## CAR PASS zt-0014WY-GY0L2

# CAR PASS Line Rider Sporty Front Seat Covers User Manual

MODEL: ZT-0014WY-GY0L2

## 1. Product Overview

The CAR PASS Line Rider Sporty Front Seat Covers are designed to refresh and protect the front seats of your vehicle. These universal fit seat covers are airbag compatible and feature a sporty design with a breathable, wrinkle-resistant fabric. The package includes two front seat covers and two separate headrest covers, providing a comprehensive solution for enhancing your car's interior.

## 2. Features

- **Sporty Design:** Enhances the aesthetic appeal of your car's interior with rich and vibrant color combinations.
- **Airbag Compatible:** Specifically designed with reserved opening holes to ensure full compatibility with side airbags, maintaining safety in case of deployment.
- **Breathable & Wrinkle-Resistant:** Constructed from materials that promote airflow and resist wrinkling, ensuring comfort and a neat appearance.
- **Easy Installation:** Features reserved openings for headrest covers and seatbelts, making the installation process straightforward and quick.
- **Universal Fit:** Engineered to fit most sedans, cars, vans, SUVs, and trucks.
- **Complete Front Set:** Includes two front seat covers and two separate headrest covers for a coordinated look.

## 3. Setup and Installation

Follow these steps for proper installation of your CAR PASS Line Rider Sporty Front Seat Covers:

1. **Prepare the Seats:** Ensure your vehicle's front seats are clean and free from debris.
2. **Identify Seat Covers:** Note that the seat covers are designed for specific sides (driver and passenger). Ensure

the "AIRBAG" label on the side of the seat cover aligns with the outside of the vehicle to maintain airbag functionality.

- 3. Install Headrest Covers:** Remove the existing headrests from the seats. Slide the provided headrest covers over them, ensuring a snug fit. Reattach the covered headrests to the seats.
- 4. Position Seat Cover:** Carefully slide the main seat cover over the front seat, starting from the top and working your way down. Ensure the cover is centered and aligned with the seat's contours.
- 5. Secure the Base:** Tuck the excess fabric of the seat cover into the crease between the seat back and the seat base. Locate the loops or straps on the underside of the seat cover and hook them onto the seat springs or other secure points beneath the seat to pull the cover tight and remove wrinkles.
- 6. Fasten Rear Straps:** For the seat back, pull the piece of fabric with Velcro through the gap between the seat back and the seat base. Secure this Velcro piece to the corresponding Velcro on the back of the seat cover. This helps to hold the top portion of the cover securely in place.
- 7. Adjust for Seatbelt:** Ensure the seatbelt buckle and receiver are accessible and not obstructed by the seat cover. The design allows for proper seatbelt usage.

## 4. Operating Instructions

Once installed, the CAR PASS Line Rider Sporty Front Seat Covers require no special operation. They are designed to provide continuous protection and enhance the comfort and appearance of your vehicle's interior during daily use. Ensure that the seat covers do not interfere with any seat-mounted controls, seatbelt mechanisms, or side airbag deployment areas.

## 5. Maintenance and Care

To ensure the longevity and appearance of your seat covers, follow these maintenance guidelines:

- **Regular Cleaning:** For light dirt or spills, wipe the surface with a damp cloth and mild soap.

- **Deep Cleaning:** For more stubborn stains, it is recommended to hand wash the covers with a gentle detergent. Avoid harsh chemicals or abrasive cleaners.
- **Drying:** Air dry the seat covers completely before reinstallation. Do not machine dry or expose to direct high heat, as this may damage the fabric and affect its wrinkle-resistant properties.
- **Wrinkle Removal:** The fabric is designed to be wrinkle-resistant. If minor wrinkles appear after installation, they typically smooth out with use. For persistent wrinkles, gentle steaming may be applied.

## 6. Troubleshooting

Issue	Possible Cause	Solution
Seat cover appears loose or wrinkled.	Improper installation; straps not tightened sufficiently.	Re-adjust the seat cover, ensuring all loops and straps are securely hooked and pulled tight beneath the seat. Ensure the Velcro piece at the back is properly fastened.
Seat cover is slipping.	Insufficient tension or improper securing of the bottom loops.	Verify that all elastic loops and ties are firmly attached to the seat's underside. Ensure the foam stick (if included) is properly inserted to prevent movement.
Airbag label is not visible or is on the wrong side.	Incorrect orientation of the seat cover.	Remove and re-install the seat cover, ensuring the side with the "AIRBAG" label is positioned towards the vehicle's door (outer side).

## 7. Specifications

**Brand:** CAR PASS

**Model Number:** zt-0014WY-GY0L2

**Fit Type:** Universal Fit

**Color:** Black and Gray (as per current product variant)

**Item Weight:** 1.08 pounds

**Package Dimensions:** 10.08 x 7.8 x 3.94 inches

**Airbag Compatibility:** Yes

**Included Components:** 2 Front Seat Covers, 2 Headrest Covers
