## Olakids TQ10136US

# OLAKIDS 12V Kids Ride On Truck (Model TQ10136US) Instruction Manual

Brand: Olakids

## IMPORTANT SAFETY INFORMATION

---

Read this entire manual before assembly or use. Keep these instructions for future reference. Adult supervision is required at all times. Ensure all safety features are properly engaged before use.

- Maximum weight capacity: 66 lbs.
- Suitable for children aged 3 to 7 years.
- Always use the adjustable seat belt.
- Do not operate near roads, cars, steep inclines, swimming pools, or other water bodies.
- Wear appropriate safety gear, such as a helmet.
- This product is approved by US. CPSIA & ASTM, made of non-toxic materials.

## PRODUCT OVERVIEW

---

The OLAKIDS 12V Kids Ride On Truck offers a realistic driving experience with dual motors, LED headlights, and a functional dashboard. It features two driving modes: manual operation by the child or remote control by a parent for added safety and guidance.

## SETUP AND ASSEMBLY

Assembly of the OLAKIDS 12V Kids Ride On Truck requires adult supervision and basic tools. Follow the steps carefully to ensure proper and safe construction.

### Assembly Video Guide:

Video: Official installation guide for the OLAKIDS Kids Ride On Truck. This video demonstrates the step-by-step assembly process.

### Key Assembly Steps:

1. **Chassis Preparation:** Place the main body upside down.
2. **Rear Axle Installation:** Attach the rear axle and secure it with the provided hardware.
3. **Wheel Attachment:** Secure the rear wheels to the axle, ensuring they are firmly in place.
4. **Front Axle Installation:** Install the front axle mechanism.
5. **Front Wheel Attachment:** Secure the front wheels.
6. **Steering Wheel Installation:** Connect the steering wheel to the steering column and secure it.

Ensure all electrical connections are made before securing.

7. **Battery Connection:** Connect the battery terminals as instructed.

8. **Seat Installation:** Place the seat and secure it with screws.

9. **Accessory Attachment:** Install the front bumper, windshield, and rear roll bar with lights.

## OPERATING INSTRUCTIONS

### Powering On/Off:

- Press the red power button on the dashboard to turn the vehicle on or off.

### Driving Modes:

- **Manual Driving:** The child can operate the vehicle using the foot pedal and steering wheel.
- **Remote Control:** Parents can use the 2.4GHz remote control to steer, control speed, and stop the vehicle. This mode is ideal for younger children or for safety intervention.

### Speed Control:

- The vehicle features two speeds (2.5-4.5 km/h). Use the speed switch on the dashboard or remote control to adjust.

- The soft start function ensures smooth acceleration, preventing sudden jolts.

## Soft Start Design

### Multimedia Functions:

- The dashboard includes built-in music and stories.
- Connect external devices via USB, TF card slot, or MP3 input to play custom music.
- Activate the horn button for sound effects.

### **MAINTENANCE**

#### **Charging the Battery:**

- The 12V battery is rechargeable. Connect the charger to the designated port.
- Refer to the specific charging time in your product packaging for optimal battery life.
- Do not overcharge the battery.

#### **Cleaning and Storage:**

- Wipe the vehicle with a damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- Store the vehicle in a dry, cool place away from direct sunlight and moisture.
- If storing for an extended period, ensure the battery is fully charged and disconnect it. Recharge periodically to maintain battery health.

**When the car runs out of power, it will have a low-voltage warning and a low-battery flash.**

Image: The ride-on truck features a front handle for easy towing when the battery is low.

## TROUBLESHOOTING

- **Vehicle not moving:** Check battery connection, ensure the power button is on, and the remote control is properly paired (if using remote mode).
- **Low power/slow speed:** The battery may need recharging. The low-voltage alarm function will indicate this by flashing lights and a display on the control panel.
- **Unresponsive controls:** Ensure the remote control batteries are fresh and that there are no obstructions between the remote and the vehicle.

**When the car runs out of power, it can be easily towed away using the front handle.**

Image: The vehicle provides a low-voltage warning and low-battery flash when power is running out.

## SPECIFICATIONS

Feature	Detail
Model Number	TQ10136US
Product Dimensions	38.5 x 26 x 25.5 inches
Item Weight	30 pounds
Battery	12V (included)

Speed	2.5-4.5 km/h
Max Weight Capacity	66 lbs
Recommended Age	36 months - 7 years
Motors	Dual motors (2 x 25W)

**Max Weight Capacity: 66 lbs**

**Suitable Age: 3-7 Years**
