7. MAINTENANCE AND CARE

Proper care will extend the life and appearance of your sofa.

7.1 Fabric Care

- The sofa fabric is a tightly woven Polylinen blend, certified CA65 and OEKO-TEX, and is stain-resistant.
- **General Cleaning:** For light dust and debris, vacuum regularly using a soft brush attachment.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub. For stubborn stains, use a mild soap solution and a damp cloth, then blot dry. Test on an inconspicuous area first.
- **Machine Washing (Removable Covers):** The covers are machine-washable. Use cold water on a gentle cycle with a mild detergent. Tumble dry on low heat or air dry. Do not bleach.

7.2 Cushion Care

- The cushions are filled with memory foam and high-density foam, designed to retain their shape.
- Periodically fluff and rotate cushions to maintain their shape and even out wear.
- Avoid prolonged exposure to direct sunlight to prevent fading of the fabric and degradation of foam.

- **Cushions appear flattened:** Fluff and rotate cushions regularly. Allow some time for memory foam to expand after unpacking.
- **Stains on fabric:** Refer to the spot cleaning instructions in Section 7.1. For severe stains, consider professional upholstery cleaning or replacing the removable cover.
- **Difficulty connecting modules:** Ensure modules are aligned correctly and brackets are inserted straight. Apply gentle pressure.
