BXQ B0CF22GMDV

BXQ Smart Bark Collar Instruction Manual

Model: B0CF22GMDV

1. PRODUCT OVERVIEW

The BXQ Smart Bark Collar is designed to assist in training dogs to reduce excessive barking. It incorporates advanced technology to detect and respond to barking, offering multiple training modes to suit individual dog needs. This manual provides detailed instructions for proper setup, operation, and maintenance of your bark collar.

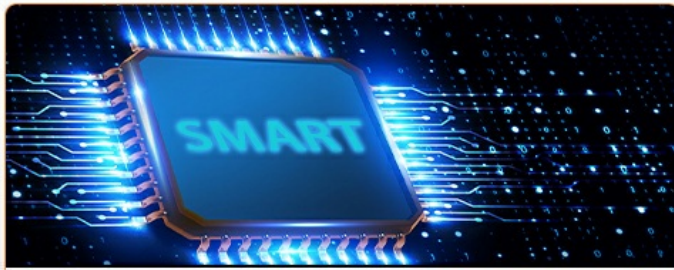

Figure 1.1: BXQ Smart Bark Collar (Tender Green) with adjustable strap.

Key Features:

- **Smart Bark Recognition:** Utilizes an upgraded chip to filter out external noises and prevent false triggers.
- **Multiple Training Modes:** Offers Beep, Beep+Vibration, Beep+Shock, and Beep+Vibration+Shock modes.
- **Adjustable Sensitivity:** 7 levels of sensitivity to detect barking.
- **Safety Protection Mode:** Automatically pauses operation for 2 minutes if triggered excessively.
- **Rechargeable Battery:** Fast charging (2 hours) provides up to 15 days of use.
- **IP67 Waterproof:** Suitable for use in various weather conditions, including swimming.
- **Adjustable Collar:** Fits dogs weighing 8-120 lbs with neck sizes 7-26 inches.

2. SETUP AND PREPARATION

2.1 Charging the Collar

Before initial use, fully charge the bark collar. The device features a built-in 300mAh lithium battery.

1. Connect the USB charging cable to the collar's charging port.
2. Plug the other end of the USB cable into a compatible USB power source (e.g., USB adapter, power bank, car charger, laptop/PC).
3. The LED display will indicate charging status. A full charge typically takes approximately 2 hours.
4. Once fully charged, the collar can operate for up to 15 days, depending on usage.

2.2 Fitting the Collar

Proper fit is crucial for the collar's effectiveness and your dog's comfort. The collar is adjustable and suitable for dogs weighing 8-120 lbs with neck sizes ranging from 7 to 26 inches.

1. Ensure the collar is turned off before fitting.
2. Place the collar around your dog's neck, positioning the device centrally under the chin.
3. Adjust the strap so that it is snug but not too tight. You should be able to fit one or two fingers comfortably between the collar and your dog's neck.
4. The contact points on the device should touch your dog's skin. If your dog has long fur, you may need to trim the fur slightly around the contact points to ensure proper contact.
5. Secure the buckle.

3. OPERATING INSTRUCTIONS

3.1 Powering On/Off

To power on the collar, press and hold the power button until the display lights up. To power off, press and hold the power button again until the display turns off.

3.2 Understanding Training Modes

The BXQ Smart Bark Collar offers four distinct training modes, each with 7 adjustable levels for intensity and sensitivity. It is recommended to start with the lowest effective setting and gradually increase if necessary.

- **No Shock Modes:**

- **Beep:** Emits an audible tone when barking is detected.
- **Beep + Vibration:** Emits a tone followed by a vibration.

- **Shock Modes:**

- **Beep + Shock:** Emits a tone followed by a static shock.
- **Beep + Vibration + Shock:** Emits a tone, followed by vibration, then a static shock.

Important: If you do not wish to use the static shock feature, ensure the shock level is set to Level 0.

Let your Dog Be More Polite

4 Training Modes & 7 Sensitivity

Figure 3.2: Visual representation of training modes and sensitivity settings.

3.3 Adjusting Sensitivity and Levels

The collar features 7 adjustable sensitivity levels to detect barking. Higher sensitivity levels will trigger the collar with softer barks, while lower levels require louder or more frequent barking. Each training mode (Beep, Vibration, Shock) also has 7 adjustable intensity levels.

1. With the collar powered on, use the mode/level buttons (refer to product diagram for specific button functions) to cycle through and select your desired training mode.
2. Use the +/- buttons to adjust the sensitivity level (1-7) for bark detection.
3. Within each mode, use the +/- buttons to adjust the intensity level (1-7) for the beep, vibration, or shock.

3.4 Automatic Bark Control and Protection Mode

The collar operates automatically once powered on and a mode is selected. It detects your dog's barking and applies the chosen correction. To prevent over-correction, the collar includes a safety protection mode:

- If the collar is triggered more than 7 times within a 30-second period, it will temporarily stop working for 2 minutes.
- During this protection mode, the digital display will show "E".
- To resume operation before the 2-minute timer expires, press the power button.

Automatic Bark Control

Turn it on, just enjoy quiet home time, have a peaceful sleep or calm walks.

Figure 3.3: Automatic bark control in action.

Smart Anti-interference

Filter irrelevant sounds and prevent false triggering.

Figure 3.4: Smart anti-interference technology to prevent false triggers.

4. CARE AND MAINTENANCE

4.1 Cleaning the Collar

Regular cleaning helps maintain the collar's performance and hygiene.

- Turn off the collar and disconnect it from any charging cables.
- Wipe the device and strap with a soft, damp cloth.
- Avoid using harsh chemicals or abrasive cleaners.
- Ensure the contact points are clean and free of debris.
- Allow the collar to air dry completely before storage or next use.

4.2 Waterproof Feature (IP67)

The BXQ Smart Bark Collar is IP67 waterproof, meaning it is protected against immersion in water up to 1 meter for up to

30 minutes. This allows your dog to wear it during activities like swimming, bathing, or playing in the rain.

- Ensure the charging port cover is securely closed when the collar is exposed to water.
- While waterproof, prolonged immersion or exposure to high-pressure water jets is not recommended.
- After exposure to water, dry the collar thoroughly, especially around the charging port, before charging.

IP67 Waterproof Ready for All Weather Conditions

Figure 4.1: The collar's IP67 waterproof rating allows for use during water activities.

Figure 4.2: The collar is designed to withstand water exposure.

4.3 Storage

Store the collar in a cool, dry place away from direct sunlight and extreme temperatures when not in use.

5. TROUBLESHOOTING

If you encounter issues with your BXQ Smart Bark Collar, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Collar not activating when dog barks.	• Collar is off. • Low battery. • Incorrect fit (contact points not touching skin). • Sensitivity level too low. • Protection mode active ("E" on display).	• Ensure collar is powered on. • Charge the collar fully. • Adjust the collar for a snug fit, ensuring contact points touch the skin. Trim fur if necessary. • Increase the sensitivity level. • Wait 2 minutes for protection mode to reset, or press the power button to resume.
Collar activating without dog barking (false triggers).	• Sensitivity level too high. • External noises or vibrations.	• Decrease the sensitivity level. • Ensure the collar is not rubbing against other objects or experiencing strong vibrations.
Collar not holding a charge.	• Faulty charging cable or adapter. • Battery degradation.	• Try a different USB charging cable and adapter. • Contact customer support if the issue persists after trying a different cable/adapter.
Static shock not felt (if enabled).	• Shock level set to 0. • Poor contact with skin.	• Increase the shock level (ensure it's not 0). • Re-adjust collar for better contact.

6. PRODUCT SPECIFICATIONS

Feature	Detail
Brand	BXQ
Model Number	B0CF22GMDV
Training Modes	Beep, Beep+Vibration, Beep+Shock, Beep+Vibration+Shock
Sensitivity Levels	7 Levels
Intensity Levels (Beep, Vibration, Shock)	7 Levels each
Battery Type	300mAh Lithium Polymer (included)
Charging Time	Approx. 2 hours
Usage Time	Up to 15 days
Waterproof Rating	IP67
Adjustable Collar Length	7-26 inches (27 inches total strap length)
Recommended Dog Weight	8-120 lbs
Materials	Plastic, Rubber, Silicone, Stainless Steel
Item Weight	5 ounces
Package Dimensions	3.54 x 2.87 x 1.93 inches

7. WARRANTY INFORMATION

Specific warranty details for the BXQ Smart Bark Collar are typically provided with the product packaging or available on the manufacturer's official website. Please retain your proof of purchase for any warranty claims.

For information regarding returns or replacements, please refer to the retailer's policy where the product was purchased.

8. CUSTOMER SUPPORT

If you have any questions, concerns, or require further assistance with your BXQ Smart Bark Collar, please contact BXQ customer support through the following channels:

- **Online Support:** Visit the official BXQ store on Amazon for FAQs and contact options: [BXQ Amazon Store](#)
- **Email:** Refer to the product packaging or the BXQ Amazon store for specific customer service email addresses.

When contacting support, please have your product model number (B0CF22GMDV) and purchase details readily available.
