Ibergrif M34034W

Ibergrif M34034W Corner Shower Shelf

Instruction Manual

INTRODUCTION

Thank you for choosing the Ibergrif M34034W Corner Shower Shelf. This manual provides essential information for the safe and efficient installation, operation, and maintenance of your new product. Please read these instructions carefully before installation and retain them for future reference.

PRODUCT OVERVIEW

The Ibergrif M34034W is a versatile corner shower shelf designed for organizing your bathroom essentials. It features a durable, rust-resistant construction and offers flexible installation options.

Key Features

- **Large Capacity:** Double-layer corner shower shelf with adjustable middle distance to accommodate large bottles.
- **Hollow Drainage Design:** Prevents water accumulation on the shelf after showering, promoting hygiene.
- **Durable Material:** Constructed from stainless steel with a painted surface for rust and oxidation resistance.
- **Two Installation Methods:** Supports both self-adhesive (no-drill) and screw-based (drilling) installation.

Product Dimensions

Weight Capacity

Easy Cleaning

Easy to install

The spacing can be adjusted freely

Anti-rust

Image: The shower shelf is shown supporting a 20-pound weight, indicating its robust load-bearing capability. The recommended maximum load is 9.07 kg (20 lbs).

COMPONENTS INCLUDED

The package includes the following items:

- 2 x Corner Shower Shelves
- Adhesive Mounting Pads (for no-drill installation)
- Screws and Wall Plugs (for drill installation)
- Auxiliary Sticker/Template

Image: A visual representation of all components provided in the package, including the two shelves and various mounting hardware.

INSTALLATION

The Ibergriif M34034W corner shower shelf offers two installation methods: a no-drill adhesive option and a traditional drill-and-screw option. Choose the method best suited for your wall type and preference.

Method 1: No-Drill Installation (Adhesive)

- Clean and Dry the Wall:** Ensure the corner surface where the shelf will be installed is clean, dry, and free of dust, oil, or moisture.
- Affix Adhesive Pads:** Apply the double-sided adhesive pads to the designated areas on the back of the shelf's mounting brackets. Press firmly to ensure good adhesion.
- Install Nuts:** Secure the nuts onto the studs of the adhesive pads.
- Mount Shelf:** Carefully align the shelf with the desired corner and press it firmly against the wall for several seconds.
- Wait 24 Hours:** Allow the adhesive to cure for at least 24 hours before placing any items on the shelf to ensure maximum strength.

Method 2: Drill Installation (Screws)

- Mark the Holes:** Use the shelf or an auxiliary sticker/template to mark the drilling points on the wall in the desired corner.
- Drill Holes:** Using an appropriate drill bit for your wall type, drill holes at the marked positions. Insert wall plugs if necessary.

3. **Screw on the Shelf:** Align the shelf with the drilled holes and secure it to the wall using the provided screws.
4. **Complete:** Ensure the shelf is firmly attached and stable before use.

Image: A visual guide detailing the steps for both the no-drill and drill installation methods.

USAGE

Once installed, the Ibergrif M34034W corner shower shelf is ready for use. Place your shampoo, conditioner, shower gel, soaps, and other bathroom accessories on the shelves. The double-layer design allows for efficient organization, and the adjustable middle distance provides flexibility for taller bottles. Ensure items are distributed evenly and do not exceed the recommended maximum load capacity of 9.07 kg (20 lbs) per shelf.

MAINTENANCE

To ensure the longevity and appearance of your Ibergrif M34034W shower shelf, follow these maintenance guidelines:

- **Regular Cleaning:** Clean the shelf regularly with a soft cloth and mild soap or a non-abrasive bathroom cleaner.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, scouring pads, or harsh chemical solutions, as these can damage the painted surface and compromise the rust-resistant properties.
- **Rinse and Dry:** After cleaning, rinse thoroughly with water and dry the surface to prevent water spots and maintain shine.
- **Check Adhesion/Screws:** Periodically check the adhesive pads (for no-drill installation) or screws (for

drill installation) to ensure the shelf remains securely attached to the wall.

TROUBLESHOOTING

If you encounter any issues with your shower shelf, refer to the following common solutions:

- **Shelf is not holding:**
 - For adhesive installation: Ensure the wall surface was thoroughly cleaned and dried before application. Wait the full 24 hours for curing. Avoid overloading the shelf.
 - For screw installation: Check that screws are tightened securely and wall plugs (if used) are appropriate for your wall material.
- **Water accumulation:** The hollow design is intended to drain water. Ensure the drainage slots are not blocked by debris or product residue. Clean as per maintenance instructions.
- **Rusting:** While designed to be rust-resistant, prolonged exposure to standing water or harsh chemicals can affect the finish. Ensure proper drainage and follow cleaning guidelines.

SPECIFICATIONS

Item Model Number	M34034W
Product Dimensions (L x W x H)	31.2 x 23.3 x 4.8 cm
Item Weight	269 Grams
Material	Metal
Color	White
Finish Type	Lacquered
Mounting Type	Wall Mount
Recommended Maximum Load	9.07 Kilograms (20 lbs)
Number of Compartments	1 (per shelf)
Included Components	2 storage baskets
Country of Origin	Spain
