> [Anker MagGo 3 in 1 iPhone 16 Charging Station, MagSafe-Compatible Wireless Charger Stand, Qi2 Certified 15W Foldable Charger for iPhone 15/14, AirPods, Apple Watch 9 \(40W USB-C Adapter Included\) Black](#)

### Anker A2557

# Anker MagGo 3-in-1 Wireless Charging Station User Manual

Model: A2557

Brand: Anker

## INTRODUCTION

The Anker MagGo 3-in-1 Wireless Charging Station is a versatile and compact solution designed to simultaneously charge your iPhone, AirPods, and Apple Watch. Featuring Qi2 certification for 15W ultra-fast charging and a foldable design for ultimate portability, this station is ideal for home, office, or travel use. It incorporates advanced safety features to ensure optimal charging performance and device protection.

## WHAT'S IN THE BOX

- Anker MagGo Wireless Charging Station (Foldable 3-in-1)
- 40W USB-C Charger
- 5 ft (1.5 m) USB-C to USB-C Cable
- Welcome Guide

## SETUP

### Connecting the Charger

Connect the provided 40W USB-C charger to the charging station using the 5 ft USB-C to USB-C cable. For optimal charging performance, always use the included 40W USB-C PD wall charger or another 30W or higher charger. A blinking blue light indicates insufficient power supply.

# Use a 30W or Higher Charger

**30W or Higher Charger**  
Flashes Once, Then Turns Off

**Charger Below 30W**  
Constant Flashing

## Align the Watch Correctly on the Charger

Note: For optimal charging, use the included 40W USB-C PD wall charger.

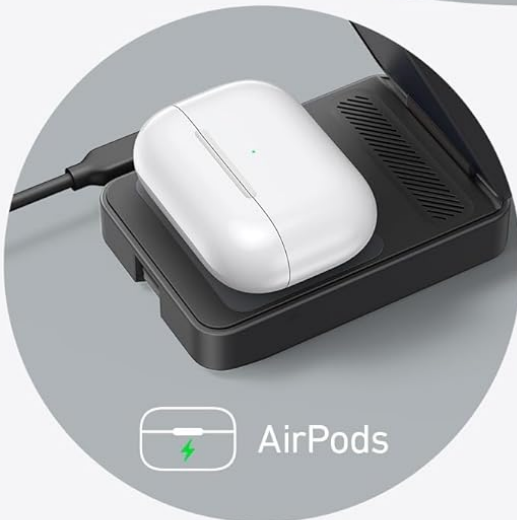

Image: Proper power adapter connection is indicated by a single flash, while insufficient power causes continuous blinking.

## Placing Your Devices

The Anker MagGo station is designed for simultaneous charging of your iPhone, AirPods, and Apple Watch.

- **iPhone:** Place your MagSafe-compatible iPhone onto the upright magnetic charging pad. It supports 15W ultra-fast charging.
- **AirPods:** Place your AirPods (or other wireless earbuds with a charging case) on the flat charging area at the base.
- **Apple Watch:** Flip out the Apple Watch charging module and place your Apple Watch on it.

# 3-in-1 Designed for Apple Devices

Note: 1. For watches with inflexible bands, unbuckle and place the watch module flat. 2. If the band cannot be unbuckled, adjust the position of the watch module or elevate the wireless charger for optimal charging.

Image: The station supports simultaneous charging of an iPhone, AirPods, and Apple Watch.

## Correct Apple Watch Alignment

For optimal charging of your Apple Watch, ensure it is correctly aligned on the charging module. If your watch band is inflexible, unbuckle it and place the watch module flat. If the band cannot be unbuckled, adjust the position of the watch module or elevate the wireless charger for optimal charging.

Image: Proper alignment of the Apple Watch on the charging module is crucial for efficient charging.

## OPERATING INSTRUCTIONS

### Fast Charging Capabilities

The Anker MagGo station utilizes Qi2 certification to deliver 15W ultra-fast wireless charging for compatible iPhones. It also supports Apple Watch Series 9 fast charging, reaching 47% in just 30 minutes thanks to MFW certification.

# Officially Certified Apple Watch Fast Charging

 47%\* =  30 Min

Made for  
 WATCH

\*Data based on internal testing shows an Apple Watch Series 9 can be charged from 0 to 47% in 30 minutes. This does not apply to other models.

Image: Apple Watch Series 9 can charge up to 47% in just 30 minutes.

## Foldable and Portable Design

With its ultra-compact foldable design, the charging station is highly portable, weighing only 6.9 oz. It can be easily folded to the size of a deck of cards, making it convenient for travel and on-the-go use.

## Nightstand Mode and Versatility

When your iPhone is placed horizontally on the magnetic charging pad, it can utilize Nightstand Mode, displaying the time and other widgets. This makes it a perfect bedside companion.

Video: Demonstrates the foldable design and how the iPhone can be used in Nightstand Mode while charging.

## MAINTENANCE

To ensure the longevity and optimal performance of your Anker MagGo Wireless Charging Station, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe down the surfaces of the charging station. Avoid using abrasive cleaners or solvents that could damage the finish.
- **Storage:** When not in use, fold the charging station to its compact form and store it in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid bending or crimping the USB-C cable excessively, as this can damage the internal wires. Always unplug the cable by holding the connector, not the cable itself.

## TROUBLESHOOTING

### Charging Issues

- **Blinking Blue Light:** If the blue indicator light is continuously blinking, it signifies that the power supply to the charger is insufficient. Ensure you are using the provided 40W USB-C PD wall charger or another adapter with 30W or higher output.
- **Device Not Charging:** Ensure your device (iPhone, AirPods, Apple Watch) is correctly aligned on its respective charging area. For iPhones, ensure it is MagSafe-compatible. For Apple Watch, check alignment and band flexibility as shown in the setup section.
- **Slow Charging:** Verify that the power adapter meets the minimum 30W requirement. Ensure proper device alignment. High ambient temperatures can also affect charging speed; try charging in a cooler environment.

## SPECIFICATIONS

Feature	Specification
Product Dimensions	3.5 x 2.36 x 0.98 inches
Item Weight	6.9 ounces
Model Number	A2557
Color	Black
Connectivity Technology	Wireless
Connector Type	USB Type C
Input Voltage	240 Volts
Special Feature	Wireless chargers
