Silonn SLIM01-1-US

Silonn Countertop Ice Maker Instruction Manual

Model: SLIM01-1-US

INTRODUCTION

Thank you for choosing the Silonn Countertop Ice Maker. This compact and efficient appliance is designed to provide you with fresh ice quickly and conveniently. With its rapid ice production, dual ice size options, and self-cleaning function, it's perfect for any home, party, or office setting. Please read this manual thoroughly before operation to ensure safe and optimal performance.

WHAT'S IN THE BOX

Upon opening your Silonn Countertop Ice Maker package, please ensure all items listed below are present and in good condition:

- Ice maker unit
- Ice Scoop
- Ice Basket

SETUP INSTRUCTIONS

Follow these steps for the initial setup of your ice maker:

1. **Unpack and Place:** Carefully remove the ice maker from its packaging. Place the unit on a stable, level surface away from direct sunlight and heat sources. Ensure there is adequate ventilation around the unit.
2. **Clean Before First Use:** Before making ice for consumption, it is recommended to clean the internal components. Remove

the ice basket and wash it with warm water and mild detergent. Wipe the interior of the water tank with a soft cloth.

3. **Add Water:** Open the top lid and pour clean, potable water into the water reservoir. Do not exceed the 'MAX' water mark indicated inside the tank. The large 2 L water tank minimizes the need for frequent refills.
4. **Insert Ice Basket:** Place the clean ice basket back into its position within the unit.
5. **Power On:** Plug the ice maker into a grounded electrical outlet. Press the 'ON/OFF' button to power on the unit.

OPERATING INSTRUCTIONS

Operating your Silonn ice maker is straightforward:

1. **Select Ice Size:** After powering on, press the 'SELECT' button to choose your desired ice cube size: 'S' for small or 'L' for large. The indicator light above your selection will illuminate. Small ice cubes are ideal for quickly chilling drinks, while large cubes are perfect for slower melting in cocktails.
2. **Ice Production:** The ice maker will begin the ice-making cycle automatically. It produces 9 bullet-shaped ice cubes in as little as 6 minutes. The unit can produce up to 26 lbs of ice in 24 hours.
3. **Ice Full Indicator:** The infrared sensor features an indicator light that notifies you when the ice basket is full ('ICE FULL' indicator). The machine will automatically pause ice production until ice is removed.
4. **Add Water Indicator:** If the water level is low, the 'ADD WATER' indicator will light up. Refill the water reservoir to continue ice production.
5. **Quiet Operation:** The Silonn ice maker operates with minimal noise, ensuring it won't disturb your home or office environment.

Make Ice in 6 mins

6 Mins  **=** **9** Pcs

MAINTENANCE

Regular maintenance ensures the longevity and hygiene of your ice maker:

1. **Self-Cleaning Function:** The ice maker features a convenient self-cleaning function. To activate, ensure the unit is powered on and has water. Press and hold the 'ON/OFF CLEAN' button for a few seconds until the cleaning cycle begins. This cycle typically takes about 30 minutes to refresh the machine.
2. **Manual Cleaning:** For thorough cleaning, unplug the unit. Remove the ice basket and drain any remaining water from the reservoir. Use a soft cloth with mild detergent to clean the interior and exterior surfaces. Rinse thoroughly and dry completely before next use.
3. **Ice Scoop and Basket:** The included ice scoop and detachable ice basket should be cleaned regularly with warm, soapy water. The ice scoop can be stored on the upgraded ice basket handle for easy access.

TROUBLESHOOTING

If you encounter any issues with your Silonn ice maker, refer to the common problems and solutions below:

Problem	Possible Cause	Solution
'ADD WATER' indicator is on.	Water reservoir is empty or low.	Refill the water reservoir to the 'MAX' line.
'ICE FULL' indicator is on.	Ice basket is full.	Remove ice from the basket. The machine will resume production.

Problem	Possible Cause	Solution
Ice cubes are too small or not forming.	Room temperature is too high or water temperature is too warm.	Ensure the unit is in a cool environment. Use colder water for faster and firmer ice.
Machine is not producing ice.	Unit is unplugged, power outage, or internal malfunction.	Check power connection. If problem persists, contact customer support.

SPECIFICATIONS

- **Product Dimensions:** 11.81"D x 8.86"W x 12.2"H
- **Weight:** 15.87 Pounds
- **Model Name:** SLIM01-1-US
- **Capacity:** 26 Pounds (ice production per 24 hours)
- **Water Tank Capacity:** 2 Liters
- **Wattage:** 160 watts
- **Ice Cube Shape:** Bullet
- **Ice Cube Sizes:** Small (S), Large (L)
- **Ice Production Time:** 9 cubes in 6 minutes
- **Features:** Self-cleaning function, Infrared sensor (Ice Full/Add Water indicators)
