SETUP INSTRUCTIONS

The VOUNOT Large Foldable Clothes Drying Rack is designed for easy setup with no complex assembly required. Simply unfold it for immediate use.

Unfolding the Drying Rack:

1. Place the folded rack on a flat, stable surface.
2. Gently pull the main frame outwards from the center until it fully extends and locks into its open position.
3. Unfold the two side wings by lifting them upwards and outwards until they are horizontal.
4. Ensure all parts are securely in place before loading clothes.

OPERATING INSTRUCTIONS

Using the Drying Surfaces:

The rack offers two main drying levels and two extendable side wings. Utilize these surfaces to hang various types of garments. The removable drying mesh, located on the lower level, is ideal for delicate items that need to lie flat, promoting efficient air circulation and faster drying.

Using the Casters and Brakes:

The four lower wheels allow for easy movement of the drying rack, even when fully loaded. To move the rack, ensure the two brakes are disengaged. Once the rack is in the desired position, press down on the brake levers on two of the casters to lock them, preventing any accidental movement.

Using Integrated Accessories:

The rack includes a practical adjustable storage box, perfect for keeping clothespins or other small laundry accessories organized and within reach. Additionally, integrated sock clips are provided for conveniently hanging small items like socks or underwear.

FOLDING AND STORAGE

When not in use, the VOUNOT drying rack can be quickly folded for compact storage, saving valuable space.

Folding the Drying Rack:

1. Ensure all clothes and accessories are removed from the rack.
2. Fold the two side wings inwards until they are flush with the main frame.
3. Collapse the main frame inwards from the center until the rack is in its compact, folded position.
4. The stable structure allows the folded rack to remain upright, making it easy to store in narrow spaces.

MAINTENANCE

- **Cleaning:** Wipe down the stainless steel and plastic components with a soft, damp cloth. For stubborn dirt, a mild soap solution can be used. Rinse thoroughly and dry immediately.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish and materials.
- **Drying Before Storage:** Ensure the rack is completely dry before folding and storing to prevent rust on metal parts and mildew on the mesh.
- **Regular Inspection:** Periodically check all parts for any signs of wear, damage, or loose connections. Tighten any loose screws if necessary.

TROUBLESHOOTING

- **Rack feels unstable:** Ensure the rack is fully extended and all parts are securely locked into place.

Verify that the weight of the clothes is distributed evenly.

- **Casters not rolling smoothly:** Check the wheels for any lint, hair, or debris that might be obstructing their movement. Clean as necessary. Ensure brakes are fully disengaged.
- **Clothes not drying efficiently:** Avoid overloading the rack. Ensure there is adequate space between garments for air to circulate. Utilize the removable mesh for items that benefit from lying flat.
- **Difficulty folding/unfolding:** Ensure no parts are obstructed. Apply gentle, even pressure. If resistance is met, check for any misaligned components.
