TELE System TS40FLFHDSMV13

TELE System Smart TV 40 inch Full HD TS40FLFHDSMV13 User Manual

Model: TS40FLFHDSMV13

1. INTRODUCTION

This manual provides essential information for the proper installation, operation, and maintenance of your TELE System Smart TV 40 inch Full HD TS40FLFHDSMV13. Please read this manual thoroughly before using the product and retain it for future reference.

The TELE System TS40FLFHDSMV13 is a Smart TV powered by VIDAA, designed to integrate terrestrial and satellite TV content in High Definition using DVB-T2/S2 HEVC technology. Its frameless design allows for seamless integration into various environments. The TV is Tivùsat HD certified, ensuring compatibility with Tivùsat CAMs for access to numerous Italian and international TV channels. It also supports the HbbTV 2.0.2 protocol, offering interactive applications and features like program restart.

Image 1.1: TELE System Smart TV with VIDAA interface displaying various streaming app icons. This image shows the TELE System Smart TV powered by VIDAA, featuring its home screen with popular streaming applications like Netflix, YouTube, Disney+, Prime Video, and more. Two remote controls are visible on the left side.

2. SAFETY INFORMATION

Always follow basic safety precautions when using this television to reduce the risk of fire, electric shock, and injury.

- Do not expose the TV to rain or moisture.
- Do not open the TV casing; refer all servicing to qualified personnel.
- Ensure proper ventilation around the TV.
- Avoid placing the TV on unstable surfaces.
- Unplug the TV during lightning storms or when unused for long periods.

3. PACKAGE CONTENTS

Please check that all items are present and in good condition:

- TELE System Smart TV TS40FLFHDSMV13
- Standard Remote Control
- Easy Remote Control (with larger buttons)
- Quick Start Guide
- Warranty Paper
- SCART/RCA Adapter Cable
- Power Cable
- TV Stand Components (screws, base)

Image 3.1: Two TELE System remote controls, one standard and one 'EASY' version with larger buttons. This image displays the two remote controls included with the TV. On the left is the standard remote with full functionality, and on the right is the 'EASY' remote, designed with larger buttons for essential functions, catering to users who prefer simplicity.

4. SETUP

4.1. Stand Assembly

1. Carefully place the TV screen-down on a soft, flat surface to prevent damage.
2. Attach the stand components to the bottom of the TV using the provided screws. Ensure they are securely fastened.
3. Place the TV upright on a stable, level surface.

4.2. Connections

Connect your external devices to the TV using the appropriate ports:

- **Power:** Connect the power cable to the TV and then to a wall outlet.
- **Antenna/Satellite:** Connect your terrestrial antenna or satellite dish cable to the DVB-T2 or DVB-S2 input.

- **HDMI:** For high-definition devices like Blu-ray players, gaming consoles, or set-top boxes.
- **Ethernet (LAN):** For a wired internet connection.
- **USB:** For connecting USB storage devices for media playback or the TV Pause function.
- **SCART/RCA:** Use the provided adapter cable for older devices.

4.3. Initial Setup Wizard

Upon first power-on, the TV will guide you through an initial setup process. This typically includes:

- Language selection.
- Network connection (Wi-Fi or Ethernet).
- Channel scanning (DVB-T2/S2).
- Time and date settings.

5. OPERATING INSTRUCTIONS

5.1. Remote Controls

Your TV comes with two remote controls: a standard remote for full functionality and an 'EASY' remote with larger buttons for essential operations, designed for simplified use.

5.2. VIDAA Smart TV Features

The TV is powered by the VIDAA operating system, providing access to a wide range of streaming applications such as Netflix, Prime Video, YouTube, Disney+, Timvision, DAZN, and Mediaset Infinity. Navigate the smart interface using your remote control to access these services.

5.3. Tivùsat HD

The TV is Tivùsat HD certified. To access Tivùsat channels, you will need a compatible Tivùsat CAM (Conditional Access Module) and a smart card, which can be inserted into the CI+ slot on the TV.

5.4. TV Pause Function

To utilize the 'TV Pause' function, connect a USB 2.0 hard drive to the TV's USB port. This feature allows you to pause live television broadcasts and resume viewing at your convenience. Activate it by pressing the dedicated 'TV Pause' button on your remote control.

Image 5.1: TELE System Smart TV displaying a 'TV Pause' overlay during video playback. The TV screen displays a 'TV Pause' interface, indicating the ability to pause live television. A CAM Tivùsat module is shown inserted into the TV's side slot, and the two remote controls are visible on the left.

5.5. HbbTV (Hybrid Broadcast Broadband TV)

The TV supports HbbTV 2.0.2, which provides interactive services and additional content from broadcasters. When available, an on-screen prompt will appear, allowing you to access these services, including catch-up TV and program restart features.

5.6. Hotel Mode

This TV includes a Hotel Mode, suitable for multi-user environments. Features include web privacy settings, custom boot logos, menu language selection, auto standby, and cloning functions for easy setup across multiple units. Consult the advanced settings menu for Hotel Mode configuration.

6. MAINTENANCE

6.1. Cleaning the Screen

Gently wipe the screen with a soft, lint-free cloth. For stubborn marks, slightly dampen the cloth with water or a specialized screen cleaner. Do not use harsh chemicals or abrasive materials.

6.2. Cleaning the Casing

Wipe the TV casing with a soft, dry cloth. Avoid using liquid cleaners directly on the TV.

6.3. Ventilation

Ensure that the ventilation openings on the TV are not blocked to prevent overheating. Regularly dust these openings.

7. TROUBLESHOOTING

If you encounter issues with your TV, refer to the following common solutions:

- **No Power:** Check if the power cable is securely connected and the wall outlet is functioning.

- **No Picture/Sound:** Verify that the correct input source is selected. Check all cable connections to external devices.
- **Poor Picture Quality:** Check antenna/satellite signal strength. Ensure cables are properly connected.
- **Remote Control Not Working:** Replace batteries. Ensure there are no obstructions between the remote and the TV's IR sensor.
- **Smart Features Not Working:** Check your internet connection (Wi-Fi or Ethernet). Restart the TV and your router.

For persistent issues, consult the full user manual (if available online) or contact customer support.
