ECR4Kids ELR-3501-CT

ECR4Kids SoftZone Adventurer's Summit Slide, Corner Climber, Contemporary, 4-Piece Instruction Manual

Model: ELR-3501-CT

1. PRODUCT OVERVIEW

The ECR4Kids SoftZone Adventurer's Summit Slide Corner Climber is a 4-piece foam playset designed for indoor active play. This versatile set includes one pedestal, one slide, one side mat, and one corner pad. It encourages early muscle development, coordination, balance, and overall body control in young children. The pieces can be used independently or configured together to create various play structures.

2. SAFETY INFORMATION

- **Adult Supervision Required:** Active, engaged, and direct adult supervision is required at all times when children are using the climber.
- **Clear Play Area:** Ensure the play area around the climber is clear of obstacles to prevent injuries. The required clear space is dependent on the child's height.
- **Corner Placement:** For enhanced stability and safety, it is recommended to assemble the climber in a corner of a room.
- **Certifications:** This product is UL GREENGUARD Gold Certified for low VOCs, CPSIA compliant, and adheres to CAL TB 117 requirements. It is latex-free.

Play Safely

Create a safe play space by keeping the area around the climber clear; space is dependent on your child's height.

Grown up supervision required

3. COMPONENTS

The ECR4Kids SoftZone Adventurer's Summit Slide, Corner Climber includes the following 4 pieces:

- 1 x Pedestal Block
- 1 x Slide Piece
- 1 x Side Mat
- 1 x Corner Pad

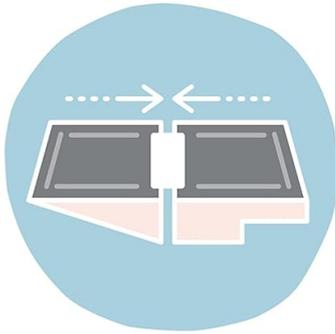

4. SETUP AND ASSEMBLY

The 4-piece set is designed for easy assembly and configuration. The pieces are lightweight and can be arranged in various ways to suit your play space.

4.1 Connecting Pieces

The SoftZone climbers come with detachable stay-put fastener strips to connect pieces together securely. Ensure the fasteners are properly aligned and pressed firmly to create a stable connection.

Stay-Put Fasteners

SoftZone[®] climbers come with detachable fastener strips to connect pieces together

Placement of fasteners vary by pieces and set

Image 4.1: Detail of the stay-put fasteners used to connect the individual foam pieces.

4.2 Corner Configuration

For optimal stability and to maximize the play area, assemble the pieces in a corner of a room. The corner pad and side mat can be positioned to create a safe landing zone.

5. USAGE INSTRUCTIONS

The Adventurer's Summit Slide is designed to encourage physical activity and developmental skills in toddlers and young children.

5.1 Recommended Age

This product is recommended for children aged 6 months to 3 years.

5.2 Play Activities

- **Climbing and Crawling:** Children can climb onto the pedestal, crawl over the corner pad, and navigate the various foam shapes.
- **Sliding:** The slide piece provides an incline for children to slide down, promoting balance and coordination.
- **Exploration:** The different shapes encourage children to explore, step up, and develop gross motor skills.
- **Social Play:** Multiple children can play simultaneously, fostering a collaborative environment and encouraging socialization.

Soft Foam Climber

Children will build essential physical, cognitive and social skills as they play

Image 5.2: A toddler sitting on one of the foam blocks, demonstrating its use as a stable platform.

Image 5.3: A toddler actively climbing onto a foam block, supported by an adult.

5.3 Versatile Configurations

The four pieces can be rearranged to create different play scenarios. They can also be combined with additional SoftZone sets (sold separately) to form larger play structures, such as a 360-degree climber.

6. MAINTENANCE

6.1 Cleaning Instructions

The foam core is covered with water-resistant polyurethane vegan leather, making it easy to clean. Wipe surfaces with a damp cloth and mild soap as needed. Allow to air dry completely before use.

Image 6.1: A hand demonstrating the ease of cleaning the water-resistant surface of the foam mat.

6.2 Storage

The playset is lightweight and designed to stack for space-saving storage when not in use.

6.3 Non-Slip Base

The pieces feature a non-slip base made from reinforced, textured material to help keep them in place during use.

Non-Slip Base

Reinforced material that you can count on

Textured bottom that makes it easy to find the floor side

Helps keep item in place while in use
