KOIOS JE-901

KOIOS 600W Centrifugal Juicer Extractor User Manual

Model: JE-901 | Brand: KOIOS

INTRODUCTION

This user manual provides essential information for the safe and efficient operation of your KOIOS 600W Centrifugal Juicer Extractor. Please read all instructions carefully before using the appliance to ensure proper function and longevity.

IMPORTANT SAFETY PRECAUTIONS

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and/or injury to persons.

- Read all instructions before use.
- Do not immerse the motor unit in water or other liquids.
- Ensure the appliance is properly assembled and the safety locking arm is in place before operating.
- Do not put fingers or other objects into the feed chute while the appliance is in operation. Use only the provided food pusher.
- Unplug from outlet when not in use, before putting on or taking off parts, and before cleaning.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner.
- Keep hands and utensils out of the feed chute during operation to prevent the risk of severe injury to persons or damage to the juicer.
- The juicer features overheat protection, which automatically shuts off the motor if it senses overheating. Allow it to cool down before resuming use.

PARTS IDENTIFICATION

Familiarize yourself with the components of your KOIOS Juicer:

- Motor Unit (Base)
- Juice Collector
- Stainless Steel Filter (Juicer Filter)

- Pulp Container
- Feeder Tube and Lid
- Food Pusher
- Safety Locking Arm
- Juice Cup
- Cleaning Brush

SETUP AND ASSEMBLY

Follow these steps to assemble your juicer before first use:

1. Fit the juice collector onto the motor unit.

Your browser does not support the video tag.
[Video 1: Step-by-step assembly of the juicer. \(0:43\)](#)
2. Place the stainless steel filter into the juice collector.
3. Place the pulp container into position by tilting the motor base slightly to the left.
4. Place the juicer cover over the filter.
5. Lift the locking arm upwards to lock in position on either side of the lid. Ensure it clicks securely.
6. Slide the pusher into the feeding tube and place the juice cup under the juicer spout.

Step 6

Slide the pusher into the feeding tube and place the juicer under the juicer spout.

OPERATING INSTRUCTIONS

Your KOIOS Juicer features a powerful 600W motor and 3-speed modes for various fruits and vegetables:

- **"1" (Low Speed):** 12000 to 15000 RPM, ideal for softer fruits and vegetables like oranges, tomatoes, grapes, and kiwi.
- **"2" (Fast Speed):** 15000 to 18000 RPM, suitable for harder fruits and vegetables such as carrots, celery, beets, and kale.
- **"P" (Highest Speed/Pulse):** Reaches maximum speed instantly when triggered, useful for quick bursts or clearing clogs.

To operate:

1. Wash fruits and vegetables thoroughly. Cut larger items to fit the 2.5-inch feed chute.
2. Ensure the juicer is assembled correctly and plugged into a 120V (AC) power outlet.
3. Select the appropriate speed setting using the control knob.
4. Gradually feed the produce into the feed chute using the food pusher. Do not force the produce.
5. The fresh juice will flow into the juice cup, and the pulp will collect in the pulp container.

MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and extends the life of your juicer. All detachable parts are culinary grade and BPA-Free, and can be cleaned by hand or in the dishwasher.

1. Unplug the juicer from the power outlet before cleaning.
2. Disassemble the juicer by reversing the assembly steps.
3. Use the included cleaning brush to remove pulp from the stainless steel filter.
4. Rinse all detachable parts under running water. For thorough cleaning, parts can be placed in the dishwasher.
5. Wipe the motor unit with a damp cloth. Do not immerse the motor unit in water.
6. Allow all parts to dry completely before reassembling or storing.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Juicer does not turn on.	Safety locking arm not properly engaged. / Power cord not plugged in.	Ensure all parts are correctly assembled and the safety locking arm is securely locked. Check power connection.
Motor stops during operation.	Overheat protection activated. / Too much produce forced into chute.	Unplug and allow the motor to cool down for at least 15-20 minutes. Do not overload the juicer; feed produce gradually.

Problem	Possible Cause	Solution
Low juice yield or excessive pulp.	Incorrect speed setting for produce type. / Filter clogged.	Use appropriate speed setting (e.g., higher speed for harder produce). Clean the stainless steel filter thoroughly.
Vibration or loud noise during operation.	Improper assembly. / Unbalanced load.	Disassemble and reassemble all parts, ensuring they are securely in place. Feed produce evenly.

SPECIFICATIONS

- Brand:** KOIOS
- Model Number:** JE-901
- Color:** Black
- Maximum Power:** 600 Watts
- Voltage:** 120 Volts (AC)
- Number of Speeds:** 3
- Product Dimensions:** 7"D x 10.5"W x 12.4"H
- Item Weight:** 6.23 pounds
- Blade Material:** Stainless Steel
- Capacity:** 15 ounces (juice cup)
- Special Features:** Easy to Clean, 3 Speeds Mode, Overheat Protection, Anti-drip Spout, Non-slip Feet
- Dishwasher Safe Parts:** Yes
