MAINTENANCE AND CARE

To ensure the longevity and pristine appearance of your YASONIC Rolling Cart, follow these simple maintenance guidelines:

- **Cleaning:** Wipe down the metal surfaces and mesh baskets with a soft, damp cloth. For tougher stains, a mild soap solution can be used, followed by thorough drying. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Finish:** The cart is treated with a proven epoxy high-temperature baking process, resulting in an odorless, smooth, and chip-resistant finish. This coating makes it durable and easy to clean.
- **Wheel Care:** Periodically check the wheels for any debris or hair that might hinder smooth rolling. Clean as necessary. Ensure the locking mechanisms on the wheels are functioning correctly.
- **Weight Capacity:** Do not exceed the maximum weight capacity of 110 pounds (36 pounds per shelf) to prevent damage to

the cart and ensure stability.
