ASHATA Under-Pillow Sleep Speaker User Manual

Model: ASHATAvgmb6cyitw-11 | Brand: ASHATA

INTRODUCTION

Thank you for choosing the ASHATA Under-Pillow Sleep Speaker. This innovative device is designed to enhance your sleep experience by providing private, soothing audio directly through your pillow, without disturbing others. Utilizing advanced conduction technology, it delivers clear sound for relaxation, meditation, or listening to music. Please read this manual carefully to understand the product's features, setup, and operation, ensuring optimal performance and longevity.

PRODUCT OVERVIEW

Package Contents

- ASHATA Under-Pillow Sleep Speaker
- USB Charging Cable
- Lanyard
- User Manual (this document)

The ASHATA Under-Pillow Speaker, along with its USB charging cable and black lanyard, as included in the package.

Key Features

- **Conduction Technology:** Vibrates sound through your pillow for private listening without disturbing others.
- **Sleep Enhancement:** Quiet music helps relieve stress and promotes faster, deeper sleep.
- **Long Battery Life:** Up to 20 hours of continuous playback on a single charge.
- **Bluetooth 5.3:** Ensures stable, high-quality audio transmission with a reliable connection.

- **Timer Function:** Automatic shut-off options (30, 60, 90 minutes) for energy saving and undisturbed sleep.
- **Dual Mode (MP3 & Bluetooth):** Supports music playback via Bluetooth connection or directly from a memory card (up to 32GB, not included) in MP3 mode.
- **Compact and Portable:** Lightweight design, ideal for home use or travel.

A top-down view of the ASHATA Under-Pillow Speaker, highlighting its minimalist white design and speaker grille.

SETUP

Initial Charging

1. Before first use, fully charge the speaker.
2. Connect the provided USB charging cable to the speaker's charging port.
3. Connect the other end of the USB cable to a standard USB power adapter (5V) or a computer's USB port.
4. The charging indicator light will illuminate. A full charge takes approximately 2 hours.
5. Once fully charged, the indicator light will change or turn off (refer to specific light behavior in the Operating Instructions section).

Placement

Place the speaker directly under your pillow, near your head. The conduction technology works best when the speaker is in direct contact with the pillow material, allowing sound vibrations to travel effectively.

360 DEGREE GENTLE SINGING

Sleep speakers

360 degree gentle sleep

Black technology boneinduction technology allows you to enjoy music 365 degree, no need to wear it to sleep peacefully, and babies can use it with confidence

The speaker positioned under a pillow, demonstrating its intended use for sleep sound delivery.

OPERATING INSTRUCTIONS

Power On/Off

- **Power On:** Press and hold the power button for approximately 3 seconds until the indicator light flashes and you hear a power-on prompt.
- **Power Off:** Press and hold the power button for approximately 3 seconds until the indicator light turns off and you hear a power-off prompt.

Bluetooth Pairing

1. Ensure the speaker is powered on and in pairing mode (indicator light will be flashing rapidly).
2. On your smartphone, tablet, or other Bluetooth-enabled device, go to the Bluetooth settings.
3. Search for available devices. The speaker will appear as "ASHATA Speaker" or a similar name.
4. Select the speaker from the list to pair. Once successfully paired, the indicator light will stop flashing and remain solid, and you will hear a confirmation sound.
5. You can now play audio from your device through the speaker.

10m/32.8ft wireless distance, strong signal acceptance
wireless 5.3 chip, fast connection, strong signal, high speed transmission without delay

The speaker maintaining a stable wireless connection with a smartphone, illustrating its effective Bluetooth range.

MP3 Mode (Memory Card Playback)

The speaker supports MP3 playback directly from a memory card (up to 32GB, not included). This mode is ideal for pre-loading sleep sounds or music without needing a connected device.

1. Insert a memory card with MP3 audio files into the designated card slot on the speaker.
2. The speaker will automatically switch to MP3 mode or you may need to press a mode button (refer to specific button layout on your device).
3. Use the speaker's controls (if available) to play, pause, skip tracks, or adjust volume.

Timer Function

The timer function allows the speaker to automatically turn off after a set period, conserving battery and ensuring uninterrupted sleep.

- To activate the timer, press the timer button (or specific control, refer to device markings).
- Each press will cycle through available timer settings: 30 minutes, 60 minutes, 90 minutes, and off.
- The speaker will automatically power off once the selected timer duration expires.

Volume Control

Adjust the volume using the controls on the speaker itself or directly from your connected Bluetooth device.

MAINTENANCE

- **Cleaning:** Wipe the speaker with a soft, dry cloth. Do not use abrasive cleaners or immerse the device in water.
- **Storage:** When not in use for extended periods, store the speaker in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the speaker frequently. Charge it regularly, even if not in constant use.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound from speaker.	Speaker is off; Low battery; Volume too low; Not paired correctly; Incorrect mode.	Ensure speaker is powered on; Charge the speaker; Increase volume on speaker and device; Re-pair Bluetooth; Switch to correct mode (Bluetooth/MP3).
Cannot pair with Bluetooth device.	Speaker not in pairing mode; Device too far; Bluetooth interference.	Ensure speaker is flashing for pairing; Move device closer (within 10m/32.8ft); Turn off other Bluetooth devices; Restart speaker and device.
Speaker not charging.	Cable faulty; Power source issue; Charging port damaged.	Try a different USB cable; Use a different power adapter/USB port; Contact customer support if port is damaged.
Sound quality is poor.	Speaker placement; Low battery; Source audio quality.	Adjust speaker position under pillow; Charge the speaker; Try different audio files/sources.
