Computer Monitor Light Bar User Manual

Brand: Dpofirs

Model: Bewinnerr5y4hpkgoq-12

INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your Dpofirs Computer Monitor Light Bar. Please read this manual thoroughly before use to ensure proper functionality and longevity of the product. Keep this manual for future reference.

PRODUCT OVERVIEW

Image: The Dpofirs Computer Monitor Light Bar, showcasing its sleek design and form factor.

The Dpofirs Computer Monitor Light Bar is designed to provide optimal illumination for your workspace while minimizing eye strain and screen glare. It features an asymmetric light source, touch controls, and adjustable color temperature and brightness.

Key Features:

- **Asymmetric Light Source:** Illuminates the desktop and keyboard without causing reflected glare on the monitor screen.
- **Eye Care System:** Blocks blue light and radiation to reduce eye fatigue, suitable for extended use.

- **Touch Control:** Intuitive touch interface for power, dimming, and color temperature adjustments.
- **Infinite Dimming:** Allows for precise adjustment of brightness levels.
- **Three Color Temperature Adjustment:** Offers cool, neutral, and warm light options (e.g., 5000K, 4000K, 2900K) to suit different tasks and environments.
- **Easy Installation:** Gravity axis fixed device for stable mounting on monitors up to 50mm (2 inches) thick, saving desk space.
- **USB Powered:** Conveniently powered via a Type-C USB interface from computers, chargers, or power banks.
- **60-Minute Timer Function:** Automatically turns off the light after 60 minutes.

Package Contents:

- 1 x Monitor Light Bar
- 1 x Charging Cable (USB Type-C)
- 1 x Instruction Manual

Image: The Dpofirs Monitor Light Bar and its included USB charging cable, as found in the package.

SETUP AND INSTALLATION

1. **Unpack the Product:** Carefully remove the monitor light bar and its accessories from the packaging.
2. **Position the Light Bar:** Place the light bar on top of your computer monitor. The gravity axis fixed device is designed to securely grip the top edge of the screen.

Image: The monitor light bar securely mounted on top of a computer screen, demonstrating its space-saving design and stable placement.

3. **Adjust for Screen Thickness:** The adjustable design accommodates monitor thicknesses from 0.6 inches to 1.6 inches (approximately 1.5 cm to 4 cm). Ensure the clip is adjusted to firmly hold the light bar in place without obstructing the screen.

Image: A close-up view of the monitor light bar's adjustable clip mechanism, designed for various screen thicknesses to ensure a secure fit.

- 4. Connect Power:** Insert the Type-C end of the charging cable into the light bar's Type-C port. Connect the USB-A end to a 5V 1A USB power source, such as a computer's USB port, a wall adapter, or a power bank.

Image: A detailed view of the Type-C USB port located on the monitor light bar, indicating where the power cable should be connected.

5. The light bar is now ready for operation.

OPERATING INSTRUCTIONS

The Dpofirs Monitor Light Bar features intuitive touch controls located on the top surface of the bar.

INTELLIGENT SCREEN HANGING LIGHT ASYMMETRIC LIGHT SOURCE

No glare

1. **Power On/Off:** Lightly touch the power icon (usually a circle with a vertical line) to turn the light bar on or off.
2. **Adjust Brightness (Infinite Dimming):** With the light on, press and hold the power icon or a dedicated dimming icon (if present) to continuously adjust the brightness level. Release when the desired brightness is achieved.
3. **Change Color Temperature:** Tap the color temperature icon (often represented by a sun or temperature gauge) to cycle through the three available color temperature modes:
 - **White Light (5000K):** Clear lighting, suitable for efficient office work.
 - **Neutral White Light (4000K):** Neutral color temperature, ideal for comfortable reading.
 - **Warm Light (2900K):** Mild and comfortable light, suitable for relaxation or low-light environments.

Asymmetric light source design
Asymmetric light source design
Targeted illumination of the desktop range, not irradiate the screen
No glare, more eye protection

Image: A visual representation of the three distinct color temperature settings (White, Neutral White, Warm) and their recommended uses for different tasks.

4. **60-Minute Timer Function:** If your model includes a timer function, tap the timer icon (often a clock) to activate the 60-minute automatic shut-off. The light will turn off after 60 minutes. Tap again to deactivate or reset.

MAINTENANCE

To ensure the longevity and optimal performance of your monitor light bar, follow these simple maintenance guidelines:

- **Cleaning:** Disconnect the power before cleaning. Use a soft, dry, or slightly damp cloth to wipe the surface of the light bar. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish.
- **Storage:** If storing the light bar for an extended period, ensure it is clean and dry. Store it in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Handle the light bar with care to prevent damage to the LED components or the housing.

TROUBLESHOOTING

If you encounter any issues with your Dpofirs Monitor Light Bar, please refer to the following common problems and solutions:

- **Light Bar Does Not Turn On:**

- Ensure the USB cable is securely connected to both the light bar and the power source.
- Verify that the USB power source (e.g., computer port, wall adapter) is functional and providing power (5V 1A recommended).
- Try using a different USB port or power adapter.

- **Light Flickers or is Dim:**

- Check the power source. Insufficient power (less than 5V 1A) can cause flickering or dimness.
- Ensure the USB cable is not damaged.
- Clean the touch control area to ensure proper contact.

- **Touch Controls Are Unresponsive:**

- Ensure your fingers are clean and dry when operating the touch controls.
- Restart the device by unplugging and re-plugging the USB cable.
- Ensure there is no obstruction or debris on the touch control area.

- **Light Bar Does Not Stay Securely on Monitor:**

- Verify that your monitor's thickness is within the supported range (0.6 to 1.6 inches / 1.5 to 4 cm).
- Ensure the gravity axis fixed device is properly adjusted and seated on the monitor.

SPECIFICATIONS

Feature	Specification
Product Name	Computer Monitor Light Bar
Brand	Dpofirs
Model Number	Bewinnerr5y4hpkgoq-12
Material	ABS (Acrylonitrile Butadiene Styrene)
Rated Voltage	5V 1A
Interface Type	Type-C USB
Product Length	Approx. 50cm (19.7in)
Supported Monitor Thickness	Less than 50mm (2in), typically 0.6 to 1.6 inches
Color Temperature	Three levels (e.g., 5000K, 4000K, 2900K)
Dimming	Stepless Dimmable (Infinite Dimming)
Special Features	Asymmetric Light Source, Anti-Glare, Eye Caring, Touch Control, 60-Minute Timer Function
Item Weight	0.41 Kilograms
Package Dimensions	52.9 x 13.6 x 4.9 cm
