## ApoloSign NJP561P-Z

# ApoloSign NJP561P-Z Laptop Computer User Manual

Model: NJP561P-Z

## INTRODUCTION

---

This manual provides essential instructions for setting up, operating, and maintaining your ApoloSign NJP561P-Z Laptop Computer. Please read this manual thoroughly before using your device to ensure proper function and longevity.

## PACKAGE CONTENTS

---

- ApoloSign NJP561P-Z Laptop
- Power Adapter
- User Manual

## SETUP

---

### First Use and Charging

Before initial use, connect the provided power adapter to the laptop's DCIN port and then to a power outlet. Allow the battery to charge fully. The DCIN port is located on the right side of the laptop.

## Connectivity

The laptop supports Wi-Fi for wireless internet access and Ethernet for stable wired network connections. It offers a variety of ports for connecting external devices:

- **USB 3.2 ports (x2):** For high-speed data transfer with compatible devices.
- **HDMI output:** To connect to external monitors or projectors.
- **TF Card slot:** For expanding storage or transferring files from memory cards.
- **Microphone/Headphone jack:** For audio input and output.
- **DCIN:** Power input port.

## MAINTENANCE

### Cleaning

Use a soft, lint-free cloth to gently clean the screen and exterior surfaces of the laptop. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaning solution. Avoid using harsh chemicals, abrasive materials, or excessive moisture.

### Battery Care

To prolong the lifespan of your laptop's battery, avoid exposing the device to extreme temperatures (both hot and cold). It is also recommended to avoid frequently fully discharging the battery. The laptop is equipped with a 5000mAh Lithium-ion polymer battery, providing an estimated 5-6 hours of usage depending on workload.

# TROUBLESHOOTING

---

## Common Issues and Solutions

- **Device not powering on:** Ensure the power adapter is securely connected and the battery has sufficient charge. Try holding the power button for 10-15 seconds to perform a hard reset.
- **Slow performance:** Close unnecessary applications running in the background. Check for system updates and ensure your storage is not full. A system cleanup or disk defragmentation may also help.
- **Touchpad unresponsive:** Verify that the touchpad has not been accidentally disabled (often via a function key combination, e.g., Fn + F9 or F10). Restarting the laptop can often resolve temporary driver issues.
- **No Wi-Fi connection:** Confirm that Wi-Fi is enabled in Windows settings. Check if your wireless router is functioning correctly and within range. Restarting both the laptop and the router can resolve connectivity problems.
- **Screen display issues:** If the screen is blank or flickering, try connecting an external monitor via HDMI to determine if the issue is with the laptop's display or graphics card.

## SPECIFICATIONS

---

Feature	Detail
Brand	ApoloSign
Model Number	NJP561P-Z
Operating System	Windows 11
Screen Size	15.6 Inches
Screen Resolution	1920 x 1080 pixels (FHD IPS)
Processor	Intel Celeron N5095 Quad-Core (Up to 2.8GHz)
