Aheaplus 5-Tier Rotating Shoe Rack Instruction Manual

Model: YHSR-5F-008

INTRODUCTION

The Aheaplus 5-Tier Rotating Shoe Rack is designed to provide an efficient and space-saving solution for organizing your footwear. Its 360° rotating design allows for easy access to your shoe collection, making it suitable for various spaces such as closets, entryways, bedrooms, and garages. This manual provides essential information for assembly, operation, and maintenance of your shoe rack.

SAFETY INFORMATION

- Do not expose the product to liquids.
- Assemble the unit strictly according to the provided instructions to avoid injury or damage to the product.
- Ensure the product is placed on a stable, level surface to prevent tipping.

PACKAGE CONTENTS

Please verify that all components and hardware are present before beginning assembly. Refer to the included parts list in your physical instruction booklet for detailed identification.

SETUP AND ASSEMBLY

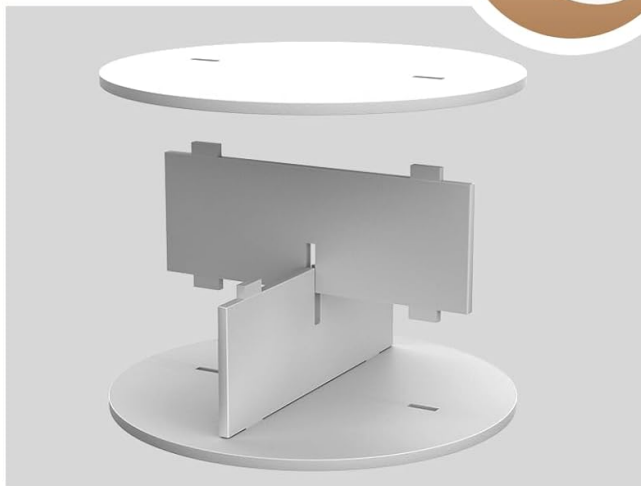

Assembly is required for this product. It is recommended to have two people for easier and safer assembly. Follow the step-by-step instructions provided in the physical assembly guide included with your purchase. Ensure all connections are secure for stability.

SCREWS

- ✓ Less prone to breaking
- ✓ Provide a stronger joint
- ✓ Withstand large loads

PEGS

Extremely weak joint

Very easy to break

Quite poor loads

MAINTENANCE

To maintain the appearance and longevity of your Aheaplus Rotating Shoe Rack, follow these simple care instructions:

- Wipe the surfaces with a dry cloth to remove dust and debris.
- Avoid using harsh chemicals or abrasive cleaners, as these may damage the laminated finish.
- Periodically check and tighten any loose screws to ensure stability.

TROUBLESHOOTING

If you encounter any issues with your shoe rack, consider the following:

- **Stiff Rotation:** Ensure the unit is placed on a level surface. Check for any obstructions or debris beneath the

base or between the rotating components. Verify that all assembly screws are securely tightened.

- **Instability:** Re-check all assembly points to ensure screws are fully tightened. Confirm the unit is on a flat, stable floor.
