trifuns PG01

trifuns PG01 Pet Grooming Vacuum Kit Instruction Manual

1. INTRODUCTION

The trifuns PG01 Pet Grooming Vacuum Kit is designed to provide a comprehensive solution for pet grooming and home cleaning. This kit integrates a powerful vacuum with six specialized tools to effectively manage pet hair, reduce shedding, and maintain a clean living environment. Please read this manual thoroughly before initial use to ensure proper operation and maintenance.

2. PRODUCT COMPONENTS

The trifuns PG01 kit includes the following components:

- Main Vacuum Unit with 3.2L Dust Cup
- Flexible Hose
- Grooming Brush Tool
- Deshedding Tool
- Dematting Tool
- Electric Clipper with 4 Guide Combs (3mm, 6mm, 9mm, 12mm)
- Crevice Nozzle
- Cleaning Brush

3. SAFETY INSTRUCTIONS

- Always ensure the power cord and plug are in good condition before use. Do not operate with a damaged cord or plug.
- Keep the device away from water and do not immerse the main unit in any liquid.
- Do not use the device on wet pets or in wet environments.
- Supervise children and pets when the device is in operation. This is not a toy.
- Unplug the device from the power outlet before cleaning or performing any maintenance.
- Ensure all filters are correctly installed before operating the vacuum.
- Use only manufacturer-recommended attachments and accessories.
- Do not block the air vents or hose openings during operation.
- If the device malfunctions or makes unusual noises, turn it off immediately and unplug it.

4. SETUP

1. **Unpack Components:** Carefully remove all items from the packaging and ensure all components listed in Section 2 are present.
2. **Connect Hose:** Insert one end of the flexible hose into the designated port on the main vacuum unit until it clicks securely into place.
3. **Attach Tool:** Select the desired grooming or cleaning tool and attach it to the other end of the flexible hose. Ensure it is firmly connected.
4. **Power Connection:** Plug the power cord into a suitable electrical outlet.
5. **Power On:** Press the power button on the main unit to turn on the device. Adjust the suction power as needed using the control panel.

5. OPERATING INSTRUCTIONS

5.1 Grooming, Deshedding, and Dematting

These tools are designed to remove loose hair, tangles, and mats from your pet's coat while simultaneously collecting the hair into the vacuum.

- **Grooming Brush:** Use for general brushing and removing surface loose hair.
- **Deshedding Tool:** Ideal for pets with thick undercoats, effectively removing shedding hair without damaging the topcoat.
- **Dematting Tool:** Helps to gently break up and remove small mats and tangles.

Procedure: Attach the desired tool to the hose. Turn on the vacuum to a low or medium suction setting. Gently brush your pet's coat in the direction of hair growth. Avoid applying excessive pressure. Observe your pet's comfort level throughout the process.

Grooming As You Need

5.2 Electric Clipper

The electric clipper allows for precise trimming of your pet's fur. The kit includes four guide combs for different hair lengths.

- **Guide Combs:** Select the appropriate guide comb (3mm, 6mm, 9mm, or 12mm) based on the desired hair length. Attach it firmly to the clipper head.

Procedure: Attach the clipper to the hose. Select and attach a guide comb. Turn on the vacuum. Carefully and slowly move the clipper through your pet's fur, ensuring a smooth and even cut. Always ensure the clipper blades are clean and oiled for optimal performance.

5.3 Cleaning Tools

After grooming, use the specialized cleaning tools to tidy up any stray hairs or debris in your home.

- **Crevice Nozzle:** Ideal for reaching tight spaces, corners, and edges where pet hair might accumulate.
- **Cleaning Brush:** Suitable for cleaning upholstery, carpets, and other surfaces to remove pet hair and dust.

Procedure: Attach the desired cleaning tool to the hose. Turn on the vacuum and use it to clean surfaces as you would with a standard vacuum cleaner. The powerful suction ensures efficient hair removal.

Easy Clean Up

Keep Room Clean and Tidy

5.4 Suction Power and Noise Level

The trifuns PG01 offers adjustable suction power settings (6kPa, 9kPa, 12kPa) to suit different grooming and cleaning needs. It operates at a low noise level, typically below 60dB, to ensure a comfortable experience for both you and your pet.

Powerful but Quiet

Strong Suction Power : 6kPa / 9kPa / 12kPa

Low Noise
<60dB

Image: Highlights the powerful suction capabilities (6kPa, 9kPa, 12kPa) and low noise operation (under 60dB) of the grooming vacuum.

6. MAINTENANCE

6.1 Emptying the Dust Cup

The 3.2L dust cup should be emptied regularly, especially when it appears full, to maintain optimal suction performance.

1. Turn off and unplug the vacuum.
2. Locate the dust cup release button or latch on the main unit.
3. Carefully remove the dust cup.
4. Open the dust cup lid and empty the collected pet hair and debris into a waste bin.
5. Close the dust cup lid and reattach the dust cup to the main unit, ensuring it clicks securely into place.

Hassle Free Dust Cup

3.2L large capacity for complete cleaning without interrupt

6.2 Cleaning Filters

Regularly clean the internal filters to prevent clogging and maintain suction efficiency. Refer to the specific filter cleaning instructions provided with your unit.

6.3 Cleaning Tools and Hose

After each use, remove any hair or debris from the grooming tools and the inside of the hose. A small brush or damp cloth can be used for cleaning. Ensure all parts are dry before reassembly or storage.

7. TROUBLESHOOTING

• No Suction:

- Check if the dust cup is full and needs emptying.

- Ensure the dust cup and filters are correctly installed.
- Verify that the hose is securely connected to both the main unit and the attachment.
- Inspect the hose and attachments for any blockages and clear them if found.

- **Device Not Turning On:**

- Ensure the power cord is firmly plugged into a working electrical outlet.
- Check if the power button is fully pressed.

- **Poor Grooming Results:**

- Ensure the grooming tools are clean and free of tangled hair.
- Adjust the suction power to a higher setting if needed.
- For clippers, ensure blades are clean and sharp.

- **Unusual Noise:**

- Turn off the device immediately.
- Check for any foreign objects or blockages in the hose or main unit.
- If the noise persists after checking, contact customer support.

8. SPECIFICATIONS

Model Number	PG01
Brand	trifuns
Dust Cup Capacity	3.2 Liters
Suction Power	6kPa / 9kPa / 12kPa (Adjustable)
Noise Level	<60dB
Package Dimensions	42.5 x 34 x 19.7 cm
