SETUP AND ASSEMBLY

Assembly of the VanAcc sofa set is straightforward and typically takes two people approximately 30 minutes per piece. It is recommended that two people carry the boxes due to their size and weight.

- 1. Unpack Components:** Carefully remove all parts from their packaging. Lay them out on a clean, soft surface to prevent scratching. Locate the back pillows, which are often stored inside the armrests or under the seat cushions for compact shipping.
- 2. Attach Legs:** For each sofa unit (3-seater and loveseats), securely attach the wooden legs to the designated points on the bottom of the frame using the provided hardware. Ensure all legs are tightened firmly.
- 3. Assemble Frame Sections (if applicable):** The sofa frames are constructed with quality hardwood and steel for durability. If any frame sections require connection, align them carefully and secure with the provided bolts and nuts using the Allen wrench.
- 4. Place Seat Cushions:** Position the foam seat cushions onto the sofa frames. The seat cushions are designed to fit snugly with the armrests, creating a linear and simplistic look.
- 5. Add Back Pillows:** Place the extra soft back pillows against the backrest of each sofa unit. Allow the cushions and pillows to expand fully for 24-48 hours after unpacking to achieve their intended plushness.

- **General Cleaning:** For routine cleaning, gently wipe the fabric with a damp cloth. Avoid using abrasive cleaners or harsh chemicals.
- **Upholstery Cleaning Code:** The upholstery has a cleaning code of "W", indicating that only water-based cleaning agents should be used. Test any cleaning solution on an inconspicuous area first.
- **Vacuuming:** Regularly vacuum the sofa set using a soft brush attachment to remove dust and debris from the chenille fabric.
- **Sunlight Exposure:** Avoid prolonged exposure to direct sunlight, as this can cause fading of the fabric over time.
- **Spills:** Blot spills immediately with a clean, dry cloth. Do not rub, as this can spread the stain.
