## Hot Wheels SRT Viper GTS-R

# Hot Wheels Neon Speeders 1:64 Diecast SRT Viper GTS-R Instruction Manual

## 1. INTRODUCTION

---

This manual provides essential information for the Hot Wheels Neon Speeders 1:64 Diecast SRT Viper GTS-R model. It covers setup, operation, maintenance, and specifications to ensure proper handling and enjoyment of your diecast vehicle.

This image displays the Hot Wheels Neon Speeders 1:64 Diecast SRT Viper GTS-R model, showcasing its design and vibrant neon accents.

## 2. SETUP

The Hot Wheels Neon Speeders 1:64 Diecast SRT Viper GTS-R is ready for use directly out of its packaging. No assembly or battery installation is required.

1. **Unboxing:** Carefully remove the diecast car from its packaging. Ensure all packaging materials are discarded responsibly.
2. **Inspection:** Before play, inspect the vehicle for any visible damage or manufacturing defects.

### 3. OPERATING

---

This diecast model is designed for imaginative play and display. It features free-rolling wheels for smooth movement on various surfaces.

- **Play Surface:** Use the car on clean, flat, and smooth surfaces to prevent damage to the wheels or body.
- **Handling:** Handle the diecast car by its body to avoid bending or breaking smaller components like mirrors or spoilers.
- **Compatibility:** This model is compatible with most Hot Wheels tracks and playsets designed for 1:64 scale vehicles.

### 4. MAINTENANCE

---

Proper care will help preserve the appearance and functionality of your diecast model.

- **Cleaning:** To clean the car, gently wipe it with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Avoid abrasive cleaners or harsh chemicals.
- **Storage:** Store the diecast car in a cool, dry place away from direct sunlight and extreme temperatures to prevent paint fading or material degradation.
- **Avoid Impact:** Diecast models are durable but can be damaged by hard impacts or drops.

### 5. TROUBLESHOOTING

---

Most issues with diecast cars are related to physical damage or improper handling.

- **Wheels Not Rolling Smoothly:** Check for any debris caught in the axles or bent axles. Gently remove debris. If an axle is bent, careful straightening may be possible, but excessive force can cause breakage.
- **Paint Chipping/Scratches:** This is typically due to normal wear and tear or impacts during play. There is no repair method for paint chips on diecast models.
- **Loose Parts:** If a small part becomes loose, it may be reattached with a small amount of model-safe adhesive, if appropriate for the material.

### 6. SPECIFICATIONS

---

Feature	Detail
Brand	Hot Wheels
Model	Neon Speeders SRT Viper GTS-R

Scale	1:64
Material	Metal
Control Method	Touch
Item Weight	3.98 ounces
