

GoGonova GGU4-Li

GoGonova Cordless Hot Glue Gun (Model GGU4-Li) User Manual

Model: GGU4-Li

INTRODUCTION

Thank you for choosing the GoGonova Cordless Hot Glue Gun. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new device. Please read this manual thoroughly before first use and retain it for future reference.

IMPORTANT SAFETY INFORMATION

Always observe the following safety precautions to prevent injury or damage to the product:

- **Hot Surfaces:** The nozzle and melted glue become very hot during operation. Avoid direct contact with skin to prevent burns.
- **Automatic Power-Off:** The glue gun features a smart sensor that automatically powers off after 5 minutes of inactivity. This enhances safety and conserves battery life.
- **Charging:** Use only the provided USB-C cable and charging base. Ensure the device is fully charged before initial use.
- **Storage:** Store the glue gun in a safe place, away from children and pets, especially when hot or charging.
- **Ventilation:** Use in a well-ventilated area.
- **Material Compatibility:** Ensure the materials you are gluing are suitable for hot glue application.

PACKAGE CONTENTS

Your GoGonova Cordless Hot Glue Gun package includes:

- 1 x GoGonova Cordless Hot Glue Gun
- 1 x Charging Base
- 1 x USB-C Charging Cable

- 25 x Premium Mini Glue Sticks (0.275" x 5.51")
- 1 x User Manual

PRODUCT OVERVIEW

The GoGonova Cordless Hot Glue Gun is designed for convenience and efficiency in various crafting and repair tasks. Key features include:

- **Cordless Design:** Offers freedom of movement without being tethered to an outlet.
- **Fast Preheating:** Heats up in approximately 15 seconds.
- **Rechargeable Battery:** Integrated 2Ah lithium-ion battery, rechargeable via USB-C.
- **LED Indicators:** Display battery level and heating status.
- **Smart Power-Off:** Automatically shuts down after 5 minutes of inactivity for safety and energy saving.

- **Ergonomic Design:** Comfortable grip and two-finger trigger for reduced fatigue.

SETUP INSTRUCTIONS

1. **Initial Charge:** Before first use, fully charge the glue gun. Place the glue gun onto its charging base. Connect the USB-C cable to the charging base and a suitable USB power source (not included). The LED indicators on top of the glue gun will show the charging status. A full charge typically takes about 1.5 hours.
2. **Power On:** Long press the power button on the top of the glue gun until the LED lights begin flashing. This indicates the device is powered on and beginning to preheat.
3. **Insert Glue Stick:** Insert a mini glue stick (0.275" x 5.51") into the circular opening at the back of the glue gun. Push it gently until it stops.

OPERATING INSTRUCTIONS

1. **Preheating:** After powering on, the glue gun will preheat rapidly, typically within 15 seconds. The LED lights will stop flashing and remain solid when the glue gun is ready for use.
2. **Applying Glue:** Gently press the two-finger trigger to dispense melted glue. Apply glue to the desired surface. Release the trigger to stop the flow.
3. **Cordless Operation:** Enjoy the flexibility of cordless operation. You can move freely around your workspace.
4. **Battery Check:** Short press the power button to check the remaining battery power via the LED indicators.
5. **Automatic Shut-off:** If the glue gun is inactive for more than 5 minutes, it will automatically power off. To resume use, long press the power button again.
6. **Power Off:** To manually turn off the glue gun, long press the power button until the LED lights turn off.

MAINTENANCE

- **Cleaning:** Ensure the glue gun is completely cool before cleaning. Gently wipe the nozzle and exterior with a clean, dry cloth. Do not use abrasive cleaners or solvents.
- **Storage:** Store the glue gun and glue sticks in a cool, dry place.
- **Nozzle Care:** Do not attempt to remove or clean the nozzle while the glue gun is hot.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Glue gun does not turn on.	Low battery or not powered on correctly.	Ensure the battery is fully charged. Long press the power button until lights flash.
Glue does not dispense.	Not preheated, glue stick not inserted, or jammed.	Wait for LED indicators to be solid. Ensure glue stick is fully inserted. If jammed, allow to cool, then gently remove the stick.
Glue drips excessively.	Normal for hot glue guns, or nozzle is too hot.	Place the glue gun on its charging base or a protective mat when not in use.
Battery drains quickly.	Continuous use or aging battery.	Utilize the smart power-off feature. Ensure full charge before use.

SPECIFICATIONS

- **Model Number:** GGU4-Li
- **Brand:** GoGonova
- **Power Source:** Battery Powered
- **Battery:** 2Ah Built-in Lithium-ion (4V, 7.2 Watt-hours)
- **Charging:** USB-C (approx. 1.5 hours for full charge)
- **Preheating Time:** Approx. 15 seconds
- **Automatic Shut-off:** After 5 minutes of inactivity
- **Compatible Glue Sticks:** Mini (0.275" x 5.51")
- **Item Weight:** 1.1 Pounds
- **Product Dimensions:** 7"L x 1.6"W x 8.6"H
