# Qinline Kids Advent Calendar 2024 - Christmas Building Blocks Instruction Manual

Model: Kids Advent Calendar 2024 | Brand: Qinline

## 1. INTRODUCTION

Welcome to the Qinline Kids Advent Calendar 2024! This unique building block set offers a delightful way to count down to Christmas with 24 daily surprises. Each day reveals a new set of building blocks to assemble, culminating in a festive collection of Christmas-themed models. This manual provides detailed instructions for assembly, usage, and care to ensure an enjoyable experience.

The calendar is designed to foster creativity, hand-eye coordination, and problem-solving skills, making it an ideal holiday activity for children aged 6 and above.

## 2. PRODUCT OVERVIEW

The Qinline Kids Advent Calendar 2024 features 24 individual Christmas-themed building block sets. These sets include various festive elements such as Santa Claus, an elk, a Christmas tree, a Christmas shop, a cart, a gift storage room, a snowman, a train, a fireplace, and a cottage. All components are made from high-quality, child-safe materials, ensuring durability and a secure fit during assembly.

A unique aspect of this calendar is its **6-in-1 design**. While each day's surprise builds a small, standalone model, collecting specific sets allows for the construction of larger, more intricate models. For example, you can combine several small models to rebuild into a large Christmas shop, a larger Santa figure, a Christmas train, or a grand Christmas tree.

## 3. SAFETY INFORMATION

- **Recommended Age:** This product is recommended for children aged 6 years and older.
- **Small Parts Warning:** The building block sets contain small parts which may pose a choking hazard. Not suitable for children under 3 years. Adult supervision is advised during assembly and play, especially with younger children present.
- **Material Safety:** All parts are composed of high-quality, child-safe materials. Ensure all pieces are handled appropriately.

## 4. SETUP AND ASSEMBLY

The Qinline Advent Calendar provides a unique building experience with two assembly options: 24 individual small models or 4 larger combined models.

### 4.1. Daily Small Model Assembly

1. **Open the Day's Compartment:** Each day from December 1st to 24th, open the corresponding numbered compartment on the advent calendar box.
2. **Retrieve Building Blocks and Instructions:** Inside each compartment, you will find a sealed bag containing the building blocks for that day's model, along with a small, two-sided instruction sheet.
3. **Follow Instructions:** Refer to the front side of the instruction sheet for the step-by-step guide to assemble the individual small model.

4. **Assemble Carefully:** The pieces are designed to interlock precisely. Apply gentle pressure to connect them.

#### 4.2. Rebuilding into Larger Models (6-in-1 Design)

After assembling the 24 individual models, you have the option to combine them into 4 larger, more elaborate Christmas scenes. **Note:** The 24 small models cannot be built simultaneously with the 4 larger models; you must disassemble the small models to create the larger ones.

1. **Collect 6 Miniature Models:** Identify the specific groups of 6 small models that form one of the larger designs (e.g., Santa, Christmas Train, Christmas Tree, Christmas Shop).
2. **Refer to Back of Instructions:** The back side of the instruction sheets for these 6 models will provide the guide for assembling the larger combined model.
3. **Disassemble Small Models:** Carefully take apart the 6 small models. The pieces are designed for smooth disassembly, making it easy to reconfigure.
4. **Assemble Large Model:** Follow the instructions to build the larger model using the collected pieces.

This feature allows for extended play and creativity, transforming your daily surprises into grand holiday displays.

## 6. MAINTENANCE

- **Cleaning:** To clean the building blocks, gently wipe them with a damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Storage:** Store the building blocks and assembled models in a dry, cool place away from direct sunlight to prevent discoloration or damage. Keep them in a container to prevent loss of small pieces.
- **Handling:** Handle the assembled models with care to avoid accidental disassembly.

## 7. TROUBLESHOOTING

- **Missing Pieces:** While rare, if you find a piece missing from a daily set, double-check the packaging and surrounding area. If still missing, please contact Qinline customer service for assistance.
- **Difficulty Assembling:** Ensure you are following the instructions carefully. Sometimes, rotating a piece or trying a different angle can help. The pieces interlock precisely, requiring a firm but not forceful push.
- **Models Not Staying Together:** Verify that all pieces are fully pressed into place. If a model frequently falls apart, check for any incorrectly placed pieces or contact support if you suspect a defective part.
