Neproch 4L

Neproch Stackable Plastic Storage Drawers (Model 4L) User Manual

Model: 4L | Brand: Neproch

1. INTRODUCTION

Thank you for choosing Neproch Stackable Plastic Storage Drawers. This manual provides essential information for the proper assembly, operation, and maintenance of your new storage solution. Designed for versatility, these drawers help organize various items in different spaces, including closets, dorm rooms, bathrooms, kitchens, living rooms, and offices.

Each drawer unit measures approximately 16.6 inches (L) x 13.1 inches (W) x 7.3 inches (H).

2. PRODUCT FEATURES

- **Multi-Functional Design:** Suitable for storing various items such as clothing, towels, toys, snacks, books, and files.
- **Stackable Configuration:** Maximizes vertical storage space, allowing for flexible arrangement to fit your specific needs.
- **Foldable Structure:** Designed to be collapsible when not in use, saving space and facilitating easy storage.
- **Slide Rails:** Features a slide rail mechanism at the bottom for convenient access to items, even when stacked.
- **Durable Construction:** Made from premium sturdy PP plastic, ensuring long-lasting use and easy cleaning.

PROVIDE A CLEAN AND TIDY SPACE

3. SETUP AND ASSEMBLY

The Neprock Stackable Plastic Storage Drawers require minimal assembly. Follow these steps to set up your units:

1. **Unfold Each Unit:** Carefully unfold each flat-packed storage drawer unit. Ensure all sides click into place securely.
2. **Secure Base:** Confirm that the base of each drawer is fully extended and locked, providing a stable foundation.
3. **Stacking (Optional):** If stacking multiple units, align the bottom grooves of an upper unit with the top edges of a lower unit. Gently press down to ensure a stable connection.

4. OPERATING INSTRUCTIONS

To access items from a stacked drawer unit, utilize the integrated slide rails:

- **Partial Pull-Out:** The storage baskets are designed for partial pull-out access. They do not slide out completely like traditional drawers.
- **Support When Pulling:** When pulling out a drawer from a stacked configuration, it is important to support the upper unit with one hand while gently pulling the desired drawer forward with the other hand. This prevents the stack from becoming unstable.
- **Placement:** For optimal stability, especially when frequently accessing items, place the stacked units against a wall or a flat, sturdy surface.

SLIDE RAIL DESIGN

When you pull out a stackable box, you need to **hold the upper layer with your hands**

5. MAINTENANCE AND CARE

Maintaining your Neprock storage drawers is simple:

- **Cleaning:** The plastic material is easy to clean. Use a soft cloth dampened with water and a mild detergent. Wipe dry immediately.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or harsh chemicals, as these may damage the plastic surface.
- **Inspection:** Periodically check the units for any signs of wear or damage, especially the stacking connections, to ensure continued stability.

6. TROUBLESHOOTING

Issue: Stacked units feel unstable or slide apart.

Solution:

- Ensure each unit is fully unfolded and the base is securely locked.

- Verify that the upper unit's bottom grooves are correctly seated onto the lower unit's top edges.
- Always place stacked units against a wall or a stable, flat surface for added support.
- When pulling out a drawer, hold the upper unit firmly with one hand to prevent movement.

Issue: Drawer does not slide smoothly.

Solution:

- Check for any obstructions or items that might be catching the drawer.
- Ensure the drawer is properly aligned within its tracks.
- Clean the slide rail area to remove any dust or debris.

7. SPECIFICATIONS

Attribute	Detail
Brand	Neproch
Model Number	4L
Material	Plastic (PP)
