Siku Vespa 125 GTS Super Model 1296 Instruction Manual

1. INTRODUCTION

This document provides instructions for the Siku Vespa 125 GTS Super toy model, model number 1296. This detailed miniature replica is designed for play and collection, featuring a metal body, rubber tires, and moving handlebars. It is suitable for individuals aged 3 years and up.

2. SAFETY INFORMATION

WARNING: CHOKING HAZARD. Small parts. Not suitable for children under 3 years due to small parts which could be swallowed.

3. PRODUCT FEATURES

The Siku Vespa 125 GTS Super model 1296 is a meticulously crafted toy vehicle with the following characteristics:

- **Construction:** Sturdy and stable design with a metal body.
- **Detailing:** True-to-original profile, including headlights.
- **Mobility:** Features enjoyable rolling due to rubber tires.
- **Interactive Elements:** Equipped with moving handlebars and a functional stand.

5. OPERATION

The Siku Vespa 125 GTS Super is designed for imaginative play. To operate:

1. Place the model on a flat, smooth surface.
2. Gently push the scooter to initiate rolling motion. The rubber tires are designed for smooth movement.
3. The handlebars can be moved to simulate steering.
4. Utilize the integrated stand to park the scooter upright when not in motion.

6. CARE AND MAINTENANCE

To ensure the longevity and appearance of your Siku Vespa 125 GTS Super model:

- **Cleaning:** Wipe the model with a soft, dry cloth to remove dust and dirt. For stubborn marks, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the model in a cool, dry place away from direct sunlight and extreme temperatures to prevent material degradation.
- **Handling:** Handle the model with care to prevent damage to small parts or the paint finish.

7. TROUBLESHOOTING

If you encounter any issues with your Siku Vespa 125 GTS Super model, consider the following:

- **Wheels not rolling smoothly:** Check for any debris or obstructions caught in the wheel axles. Ensure the wheels are properly aligned.
- **Loose parts:** If any small parts become loose, attempt to reattach them carefully. If reattachment is not possible or if a part is broken, discontinue use to prevent further damage or safety hazards.
