Instruction Manual

## INTRODUCTION

---

This manual provides detailed instructions for assembling the Mould King 10066 Queen Anne's Revenge Ship in a Bottle Building Kit. This set allows you to construct a replica of the Queen Anne's Revenge pirate ship encased within a transparent bottle structure, complete with ocean elements and a display stand. The kit contains over 2488 pieces and is designed for builders aged 8 and above.

## SAFETY INFORMATION

---

- **Small Parts Warning:** This kit contains small parts which may pose a choking hazard for children under 3 years old. Adult supervision is recommended for younger builders.
- **Handling:** Handle all building blocks with care. Avoid excessive force during assembly to prevent damage to pieces.
- **Storage:** Store unbuilt pieces and the completed model in a safe, dry place away from direct sunlight and extreme temperatures.

## PACKAGE CONTENTS

---

Before beginning assembly, verify that all components are present in your kit. The package should contain:

- Simulation glass bottle building blocks

- Queen Anne's Revenge pirate ship model building blocks
- Blue ocean elements building blocks
- Classic character display stand building blocks
- Colorful paper instructions manual

## SETUP AND ASSEMBLY

---

Follow the included colorful paper instructions step-by-step for a smooth assembly process. Organize your pieces before starting each section.

### Assembly Steps:

1. **Unpack and Sort:** Carefully open all bags and sort the building blocks by color, size, or type as indicated in the instruction manual. This will significantly aid in locating pieces during construction.
2. **Build the Ship:** Begin by assembling the Queen Anne's Revenge pirate ship model according to the detailed diagrams in the manual. Pay close attention to the orientation of each piece.
3. **Construct the Ocean Base:** Assemble the blue ocean elements that will form the base inside the bottle.
4. **Integrate Ship and Ocean:** Place the completed ship onto the ocean base.
5. **Assemble the Bottle:** Construct the transparent bottle structure around the ship and ocean base. The design allows for the ship to be built and then enclosed.
6. **Build the Display Stand:** Assemble the classic character display stand.
7. **Mount the Bottle:** Carefully place the assembled ship in a bottle onto the display stand.

## Helpful Tips:

- Refer to the instruction manual frequently for visual guidance.
- Ensure pieces are firmly connected to prevent the model from falling apart.
- If a piece is difficult to connect, try adjusting its angle or checking for obstructions.

## DISPLAY AND HANDLING

Once assembled, your Mould King 10066 model is designed for display. Follow these guidelines for optimal presentation and longevity:

- **Placement:** Display the model on a stable, flat surface to prevent accidental falls. Avoid areas with high traffic or vibrations.
- **Environment:** Keep the model away from direct sunlight, which can cause discoloration over time. Avoid extreme temperature changes or high humidity.
- **Handling:** When moving the model, support it from the base. Avoid lifting by delicate parts like the ship's masts or the bottle's neck.

## MAINTENANCE

---

Regular cleaning will help maintain the appearance of your model.

- **Dusting:** Use a soft, dry cloth or a soft-bristled brush to gently remove dust from the model. For intricate areas, compressed air can be used carefully.
- **Cleaning:** Do not use harsh chemicals, abrasive cleaners, or excessive water, as these can damage the plastic

components. If necessary, a slightly damp cloth with plain water can be used, followed by immediate drying.

## TROUBLESHOOTING

---

### Missing Pieces:

If you find that pieces are missing from your kit:

- Double-check all packaging and bags to ensure no small pieces were overlooked.
- Refer to the parts list in your instruction manual to identify the exact missing components.
- Contact Mould King customer support (see Support section) with details of the missing parts.

### Assembly Difficulties:

If you encounter difficulty connecting pieces or following steps:

- Review the previous steps in the instruction manual to ensure no errors were made.
- Ensure you are using the correct pieces for the current step.
- Apply gentle, even pressure when connecting pieces. Avoid forcing them.
- Sometimes, disassembling a small section and reassembling it carefully can resolve alignment issues.
