

Toro 139-2433

Toro Part # 139-2433 Pulley Instruction Manual

Replacement Pulley for Lawn Mowers (Replaces 125-5574 and 110-6864)

1. PRODUCT OVERVIEW

This manual provides instructions for the installation and maintenance of the Toro Part # 139-2433 Pulley. This component is designed as a direct replacement for Toro part numbers 125-5574 and 110-6864, commonly used in lawn mower deck assemblies.

The pulley plays a crucial role in the power transmission system of your lawn mower, guiding and tensioning belts to ensure proper operation of blades or other moving parts. Regular inspection and timely replacement are essential for maintaining equipment performance and safety.

Figure 1: Front view of the Toro Part # 139-2433 Pulley. This image shows the overall design and metallic finish of the replacement pulley.

2. SAFETY INFORMATION

Always prioritize safety when working with power equipment. Failure to follow these safety guidelines may result in serious injury or damage to equipment.

- **Disconnect Power:** Before beginning any installation or maintenance, ensure the equipment's engine is off and the spark plug wire is disconnected to prevent accidental starting. For electric models, unplug from the power source.
- **Wear Protective Gear:** Always wear appropriate personal protective equipment (PPE), including safety glasses and heavy-duty gloves, to protect against sharp edges and pinch points.
- **Secure Equipment:** Ensure the lawn mower is on a stable, level surface and properly supported to prevent it from moving or tipping during service.
- **Refer to Equipment Manual:** This manual provides instructions for the pulley itself. Always consult your specific lawn mower's owner's manual or service manual for detailed instructions on accessing and replacing deck components.
- **Use Correct Tools:** Use only the recommended tools for the job to avoid damaging parts or causing injury.

3. INSTALLATION INSTRUCTIONS

This section outlines the general steps for replacing a pulley. Specific procedures may vary depending on your lawn mower model. Always refer to your equipment's service manual for precise instructions.

1. **Prepare the Mower:** Follow all safety precautions listed in Section 2. Position the mower on a flat, stable surface.
2. **Access the Deck:** Depending on your mower, you may need to remove the mower deck from the tractor or tilt the mower to access the underside.
3. **Relieve Belt Tension:** Locate the belt tensioning mechanism and relieve tension on the belt that runs over the pulley. This may involve loosening a spring or idler arm.
4. **Remove Old Pulley:** Carefully remove the belt from the old pulley. Then, unbolt or unfasten the old pulley from its mounting point. Note the orientation and any washers or spacers.
5. **Install New Pulley:** Position the new Toro Part # 139-2433 Pulley in the same orientation as the old one. Secure it with the original fasteners, ensuring it is tightened to the manufacturer's specifications (refer to your mower's manual).
6. **Reinstall Belt:** Route the belt correctly around the new pulley and other components. Ensure the belt is seated properly in all grooves.
7. **Restore Belt Tension:** Re-tension the belt according to your mower's specifications. Check for proper alignment and tension.
8. **Reassemble and Test:** Reassemble any removed covers or components. Reconnect the spark plug wire. Start the mower and carefully test the operation in a safe area, listening for unusual noises or vibrations.

Figure 2: Angled view of the Toro Part # 139-2433 Pulley. This perspective highlights the V-groove design where the drive belt sits.

4. MAINTENANCE

Regular inspection of your pulley system can extend the life of your equipment and prevent unexpected failures.

- **Visual Inspection:** Periodically inspect the pulley for signs of wear, such as cracks, chips, or excessive grooving. Check for any rust or corrosion.
- **Bearing Check:** If the pulley has exposed bearings, check for smooth rotation. Listen for grinding or squealing noises, which indicate bearing wear. Many pulleys have sealed bearings and are not serviceable; replacement is necessary if bearings fail.
- **Belt Condition:** Inspect the drive belt that runs over the pulley for fraying, cracks, or glazing. A worn belt can cause the pulley to wear prematurely.
- **Cleaning:** Keep the pulley and surrounding area free of grass clippings, dirt, and debris, which can interfere with proper belt operation and cause wear.

5. TROUBLESHOOTING

If you experience issues after pulley replacement or during normal operation, consider the following:

- **Excessive Noise (Squealing/Grinding):**
 - *Cause:* Worn bearings, incorrect belt tension, or misaligned pulley.
 - *Solution:* Inspect bearings for smooth rotation. Adjust belt tension. Check pulley alignment.
- **Belt Slippage:**
 - *Cause:* Insufficient belt tension, worn belt, or glazed pulley surface.
 - *Solution:* Adjust belt tension. Replace worn belt. Clean pulley surface if glazed.
- **Vibration:**
 - *Cause:* Damaged or unbalanced pulley, loose mounting hardware.
 - *Solution:* Inspect pulley for damage. Ensure mounting bolts are securely tightened.

6. SPECIFICATIONS

Part Number:	139-2433
Replaces Part Numbers:	125-5574, 110-6864
Manufacturer:	Toro
Approximate Diameter:	5 1/2 inches (13.97 cm)
Approximate Shaft Diameter:	3/4 inch (1.91 cm)
Approximate Item Weight:	51 pounds (23.13 kg) <i>(Note: This weight is as provided in product data and may include shipping packaging or be an error for a single pulley.)</i>

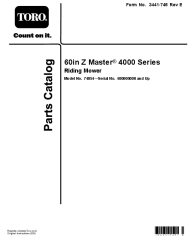

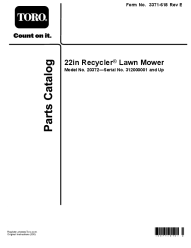

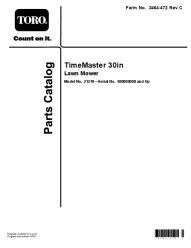

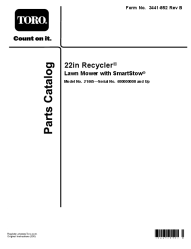

Figure 3: Toro Part # 139-2433 Pulley with key dimensions indicated. The image shows the 5 1/2 inch diameter and 3/4 inch shaft diameter.

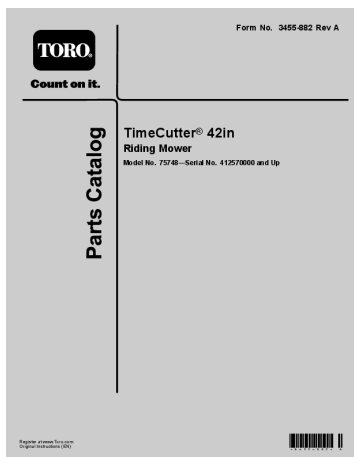

7. WARRANTY AND SUPPORT

For specific warranty information regarding the Toro Part # 139-2433 Pulley, please refer to the original purchase documentation or contact the seller directly. Warranty terms typically cover manufacturing defects.

For technical support or further assistance, please contact Toro customer service or visit the official Toro website. When contacting support, have your product model number and the pulley part number (139-2433) available.

You can find more information about Toro products and support at the [Toro Store on Amazon](#).
