Not for iPad Pro 12.9-inch 2017(2nd Gen)

*Find your model number first

Method 1

Please check the back of tablet

Method 2

Verify in Pad Settings App

1. Open [Settings App](#) on Pad
2. Navigate to [General](#) > [About](#)
3. Tap on [Model Number](#) to display it

This image illustrates the various iPad models compatible with the doqo keyboard case, including iPad Air 13-inch (M2/M3) and iPad Pro 12.9-inch (3rd, 4th, 5th, 6th Gen). It also provides methods to find your iPad's model number.

SETUP

1. Attaching Your iPad

1. Open the doqo keyboard case.
2. Align your compatible iPad with the magnetic back panel of the case. The strong magnetic grip will securely hold your iPad in place.
3. Adjust the floating cantilever stand to your desired viewing angle.

This image details key features of the doqo keyboard case, such as the eco-leather cover, rubber screen bumpers, scissor structure keys for high resilience, and a 110-point magnetic grip for secure iPad attachment. It also mentions 90 days ultra-long standby and a touch-tested hinge.

2. Bluetooth Pairing

1. Ensure the keyboard case is charged (refer to the 'Charging and Battery' section).
2. Turn on the keyboard by pressing the power button (usually located on the side or top right of the keyboard). A blue indicator light should flash, indicating it's in pairing mode.
3. On your iPad, go to **Settings > Bluetooth**.
4. Turn on Bluetooth. Your iPad will search for available devices.
5. Select "doqo Keyboard" (or similar name) from the list of devices.
6. If prompted, enter the pairing code displayed on your iPad screen using the doqo keyboard, then press **Enter**.
7. Once paired, the indicator light on the keyboard will turn off or remain solid, and your iPad will show the keyboard as "Connected."

OPERATING INSTRUCTIONS

Keyboard Functions

- **Scissor Keys:** The keyboard features scissor-switch keys for a comfortable and responsive typing experience with instant rebound.
- **7-Color Backlight:** Press the **light bulb icon** key to cycle through 7 different backlight colors.
- **3 Brightness Levels:** Use the **sun icon** keys (usually F5/F6 or similar) to adjust the backlight brightness to three different levels.
- **iPadOS Shortcut Keys:** A dedicated row of shortcut keys allows for quick access to functions such as screen brightness, volume control, media playback, and more.

- iPadOS touch gestures
- All area trackpad (click anywhere)
- 90 days Ultra-long standby

Magic Keyboard

- Maigc hinge 125°
- No shortcut keys
- iPadOS touch gestures
- All area trackpad (click anywhere)
- Use iPad battery

This image showcases the keyboard's 7-color backlighting feature and dedicated iPadOS shortcut keys for quick access to functions like brightness, volume, and media controls, improving typing experience in various lighting conditions.

Trackpad Functions

The integrated multi-touch trackpad supports various iPadOS gestures for enhanced navigation and productivity.

- **Cursor Control:** Move your finger across the trackpad to control the cursor on your iPad screen.
- **Multi-touch Gestures:** Utilize gestures for tasks like scrolling, zooming, switching apps, and accessing the Dock. Refer to your iPad's iPadOS settings for a full list of supported gestures.

This image demonstrates various multi-touch gestures supported by the trackpad, including managing files, browsing the web, and switching applications, enhancing the iPad's functionality.

Smart Features

- **Smart Wake-to-Sleep:** The keyboard case automatically wakes your iPad when opened and puts it to sleep when closed, conserving battery life.
- **Magnetic Levitation Arm:** The design allows your iPad to appear suspended, providing a stable and adjustable viewing angle for a laptop-like experience.

CHARGING AND BATTERY

The doqo SP02 Keyboard Case is equipped with a large-capacity battery designed for extended use.

- **Battery Life:** Provides up to 90 days of standby time on a single charge.
- **Charging:** Use the provided Type-C cable to charge the keyboard. Connect one end to the keyboard's charging port and the other to a USB power adapter (not included).
- **Charging Indicator:** A light indicator will show the charging status. Refer to the keyboard's specific indicator behavior for full charge notification.

This image highlights the Type-C charging port, indicating the keyboard's power input and its 90-day standby time on a single charge.

MAINTENANCE

Proper care will extend the life of your doqo SP02 Keyboard Case.

- **Cleaning:** Gently wipe the exterior PU leather with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials. For the keyboard keys, use a soft brush or compressed air to remove dust and debris.
- **Storage:** When not in use, keep the keyboard case closed to protect both the keyboard and your iPad. Store in a cool, dry place away from direct sunlight and extreme temperatures.
- **Avoid Liquids:** The keyboard case is not water-resistant. Avoid exposure to liquids to prevent damage.

TROUBLESHOOTING

If you encounter issues with your doqo SP02 Keyboard Case, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Keyboard not connecting via Bluetooth	Low battery, Bluetooth off on iPad, not in pairing mode, interference.	Charge the keyboard. Ensure iPad Bluetooth is on. Put keyboard in pairing mode. Move closer to iPad. Forget device on iPad and re-pair.
Keyboard not powering on	Low battery, power button not pressed correctly, internal fault.	Charge the keyboard for at least 30 minutes. Press and hold the power button for 3-5 seconds. If still unresponsive, contact customer support.
Backlight not working or dim	Backlight turned off, low battery, brightness set to lowest.	Press the backlight key to turn it on. Adjust brightness using the sun icon keys. Charge the keyboard.
Trackpad unresponsive or lagging	Bluetooth connection issue, software glitch, dirty trackpad.	Ensure keyboard is fully connected. Restart iPad and keyboard. Clean the trackpad surface. Check iPadOS settings for trackpad sensitivity.

Problem	Possible Cause	Solution
Keys not responding	Bluetooth connection issue, debris under keys, low battery.	Verify Bluetooth connection. Clean keys with compressed air. Charge the keyboard.
