# **SimpliSafe 11 Piece Wireless Home Security System Gen 3 User Manual**

Model: KT056-01RUS

## **1. INTRODUCTION**

---

The SimpliSafe 11 Piece Wireless Home Security System Gen 3 is designed to provide comprehensive security for your home. This system combines innovative hardware with advanced features to ensure your safety and peace of mind. It offers easy setup, flexible monitoring options, and smart home compatibility.

## **2. PACKAGE CONTENTS**

---

Verify that all components are present in your package:

- 1 Base Station
- 1 Indoor Wireless Camera
- 1 Keypad
- 2 Motion Sensors
- 6 Entry Sensors

Figure 2.1: All components included in the SimpliSafe 11 Piece Wireless Home Security System Gen 3.

### 3. SETUP

The SimpliSafe system is designed for straightforward setup without the need for professional installation or specialized tools. Follow the instructions provided within the SimpliSafe App for a guided installation process.

- 1. Power On Base Station:** Plug in the Base Station to a power outlet. This unit is the central hub of your security system.
- 2. Download SimpliSafe App:** Install the SimpliSafe App on your smartphone or tablet.
- 3. Follow In-App Instructions:** The app will guide you through connecting your Base Station and placing each sensor and camera. No wiring or drilling is required for installation.

# Start protecting your home in about 30 minutes – no tools required

Just plug in your base station, place your sensors and start protecting your home in minutes.

Figure 3.1: The SimpliSafe Base Station, ready for quick setup.

# See intruders in crystal clear detail

-  1536p HD video capture
-  10x Zoom
-  125° field of view
-  Night vision

Figure 3.2: The Keypad, which can be easily mounted and removed for flexible placement.

## 4. OPERATING YOUR SYSTEM

Your SimpliSafe system can be operated via the Keypad or the SimpliSafe App.

### 4.1 Keypad Operation

The Keypad allows you to arm and disarm your system, and access system settings. It features a clear display and tactile buttons.

- Arming Modes:** Select 'Home' for partial arming (e.g., while sleeping), 'Away' for full arming (when no one is home), or 'Off' to disarm the system.
- PIN Entry:** Enter your personal identification number (PIN) to change arming modes.
- Panic Button:** A dedicated panic button is located on the Keypad for immediate emergency alerts.

### 4.2 SimpliSafe App Operation

The SimpliSafe App provides remote control and monitoring capabilities for your system from anywhere.

- **Remote Arm/Disarm:** Arm or disarm your system remotely.
- **Live View:** Access live video feeds from your cameras.
- **Two-Way Audio:** Speak and listen through your cameras (available on compatible cameras).
- **Event History:** Review a history of detected movements and system events.

## 5. COMPONENTS OVERVIEW

---

Understanding each component's function is key to maximizing your system's effectiveness.

### 5.1 Base Station

The Base Station is the core of your SimpliSafe system. It communicates with all sensors and cameras, and sends alarm signals to the monitoring center via a built-in cellular connection. It includes a backup battery for up to 24 hours of operation during power outages and a loud 95 dB siren.

### 5.2 Keypad

The wireless Keypad is designed for easy access to your system. It's soft to the touch, easy to use day or night with backlit buttons, and requires no plug, allowing flexible placement anywhere in your home. Its "smash-safe" design ensures it continues to function even if attacked.

### 5.3 Entry Sensors

The six included Entry Sensors protect your windows, doors, and cabinets. They alert you when someone tries to enter and are designed to blend seamlessly into your home environment. Customizable "Secret Alerts" can be set to quietly notify you if private areas are accessed without triggering a full alarm.

### 5.4 Motion Sensors

The two Motion Sensors detect motion within a 35-foot range and have a 90-degree field of view. They are specifically designed for human detection and are pet-friendly for animals under 60 lbs, minimizing false alarms. Ideal for covering large rooms when placed in a corner.

### 5.5 Smart Alarm Wireless Indoor Camera

This indoor camera provides HD 1536p video capture with 10x zoom, a 125° field of view, and night vision. With 24/7 live guard protection (requires Fast Protect™ Monitoring plan), monitoring agents can see, speak to, and deter intruders through the camera's two-way audio feature during an active alarm. It also features a built-in privacy shutter for your control.

ONLY FROM SIMPLISAFE®

# Triggers the alarm and sounds a built-in 80 dB siren

Figure 5.1: The Indoor Camera, capable of triggering an alarm and sounding a siren.

# Choose the monitoring plan that's right for you.

## Self Monitoring

Unlimited camera recordings  
+ 30-day cloud storage

## Core

24/7 professional monitoring for  
police, fire, and medical dispatch  
Priority police dispatch  
with verified alarms + unlimited  
camera recordings

**No long-term contracts**

# Intruder Intervention

Agents can see and speak through the camera to help stop crime in real time.\*

\*Requires Smart Alarm indoor camera. Feature available with select optional professional monitoring plans.

Figure 5.3: Intruder Intervention: Agents can communicate through the camera to deter threats.

## 5.6 Key Fob

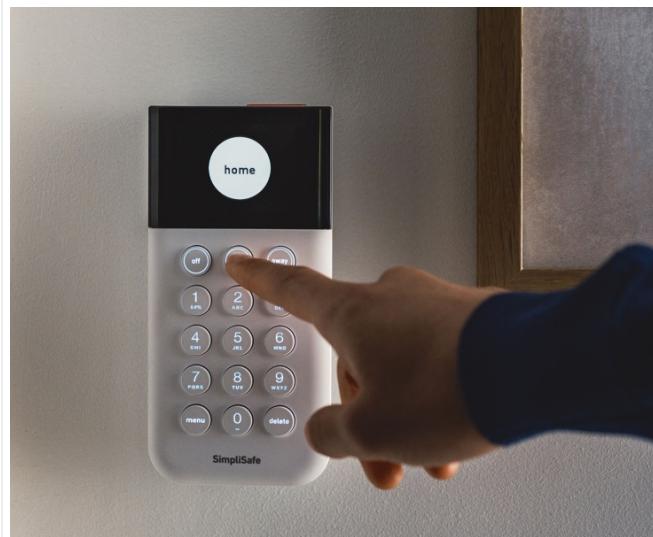

The Key Fob provides a convenient way to arm and disarm your system with a simple press of a button, offering quick control when entering or leaving your home.

## 6. MONITORING SERVICES

SimpliSafe offers optional 24/7 professional monitoring services powered by Fast Protect™ Technology. These plans provide fast emergency response without long-term contracts or hidden fees.

- **Core Monitoring:** Provides 24/7 professional monitoring for police, fire, and medical dispatch. Includes priority dispatch with verified alarms and unlimited camera recordings.
- **Live Guard Protection:** Available with the Fast Protect™ Monitoring plan, this feature allows monitoring agents to actively see and speak to intruders through the Smart Alarm Wireless Indoor Camera during an alarm, helping to stop crime in real-time.
- **Faster Police Response:** By enabling video verification on your SimpliSafe cameras, professional monitoring agents can use eyewitness evidence to verify a break-in, which can lead to priority dispatch for faster police

response.

## Ready to protect. Right out of the box.

Setting up your system is fast and easy. No tools needed. Just follow the steps in the app—and we'll show you exactly where to place your sensors.

Figure 6.1: Overview of SimpliSafe monitoring plan options.

## Smart home compatible

Arm your SimpliSafe® system any time using your Alexa, Google Assistant, Apple Watch, and more.

Figure 6.2: Benefits of SimpliSafe's professional monitoring services.

## 7. SMART HOME INTEGRATION

The SimpliSafe system is compatible with popular smart home platforms, allowing for convenient voice control and integration into your existing smart home ecosystem.

- **Amazon Alexa:** Arm your system using voice commands through Amazon Alexa-enabled devices.
- **Google Assistant:** Control your SimpliSafe system with voice commands via Google Assistant-enabled devices.

# Arm your system anytime with voice commands

Alexa, ask SimpliSafe to arm  
my system in home mode.

Available with select professional monitoring plans.

Figure 7.1: Arming your SimpliSafe system using voice commands.

## 8. MAINTENANCE

Regular maintenance ensures the optimal performance of your SimpliSafe system.

- **Battery Replacement:** The Base Station has a backup battery that lasts up to 24 hours. Individual sensors and the Keypad use standard batteries (2 AA batteries for the Keypad, included). Replace batteries as indicated by system alerts or the SimpliSafe App.
- **Sensor Cleaning:** Periodically wipe down sensors and cameras with a soft, dry cloth to remove dust and debris that could interfere with their operation.
- **System Updates:** Ensure your Base Station and components receive regular software updates through the SimpliSafe App to benefit from the latest features and security enhancements.

## 9. TROUBLESHOOTING

If you encounter issues with your SimpliSafe system, consider the following common troubleshooting steps:

- **Sensor Offline:** If a sensor goes offline, check its battery level in the SimpliSafe App. Ensure it is within range of the Base Station and that there are no significant obstructions. Re-pairing the sensor may be necessary.
- **Camera Connectivity:** If a camera goes offline, verify your Wi-Fi connection. Unplug and re-plug the camera to restart it. Check the SimpliSafe App for specific error messages.
- **False Alarms:** Review motion sensor placement to ensure they are not triggered by pets or environmental factors like curtains moving in a draft. Adjust sensitivity settings if available.
- **Base Station Issues:** If the Base Station loses power or Wi-Fi, it will switch to cellular backup (with a professional monitoring plan). Ensure it is plugged into a working outlet and your internet connection is stable.

For persistent issues, consult the comprehensive troubleshooting guides within the SimpliSafe App or contact SimpliSafe customer support.

## 10. SPECIFICATIONS

Feature	Detail
Brand	SimpliSafe
Model Number	KT056-01RUS
Color	White
Power Source	Battery Powered
Compatible Devices	Desktop, Laptop, Smartphone, Tablet
Item Dimensions (L x W x H)	12.2 x 10.8 x 6.3 inches
Video Capture Resolution	1536p
Connectivity Technology	Wireless
Installation Type	Self-Adhesive
Alert Type	Motion
Item Weight	0.35 Pounds (5.6 ounces)
Control Method	Touch
Battery Cell Composition	Alkaline
Maximum Range	30 Feet
Recommended Uses	Indoor Security
Noise Level (Siren)	95 dB
Sensor Technology	Motion Sensor
Special Features	2-Way Audio, HD Resolution, Motion Sensor, Night Vision
