ToLife TZ-K2-A

ToLife TZ-K2 Air Purifier Replacement Filter Instruction Manual

Model: TZ-K2-A | Brand: ToLife

ABOUT YOUR ToLIFE TZ-K2-A REPLACEMENT FILTER

This manual provides essential information for the proper use and maintenance of your ToLife TZ-K2-A Replacement Filter, designed for the ToLife TZ-K2 Air Purifier. This 3-in-1 filter ensures your air purifier continues to deliver clean and fresh air by effectively capturing airborne particles and odors.

ToLife TZ-K2-A HEPA FILTER

Compatible With ToLife TZ-K2 Air Purifier

KEY FEATURES

- Powerful 3-Stage Filtration:** Our H13 True HEPA Filter traps at least 99.97% of airborne particles 0.3 microns.
- Ultra-Fine Nylon Pre-Filter:** Designed to trap larger particles like dust, lint, fibers, hair, and pet fur, extending the filter's lifespan.
- Activated Carbon Filter:** Effectively eliminates household odors, including pet odors, smoke, fumes, VOCs, and cooking smells, without secondary pollution.
- Long Lifespan:** The filter can be used for up to 6000 hours.
- Optimal Compatibility:** Exclusively designed for the ToLife TZ-K2 Air Purifier to maintain peak performance.

Perfect Fit

100% compatibility with
TZ-K2 air purifier

Powerful Filtration

Traps at least 99.97%
of airborne particles 0.3
microns in size

Long Lifespan

Can be used for up
to 6000 hours

SETUP AND INSTALLATION

To ensure optimal performance, please follow these steps carefully when installing your new filter:

1. Step 1: Prepare the Air Purifier

Ensure the ToLife TZ-K2 Air Purifier is turned off and unplugged from the power outlet.

2. Step 2: Remove the Filter Cover

Gently open and remove the filter cover from the air purifier.

Image: The first step of filter replacement, showing the air purifier's front cover being removed.

3. Step 3: Remove Old Filter and Unpack New Filter

Carefully remove the old filter. Unpack the new TZ-K2-A replacement filter from its plastic packaging. *It is crucial to remove all plastic packaging before installation to allow proper air circulation.*

4. Step 4: Install New Filter

Insert the new filter into the air purifier, ensuring the "FRONT" indicator on the filter faces outwards.

5. Step 5: Replace Cover and Power On

Securely replace the filter cover. Plug the air purifier back into the power outlet and turn it on.

Image: A visual guide showing the four main steps for replacing the air purifier filter.

OPERATING YOUR ToLIFE TZ-K2 AIR PURIFIER

While the TZ-K2-A is a replacement filter, understanding the air purifier's operation ensures you get the most out of your new filter.

Air Quality Sensor

The air purifier features a real-time air quality sensor. The indicator light on the control panel changes color based on air quality:

- **Green:** Good air quality.
- **Yellow:** Moderate air quality.
- **Red:** Poor air quality.

Fan Speed Control

Adjust the fan speed to suit your needs. Higher speeds provide faster air purification.

Timer Function

Set the timer for 2, 4, 6, or 8 hours of operation.

Quiet Operation

The air purifier operates at a low noise level, as low as 23 decibels, making it suitable for bedrooms and quiet environments.

Sleep Mode

For undisturbed sleep, activate sleep mode which turns off all indicator lights except for the light button itself.

MAINTENANCE AND FILTER REPLACEMENT

Regular filter replacement is crucial for maintaining the efficiency of your ToLife TZ-K2 Air Purifier.

Filter Lifespan

The TZ-K2-A filter has a lifespan of up to 6000 hours.

Replacement Indicator

The ToLife TZ-K2 Air Purifier will illuminate a replacement indicator light when the filter needs to be changed. This ensures you replace the filter at the optimal time for continued clean air.

Cleaning the Filter

The filter is not washable. Attempting to clean it with water or other liquids will damage the filter media and reduce its effectiveness. Replace the filter as indicated.

TROUBLESHOOTING COMMON ISSUES

Issue	Possible Cause	Solution
Air purifier not turning on after filter replacement	Filter plastic packaging not removed.	Ensure all plastic packaging is removed from the new filter.
Air quality not improving / unusual odors persist	Filter is old or heavily soiled.	Replace the filter with a new ToLife TZ-K2-A filter.
Filter replacement indicator remains on after changing filter	Filter reset button not pressed (if applicable on air purifier model).	Refer to your ToLife TZ-K2 Air Purifier manual for instructions on resetting the filter life indicator.
Reduced airflow from air purifier	Filter is clogged.	Replace the filter.

For issues not listed here, please refer to the complete ToLife TZ-K2 Air Purifier user manual or contact customer support.

PRODUCT SPECIFICATIONS

Attribute	Detail
Model Number	TZ-K2-A
Product Dimensions	11.8" L x 10.8" W x 1.38" Th (11.8 x 10.8 x 1.38 inches)

Attribute	Detail
Item Weight	12 ounces (11.99 Ounces)
