

## Zedamsan BP970W

# Zedamsan Portable Charger for MagSafe Instruction Manual

Model: BP970W

Brand: Zedamsan

## INTRODUCTION

Thank you for choosing the Zedamsan Portable Charger for MagSafe. This 5000mAh wireless magnetic power bank is designed to provide convenient and fast charging for your compatible iPhone models and other devices. Please read this manual carefully to ensure proper use and maintenance of your device.

## PACKAGE CONTENTS

- 1x 5000mAh Magnetic Wireless Power Bank
- 1x USB-C to USB-C Charging Cable
- 1x Travel Pouch
- 1x Instruction Manual

## PRODUCT OVERVIEW

The Zedamsan BP970W power bank features a compact design with multiple charging options.

Image: The Zedamsan Portable Charger (blue) magnetically attached to the back of a white iPhone, showcasing its slim profile and seamless integration.

It supports both wireless magnetic charging and wired charging via USB-C and USB-A ports, allowing you to charge up to three devices simultaneously.

# Magnetic Charging

For iPhone 12/13/14/15 series (15W)

Image: A detailed diagram highlighting the power bank's features, including the magnetic charging area, battery indicator lights, USB-A output, Lightning input, and Type-C input/output ports.

- **Magnetic Wireless Charging:** Directly snaps onto MagSafe-compatible iPhones (iPhone 12/13/14/15/16 series) for convenient wireless charging up to 15W.
- **Wired Fast Charging:** USB-C port supports up to 20W input/output, and USB-A port delivers up to 22.5W output for fast charging of various devices.
- **Compact and Lightweight:** Measuring only 10.2 x 6.6 x 1.3 cm (4.0 x 2.6 x 0.5 inches) and weighing 125g (4.4 oz), it easily fits into pockets or handbags.
- **Simultaneous Charging:** Capable of charging up to three devices at once (one wirelessly, two wired).

# Card Size & Lightweight

## Fits in any pocket

## SETUP

---

### Charging the Power Bank

Before first use, fully charge your Zedamsan power bank. Use the provided USB-C to USB-C cable or a compatible Lightning cable to connect the power bank to a power adapter (not included).

1. Connect the USB-C end of the cable to the power bank's USB-C port.
2. Connect the other end of the cable to a compatible USB-C power adapter.
3. The LED indicator lights on the side of the power bank will illuminate to show the charging status. All lights will be solid when fully charged.

# Pass-through Charging

## Charge it up while charging your phone

Image: The Zedamsan Portable Charger connected to a wall adapter for charging, demonstrating its pass-through charging capability where it can charge itself and an iPhone simultaneously.

## OPERATING INSTRUCTIONS

### Wireless Magnetic Charging (for iPhone 12/13/14/15/16 series)

1. Ensure your iPhone is MagSafe compatible (iPhone 12 series or newer) and either has no case or a MagSafe-compatible case.
2. Align the power bank with the back of your iPhone. The magnets will automatically snap it into place.
3. The power bank will automatically begin wireless charging.

## Multiple Charging Support

The wireless charger can charge **3** Devices

simultaneously, convenient and fast

Image: An illustration showing the strong magnetic connection between the Zedamsan power bank and an iPhone, with a green charging icon indicating active charging.

## Wired Charging (USB-C and USB-A)

1. Connect your device's charging cable to the appropriate port on the power bank (USB-C or USB-A).
2. Connect the other end of the cable to your device.
3. The power bank will automatically begin charging your device.

# Two-way Charging

15W Max iPhone Wireless Charging, 22.5W Max Wired Charging

Image: A visual representation of the power bank's two-way charging capability, showing both wireless charging of an iPhone and wired charging of another device simultaneously.

## Checking Battery Level

Press the power button once to activate the LED indicator lights, which show the remaining battery capacity of the power bank.

## COMPATIBILITY

This magnetic power bank is primarily designed for MagSafe-compatible iPhones, including:

- iPhone 16, iPhone 16 Plus, iPhone 16 Pro, iPhone 16 Pro Max

- iPhone 15, iPhone 15 Plus, iPhone 15 Pro, iPhone 15 Pro Max
- iPhone 14, iPhone 14 Plus, iPhone 14 Pro, iPhone 14 Pro Max
- iPhone 13, iPhone 13 Pro, iPhone 13 Pro Max
- iPhone 12, iPhone 12 Pro, iPhone 12 Pro Max

The USB-C and USB-A ports offer broad compatibility with other devices that charge via these standards, such as Android phones, tablets, earbuds, smartwatches, and more.

## Fast Wireless & Wired Charging

15W Max Wireless Charging

22.5W Max Wired Charging

## SAFETY INFORMATION

Your Zedamsan power bank is equipped with a Smart Protect Safety System to ensure comprehensive protection for you and your devices. This includes:

# Smart Protect Safety System

Comprehensive safety system ensures complete protection for you and your devices

Short-circuit protection

Over-current protection

Over-voltage protection

Temperature protection

Overcharge protection

Image: Icons representing the safety features of the power bank: Short-circuit protection, Over-current protection, Over-voltage protection, Temperature protection, and Overcharge protection.

- **Short-circuit Protection:** Prevents damage from short circuits.
- **Over-current Protection:** Safeguards against excessive current flow.
- **Over-voltage Protection:** Protects against voltage surges.
- **Temperature Protection:** Monitors and regulates internal temperature to prevent overheating.
- **Overcharge Protection:** Prevents battery damage from overcharging.

## Important Safety Precautions:

- Do not expose the power bank to extreme temperatures (hot or cold), direct sunlight, or high humidity.
- Do not disassemble, modify, or repair the device yourself.
- Keep out of reach of children.

- Avoid dropping or subjecting the power bank to strong impacts.
- If the power bank becomes excessively hot during use or charging, disconnect it immediately.

## MAINTENANCE

---

- Clean the power bank with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store the power bank in a cool, dry place when not in use.
- For optimal battery life, fully charge the power bank at least once every three months if it's not used regularly.

## TROUBLESHOOTING

---

### **Power bank not charging:**

- Ensure the charging cable is securely connected to both the power bank and the power adapter.
- Try a different charging cable or power adapter.
- Verify the power adapter is functioning correctly and plugged into a live outlet.

### **Device not charging from power bank:**

- For wireless charging, ensure your iPhone is MagSafe compatible and properly aligned with the power bank's magnetic area. Remove any non-MagSafe cases.
- For wired charging, ensure the cable is securely connected to both the power bank and your device.
- Check if the power bank has sufficient charge by pressing the power button.
- Try a different charging cable.

### **Power bank or device getting hot during charging:**

- It is normal for charging devices to generate some heat. However, if it becomes excessively hot, disconnect immediately.
- Ensure there is adequate ventilation around the power bank and device during charging.
- Avoid charging in direct sunlight or enclosed spaces.
