BESIGILA TK-HP3016

BESIGILA Electric Heating Pad TK-HP3016 User Manual

Model: TK-HP3016

1. Important Safety Information

Please read and understand all safety instructions before using this product. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Keep away from water or moisture when in use.
- Do not use for more than 2 hours at a time to prevent burns.
- Always check product temperature before use.
- Do not use on infants, incapacitated individuals, or persons insensitive to heat.
- Do not use while sleeping.
- Never use pins or other metallic objects to fasten the heating pad.
- Do not fold, crease, or bunch the heating pad tightly during use.
- Inspect the heating pad, cord, and controller regularly for any signs of wear or damage. Discontinue use if damaged.

2. Product Overview

The BESIGILA Electric Heating Pad TK-HP3016 is designed to provide soothing heat therapy for various body parts. Its extra-large size and soft fabric ensure comfort and effective coverage.

Key Features:

- **Pain Relief & Muscle Relaxation:** Ideal for soothing sore muscles in the back, shoulders, abdomen, legs, and neck.

- **6 Heat Settings:** Customizable temperature levels to suit individual comfort.
- **4 Timer Levels & Auto-Off:** Includes 30, 60, 90, and 120-minute timer options, with an automatic 2-hour shut-off for safety and energy conservation.
- **Super-Soft Fabric:** Double-sided, skin-friendly microplush material for enhanced comfort.
- **Machine Washable:** Easy to clean by detaching the control panel.
- **Moist & Dry Heat Options:** Can be used for both dry and moist heat therapy.
- **Extra-Long Power Cord:** A 7-foot cord provides flexibility for use in various locations.

3. Setup

1. Unpack the heating pad and its controller from the packaging.
2. Ensure the power cord is securely connected to the heating pad's connector.
3. Plug the power cord into a standard electrical outlet.
4. Place the heating pad on the desired body area.

4. Operating Instructions

The BESIGILA heating pad features an intuitive digital controller for easy operation.

Image: A hand holding the digital controller, displaying the heat level and timer settings.

Power On/Off:

- Slide the ON/OFF switch on the controller to the 'ON' position to power on the device.
- Slide the ON/OFF switch to the 'OFF' position to power off the device.

Adjusting Heat Settings:

- Press the 'HEAT' button to cycle through the 6 available heat settings (1-6).
- Setting 1 is the lowest heat, and Setting 6 is the highest.

Setting the Timer:

- Press the 'TIMER' button to select a desired auto-off duration: 30, 60, 90, or 120 minutes.
- The heating pad will automatically shut off after the selected time.
- The device also features a default 2-hour auto-off function for added safety, even if a specific timer is not set.

5. Moist Heat Option

For enhanced relief, the heating pad can be used with moist heat.

1. Lightly spray a fine mist of water onto the surface of the heating pad. Do not saturate.
2. Apply the damp heating pad to the desired area.

6. Maintenance

To ensure longevity and hygiene, the BESIGILA heating pad is designed for easy cleaning.

Cleaning Instructions:

1. Always unplug the heating pad from the electrical outlet before cleaning.
2. Detach the control panel from the heating pad by gently squeezing the release tabs on the connector.

3. Machine wash the fabric pad on a gentle cycle with cold water (below 85°F / 30°C).
4. Do not bleach, iron, or dry clean.
5. Tumble dry on low heat or line dry. Ensure the pad is completely dry before reattaching the controller and using it again.

7. Troubleshooting

If you experience issues with your heating pad, please refer to the following common solutions:

- **No Heat/Not Turning On:** Ensure the power cord is securely plugged into both the heating pad and the electrical outlet. Check if the outlet is functional by plugging in another device.
- **Pad Not Heating Evenly:** Ensure the pad is laid flat and not folded or bunched during use.
- **Pad Too Hot/Too Cold:** Adjust the heat setting using the 'HEAT' button on the controller to your preferred comfort level.

- **Automatic Shut-off Too Soon:** Verify the timer setting. The device has a default 2-hour auto-off. If it shuts off earlier, ensure no other timer is accidentally set.

If the problem persists after trying these steps, please contact customer support.

8. Specifications

Feature	Detail
Model Number	TK-HP3016
