Yoidesu Outdoor Security Camera

INSTRUCTION MANUAL

Introduction

Thank you for choosing the Yoidesu Outdoor Security Camera. This compact and versatile device is designed to provide reliable home security with its advanced features, including AI motion detection, two-way audio, and full 1080P night vision. Its mini portable design and magnetic mounting option offer flexible placement for various monitoring needs. This manual provides essential information for setting up, operating, and maintaining your camera to ensure optimal performance.

Specifications

Feature	Detail
Item Material	ABS
Video Resolution	Up to 1080P
Battery Capacity	300 mAh (built-in Lithium-ion)
Charging Time	Approx. 30 minutes (0%-100%)
Video Frame Rate	25 FPS
Connection	Mobile APP connection (Wi-Fi)
Memory Expansion	Up to 32GB (memory card not included)

Feature	Detail
Night Vision Mode	Support (manually turn on)
Power Supply Interface	Micro USB
Bracket Adjustment	360 degree horizontal
Compression Standard	MJPEF, JPEG
Data Transfer Mode	2.4GHz Wi-Fi, Memory card reading
APP Name	For HDwificamPro
Item Weight	3.07 ounces (87g)
IP Rating	IP65

Setup Guide

- Charging the Camera:** Before first use, fully charge the camera using the provided Micro USB cable. Connect the cable to the camera's USB port and a standard USB power adapter (not included). The charging time is approximately 30 minutes for a full charge.

Image: The Yoidesu camera with an exploded view of its lens, alongside icons representing its features: Wi-Fi connectivity, HD night vision, card storage, HD 1080P video, cyclic video recording, and long battery life.

2. **Insert Memory Card:** Insert a memory card (up to 32GB, not included) into the SD card slot on the camera. Ensure the camera is powered off before inserting or removing the card.
3. **Power On:** Short press the power button to turn on the camera. For initial setup or if the camera is unresponsive, a long press may be required.
4. **Download the APP:** Scan the QR code provided in the physical instruction manual (or search for "HDwificamPro" in your mobile app store) to download and install the companion application on your smartphone.
5. **Connect to APP:** Follow the in-app guidelines to connect the camera to your mobile device via Wi-Fi. This typically involves connecting your phone to the camera's Wi-Fi hotspot first, then configuring it to connect to your home Wi-Fi network if desired.
6. **Mounting the Camera:** The camera features a magnetic module on its back, allowing it to attach to iron surfaces. Use the included magnetic bracket to adjust the camera's angle up to 360 degrees for optimal viewing.

Operating Instructions

Once your Yoidesu camera is set up, you can utilize its various functions for effective monitoring.

- **Real-time Monitoring:** Use the mobile APP to watch live footage from the camera anytime, anywhere, provided the camera is connected to a network.
- **Motion Detection:** The camera supports motion detection. When motion is detected, it can trigger recording and send alerts to your mobile device. This feature helps in capturing important events.

WiFi Mini HD Camera

The magnetic module on the back of the camera has a very strong magnetic force that allows him to be able to attach to iron, and a number of angles can be adjusted using the included magnetic mount.

Image: The Yoidesu camera positioned to monitor a doorway, with a red beam indicating its detection range. A smartphone screen below shows a security interface, illustrating the camera's use for home security and motion detection.

- **Night Vision:** The intelligent night vision sensor lens ensures clear visibility even in low-light or dark conditions. Night vision can be manually activated through the APP.
- **Video Recording and Storage:** The camera records in 1080P resolution. With a memory card inserted, it can record continuously for up to 6 hours. When the memory is full, the camera will automatically overwrite the oldest video files to ensure continuous recording (cyclic video recording).
- **AP Hotspot Disconnection Monitoring:** If the camera loses connection to your main Wi-Fi network, it can still be monitored directly via its built-in AP hotspot within a 10-meter range from your phone.

EQUIPPED WITH AP HOTSPOT DISCONNECTION MONITORING

If there is no network or sudden disconnection in the usage environment, you can still use AP hotspots within 10 meters of your phone and camera to directly monitor your phone

Image: An illustration showing a smartphone and the Yoidesu camera, with a double-headed arrow indicating a 10-meter range between them, demonstrating the camera's ability to be monitored via its AP hotspot even without a network connection.

- **Video Demonstration:** For a visual guide on the camera's features and operation, please watch the official product video below.

Video: An official product video demonstrating the Yoidesu Outdoor Security Camera's features, including its compact size, various angles, and connectivity options.

Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the camera lens and body. Avoid using liquid cleaners or abrasive materials that could damage the device.
- **Storage:** When not in use for extended periods, store the camera in a cool, dry place away from direct sunlight and extreme temperatures. Ensure the battery is partially charged before storage to prolong its lifespan.
- **Environmental Conditions:** While designed for outdoor use with an IP65 rating, avoid submerging the camera in

water or exposing it to extremely harsh weather conditions beyond its intended use.

Troubleshooting

If you encounter issues with your Yoidesu camera, refer to the following common problems and solutions:

- **Camera not turning on:** Ensure the camera is fully charged. If the issue persists, try connecting it to a power source and attempting to power on again. Use the provided card pin to press the reset button if necessary.
- **Unable to connect to Wi-Fi/APP:**
 - Verify that the camera is powered on and within range of your Wi-Fi router or your phone (for AP hotspot connection).
 - Ensure you have downloaded the correct "HDwificamPro" APP.
 - Check your phone's Wi-Fi settings to ensure it's connected to the camera's hotspot during initial setup.
 - Restart both the camera and your smartphone.
- **No recording or recording stops:**
 - Ensure a compatible memory card (up to 32GB) is correctly inserted.
 - Check if the memory card is full; the camera supports cyclic recording, but a full card might cause issues if not configured correctly.
 - Format the memory card through the APP if problems persist (this will erase all data).
 - Ensure the camera has sufficient battery charge or is connected to a power source.
- **Poor video quality or night vision:**
 - Clean the camera lens with a soft cloth.
 - Ensure adequate lighting for daytime recording.
 - Verify that night vision is enabled in the APP for low-light conditions.
- **Motion detection not working:**
 - Check the motion detection settings within the "HDwificamPro" APP.
 - Ensure the camera's field of view covers the desired detection area.
 - Adjust sensitivity settings if needed.

Important Safety Information & Warranty

Warning: Do not attempt to disassemble, modify, or repair the product yourself to avoid personal injury or equipment damage. Unauthorized modifications will void any applicable warranty.

1 Warning

Do not attempt to disassemble, modify or repair the product yourself to avoid personal injury or equipment damage.

2 Warnung

Versuchen Sie nicht, das Produkt selbst zu zerlegen, zu modifizieren oder zu reparieren, da dies zu Verletzungen oder Geräteschäden führen kann.

3 Avertissement

N'essayez pas de démonter, de modifier ou de réparer le produit vous-même, car vous risqueriez de vous blesser ou d'endommager l'équipement.

4 Advertencia

No intente desmontar, modificar o reparar el producto usted mismo para evitar lesiones personales o daños en el equipo.

5 Ostrzeżenie

Nie próbuj rozkładać, modyfikować ani naprawiać produktu samodzielnie, aby uniknąć urazu osobistego lub uszkodzenia sprzętu.

6 Waarschuwing

Probeer het product niet zelf te demonteren, aan te passen of te repareren, want dit kan leiden tot letsel of schade aan het apparaat.

7 Varning

Försök inte att demontera, modifiera eller reparera produkten själv, eftersom det kan leda till personskador eller skador på apparaten.

8 Attenzione

Non tentare di smontare, modificare o riparare autonomamente il prodotto per evitare lesioni personali o danni all'apparecchiatura.

9 Uyarı

Kendiniz ürünü sökme, değiştirmeye veya tamir etmeye kalkışmayın, kişisel yaralanma veya ekipman hasarı oluşabilir.

Image: A warning sign with an exclamation mark, accompanied by text in multiple languages advising against disassembling, modifying, or repairing the product to prevent injury or damage.

This product is manufactured by Yoidesu. For specific warranty details, returns, or further technical support, please refer to the purchase platform or contact the seller directly. Keep your purchase receipt as proof of purchase.
