2. SETUP AND ASSEMBLY

Follow these steps to assemble and set up your Tuanse lantern decorations:

2.1 Japanese and Cherry Blossom Paper Lanterns

1. Gently hold both ends of the folded lantern.
2. Extend the lantern bracket into the inside of the lantern.
3. Insert the protrusions above the stand into the two metal circles at the top of the lantern to secure its shape.
4. Ensure the lantern is fully expanded and stable.

Image 2.1: Visual guide for assembling the paper lanterns by inserting the metal frame.

2.2 Chinese Red Honeycomb Lanterns

1. Carefully peel off the protective tape from the adhesive strips on one side of the folded lantern.
2. Unfold the lantern, bringing the two sides together.
3. Align the adhesive strips and firmly press them together to secure the honeycomb shape.
4. Ensure the lantern is fully formed.

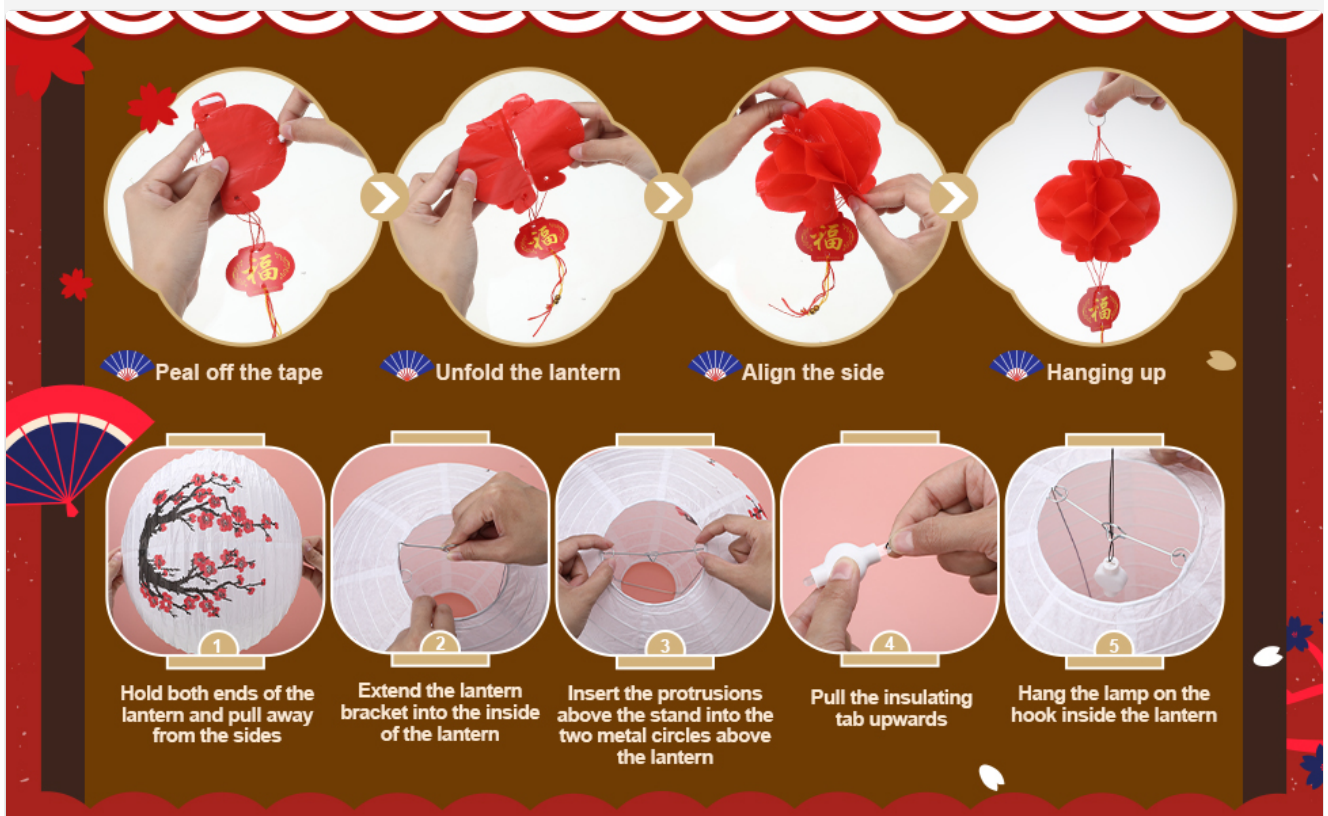

Image 2.2: Visual guide for assembling the honeycomb lanterns using adhesive strips.

2.3 LED Lantern Lights Installation

1. Locate the insulating tab on each LED light unit.
2. Pull the insulating tab upwards to activate the light.
3. Hang the activated LED lamp on the hook inside the assembled paper or Japanese lantern.
4. To turn off the light, push the white plastic tab back in.

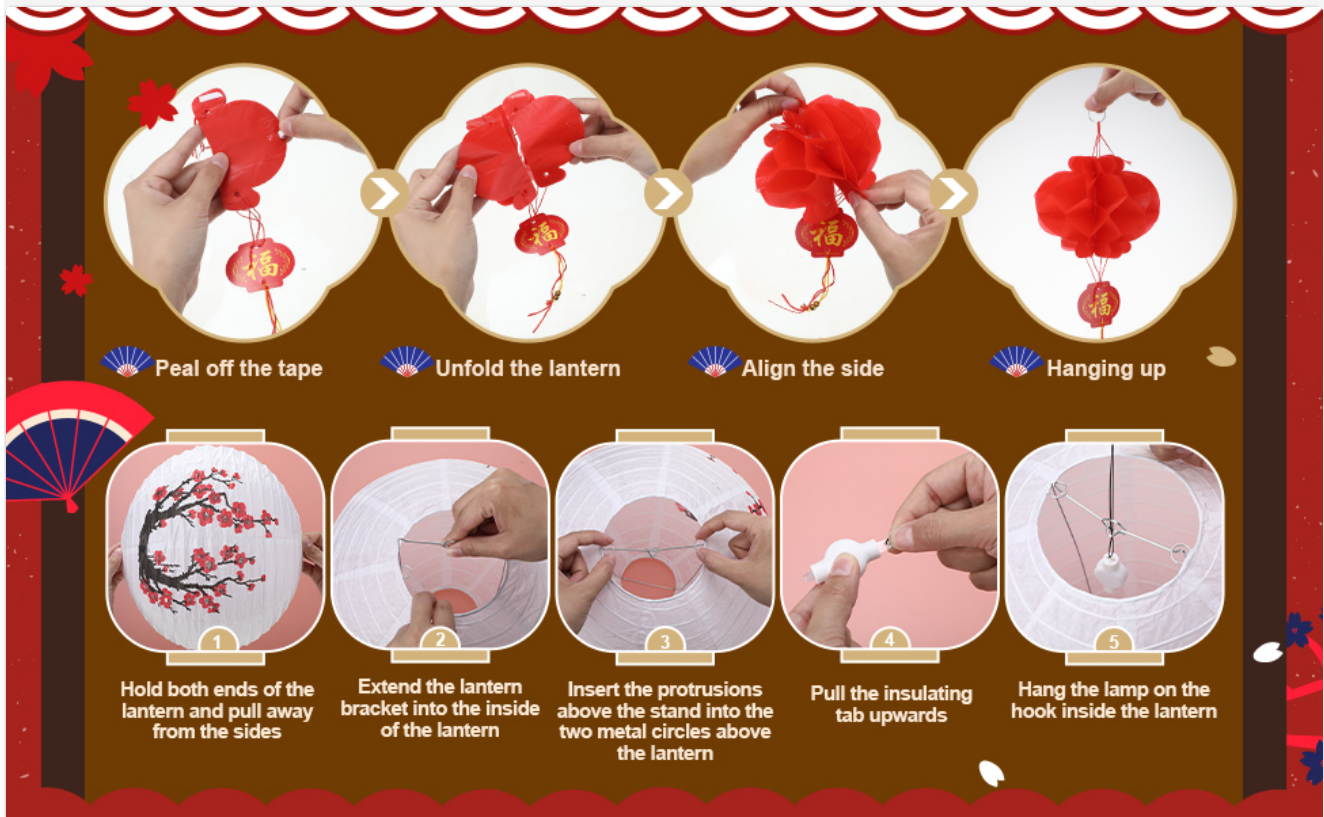

Image 2.3: Visual guide for installing the LED lights into the lanterns.

3. OPERATING INSTRUCTIONS

The LED lights are designed for simple operation:

- To turn on an LED light, gently pull the white plastic tab outwards from the light unit.
- To turn off an LED light, gently push the white plastic tab back into the light unit.

These lights provide a warm yellow glow, enhancing the ambiance of your lanterns.

4. MAINTENANCE AND STORAGE

To ensure the longevity and reusability of your lanterns:

- **Cleaning:** Gently wipe paper and fabric surfaces with a dry, soft cloth if needed. Avoid using water or harsh chemicals, as the lanterns are not water-resistant.
- **Storage:** When not in use, the paper and Japanese lanterns can be carefully folded back to their original flat state. The Chinese red honeycomb lanterns can also be flattened for compact storage. Store all components in a dry, cool place away from direct sunlight to prevent fading or damage.
- **Reusability:** The quality fabric and sturdy construction allow for repeated use. Handle with care during assembly and disassembly to maintain their condition.

5. TROUBLESHOOTING

If you encounter any issues with your lantern set, consider the following:

- **LED Lights Not Working:** Ensure the insulating tab has been fully removed or pulled out to activate the light. If a light still does not work, it may be faulty.
- **Lantern Tearing During Assembly:** Paper lanterns are delicate. Handle them gently during expansion and when inserting the metal frame. Avoid excessive force.
- **Lantern Not Holding Shape:** Double-check that the metal frame is correctly inserted into the loops at the top and bottom of the paper/Japanese lanterns, or that the adhesive strips are firmly secured for the honeycomb lanterns.

It is recommended to inspect all components upon receipt to ensure they are in good condition.

6. SPECIFICATIONS

Feature	Detail
Model Number	ER-Tuanse-2423
Total Pieces	40
Item Weight	2.44 pounds
Package Dimensions	12.76 x 12.68 x 4.25 inches
Material	Paper
Color	White, Red, Black
Shape	Sphere, Cylinder
Number of LED Lights	10
Batteries Required	No (for lanterns themselves, LED lights are self-contained)
