IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

- Read all instructions before using this blanket.
- Do not use with a generator, power converter, or inverter.
- Do not use with damaged cords or plugs.
- Do not use with other heating devices.
- Do not use for infants, children, incapacitated persons, or persons insensitive to heat.
- Do not use if wet.
- Do not use if folded, bunched, or creased.
- Always unplug the blanket when not in use.
- Do not dry clean this product. Dry cleaning solvents may damage the insulation of the heating element.
- Do not iron this product.
- Do not use pins or other metallic objects with this blanket.
- Keep the control unit away from drafts or open windows to prevent it from getting wet.

Safety Meets Energy Efficiency

Auto-Off Function

The blanket features an auto-off function and is ETL certified for safety and energy efficiency.

SETUP

1. **Unpack:** Carefully remove the heated blanket from its packaging. Retain packaging for storage or future transport.
2. **Inspect:** Before first use, inspect the blanket for any signs of damage, including the fabric, control unit, and power cord. Do not use if any damage is observed.
3. **Connect Power Cord:** Locate the detachable power cord. Insert the connector end of the cord firmly into the port on the blanket's control unit. Ensure a secure connection.

Machine Washable

Just detach the controller and toss it in the wash for easy, hassle-free cleaning.

TROUBLESHOOTING

If you experience issues with your Dreamaker heated blanket, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Blanket does not heat.	Not plugged in securely. Power outlet not working. Control unit not properly connected to blanket. Auto-off function activated.	Ensure power cord is firmly plugged into both the blanket and the wall outlet. Test the outlet with another appliance. Disconnect and reconnect the control unit to the blanket. Turn the blanket off and then on again to reset.
Blanket heats unevenly.	Blanket is folded, bunched, or creased.	Lay the blanket flat and smooth out any folds or creases.
Control unit lights are flashing.	Internal error or malfunction.	Unplug the blanket from the wall outlet for 5 minutes, then plug it back in. If the issue persists, discontinue use and contact customer support.

If the problem persists after trying these solutions, please contact Dreamaker customer support for assistance.
