SETUP

Initial Connection

Your Akko 5075B Plus keyboard supports multiple connectivity modes: wired, 2.4GHz wireless, and Bluetooth 5.0.

Wired Connection

Connect the provided USB-A to USB-C cable from your computer to the USB-C port on the keyboard. The keyboard will automatically be recognized.

Image: Close-up view of the USB-C port on the keyboard for wired connection.

2.4GHz Wireless Connection

Locate the USB-A receiver stored at the bottom of the keyboard. Plug the receiver into an available USB-A port on your computer.

Ensure the switch on the underside of the keyboard is set to "USB" or the appropriate wireless mode.

Bluetooth Connection

Set the switch on the underside of the keyboard to "Mac" or "Win" depending on your operating system.

On your device, enable Bluetooth and search for "Akko 5075B Plus". Select the keyboard to pair. The keyboard can connect to up to three wireless devices.

Operating System Compatibility

A dedicated switch on the underside of the keyboard allows you to select between Mac, USB, and Windows modes for optimal compatibility.

OPERATING YOUR KEYBOARD

Keycaps

The Akko 5075B Plus comes with durable PBT Double Shot ASA Profile Keycaps, designed for longevity and a comfortable typing experience.

PBT DOUBLE-SHOT KEYCAPS

Made through Double-Shot process with durable PBT materials that legends will not fade easily.

Image: Diagram showing the different heights of ASA profile keycaps.

The package includes extra cyan-colored keycaps for customization. Use the provided keycap removal tool to swap them out.

Video: Demonstrates the process of swapping keycaps on the Akko 5075B Plus keyboard (0:05-0:13).

Hot-Swappable Switches

This keyboard features 5-pin hot-swappable sockets, allowing you to easily change mechanical switches without soldering. The current model is equipped with V3 Creamy Blue Pro switches.

Optimized Noise Reduction

The keyboard is engineered with silicone plate foam, case foam, and an IXPE switch pad, along with a gasket-mounted design, to provide a comfortable, soft, and quiet typing experience.

RGB Backlighting

The Akko 5075B Plus features built-in and side-LED RGB backlighting with customizable light animation effects (per-key RGB supported).

Special Keys

Programmable Functionality

All keys can be re-mapped and macros can be created using the Akko Cloud Driver software. This software also allows for extensive customization of RGB lighting effects.

SPECIFICATIONS

Feature	Detail
Product Dimensions	13.19 x 5.75 x 1.65 inches
Item Weight	2.97 pounds
Manufacturer	Akko

ASIN	B0CF1Q51YH
Country of Origin	China
Item model number	AKKO01-00003
Batteries	1 Lithium Ion batteries required. (included)
Date First Available	August 8, 2023
Brand	Akko
Compatible Devices	Tablet
Connectivity Technology	USB-C
Keyboard Description	Mechanical
Special Feature	Hot-Swappable
Color	Black&Silver
Number of Keys	84
Keyboard backlighting color support	RGB
Style	Classic
Material	Silicone

MAINTENANCE

Cleaning

Regularly clean your keyboard to prevent dust and debris buildup. Use a soft brush or compressed air to remove particles between keycaps. For surface cleaning, use a slightly damp, lint-free cloth.

Keycap and Switch Care

When removing keycaps or switches, use the provided tools to avoid damage. Store extra keycaps and switches in a safe, dry place.

TROUBLESHOOTING

Connectivity Issues

If the keyboard is not connecting wirelessly, ensure it is fully charged and within range of your device. Verify the mode switch (Mac/USB/Win) on the underside is correctly set. For 2.4GHz, ensure the USB receiver is securely plugged in. For Bluetooth, try re-pairing the device.

RGB Lighting Problems

If RGB lighting is not functioning correctly, check the brightness level using the knob. Use the Akko Cloud Driver software to reset or adjust lighting effects. Ensure the keyboard is connected via wired mode when using the software for comprehensive customization.
