watch (R3253276011) is a men's analog watch featuring a quartz movement, time, and date functions. It is crafted from stainless steel with a metal bracelet and a secure deployant clasp. The watch case measures 41.00 mm and features a black dial protected by a durable mineral glass. It offers water resistance up to 10 ATM (100 meters).

SETUP

1. Unboxing and Initial Inspection

- Carefully remove the watch from its original packaging.
- Inspect the watch for any visible damage or defects.
- Confirm all components are present: watch, original packaging, and 3-year warranty certificate.

2. Adjusting the Bracelet

The stainless steel bracelet may require adjustment to fit your wrist comfortably. This typically involves removing or adding links. It is recommended to have this procedure performed by a qualified jeweler or watch technician to prevent damage to the bracelet or clasp.

OPERATING INSTRUCTIONS

Setting the Time

1. **Pull out the crown:** Gently pull the crown (the knob on the side of the watch) to the second click position. The watch hands will stop.
2. **Adjust the time:** Rotate the crown to set the hour and minute hands to the desired time.
3. **Push in the crown:** Once the time is set, push the crown back into its normal position. The watch will resume operation.

Setting the Date

1. **Pull out the crown:** Gently pull the crown to the first click position. The watch hands will continue to move.
2. **Adjust the date:** Rotate the crown to set the date. Avoid setting the date between 9 PM and 3 AM, as this can

interfere with the date change mechanism. If the date needs to be set during this period, first set the time outside this range, adjust the date, then reset the time.

3. **Push in the crown:** Once the date is set, push the crown back into its normal position.

MAINTENANCE

General Care

- **Cleaning:** Wipe the watch regularly with a soft, dry cloth to remove dust and dirt. For the stainless steel bracelet, a slightly damp cloth can be used, followed by immediate drying.
- **Avoid Chemicals:** Do not expose the watch to harsh chemicals, solvents, or detergents, as these can damage the case, bracelet, or seals.
- **Temperature Extremes:** Avoid exposing the watch to extreme temperatures (hot or cold) or sudden temperature changes, which can affect the movement and water resistance.
- **Magnetic Fields:** Keep the watch away from strong magnetic fields (e.g., speakers, refrigerators, mobile phones) as they can affect the accuracy of the quartz movement.

Water Resistance (10 ATM / 100 Meters)

Your Sector No Limits watch is water resistant up to 10 ATM (100 meters), making it suitable for swimming, snorkeling, and recreational diving.

- **Ensure Crown is Pushed In:** Always ensure the crown is fully pushed in before exposing the watch to water.
- **Avoid Hot Water:** Do not operate the crown or pushers while the watch is wet or submerged. Avoid exposing the watch to hot water, steam, or saunas, as this can compromise the water-resistant seals.
- **Rinse After Saltwater:** After exposure to saltwater, rinse the watch with fresh water and dry it thoroughly.

Battery Replacement

As a quartz watch, it is powered by a battery. When the battery runs low, the watch may stop or the second hand may jump in irregular intervals (End-of-Life indicator). Battery replacement should be performed by a qualified watch technician to ensure proper sealing and maintain water resistance.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Watch has stopped or is running intermittently.	Low battery.	Replace the battery by a qualified technician.
Time is incorrect.	Time not set correctly; exposure to strong magnetic fields.	Reset the time according to "Setting the Time" instructions. Keep watch away from magnetic sources.

Problem	Possible Cause	Solution
Date is incorrect.	Date not set correctly; date changed during restricted hours.	Reset the date according to "Setting the Date" instructions. Avoid setting date between 9 PM and 3 AM.
Condensation under the crystal.	Loss of water resistance due to damaged seals or improper crown closure.	Immediately take the watch to a qualified service center for inspection and repair.

SPECIFICATIONS

- **Model Number:** R3253276011
- **Brand:** Sector No Limits
- **Collection:** 450 Series
- **Movement:** Quartz
- **Display Type:** Analog
- **Functions:** Time, Date
- **Case Material:** Stainless Steel
- **Case Diameter:** 41 mm
