### Key Features

- **Touch Control:** Intuitive touchscreen interface for easy selection of settings.
- **60+ Toast Programs:** Offers 8 bread types and 7 browning levels, each with pre-programmed times for precise toasting. Includes defrost, add time, and reheat functions.
- **Automatic Lowering and Raising:** Bread is automatically lowered into the toaster upon pressing START and raised when toasting is complete or CANCEL is pressed.
- **Efficient Heating:** Fast-heating nichrome wire coils ensure even and consistent browning. An intelligent timer adjusts duration for consecutive toasting cycles.
- **Digital Countdown Display:** A visual countdown timer on the touchscreen indicates remaining toasting time.
- **Modern Design:** Ergonomic and stylish stainless steel design complements contemporary kitchens.

- **Easy Cleanup:** Features a removable crumb tray for convenient cleaning.

## Setup

---

1. **Unpacking:** Carefully remove the toaster and all packaging materials. Retain packaging for future storage or transport.
2. **Placement:** Place the toaster on a stable, flat, heat-resistant surface, away from flammable materials and at least 6 inches (15 cm) from walls or cabinets. Ensure adequate ventilation around the toaster.
3. **Power Connection:** Ensure the power cord is securely connected to the toaster's power inlet and then plug it into a standard 110V AC electrical outlet.
4. **Initial Cleaning:** Before first use, wipe the exterior with a damp cloth. Remove and clean the crumb tray. It is recommended to run the toaster empty on a medium setting once or twice to burn off any manufacturing residues and odors.

## Operating Instructions

---

The Inspirex Smart Toaster features an intuitive touchscreen for all operations.

### 1. Power On

Tap the touchscreen display to activate it. The display will illuminate, showing available options.

### 2. Selecting Bread Type

Place your bread slices into the toaster slots. On the touchscreen, select one of the 8 available bread types:

- White
- Gluten Free
- Wheat
- Raisin
- Bagel
- Waffle
- Pastry
- Muffin

Each selection automatically adjusts the initial toasting time for optimal results.

### 3. Adjusting Browning Level

After selecting the bread type, choose your desired browning level from 1 (lightest) to 7 (darkest) using the circular indicator on the touchscreen. The digital countdown will adjust accordingly.

### 4. Start Toasting

Press the **START** button on the touchscreen. The toaster will automatically lower the bread into the slots and begin the toasting cycle. The countdown timer will display the remaining time.

## 5. Special Functions

- **Defrost:** Select this option for frozen items. The toaster will adjust the cycle to first defrost and then toast.
- **Reheat:** Use this function to warm previously toasted items without further browning.
- **Add Time:** If your toast is not browned enough, you can press "Add Time" to extend the toasting cycle.

## 6. Cancel Toasting

To stop the toasting cycle at any time, press the **CANCEL** button. The bread will automatically raise.

## Maintenance and Cleaning

Regular cleaning ensures optimal performance and extends the life of your toaster.

1. **Always Unplug:** Before cleaning, ensure the toaster is unplugged from the power outlet and has completely cooled down.
2. **Crumb Tray:** The toaster is equipped with a removable crumb tray located at the bottom. Slide out the tray, discard crumbs, and wipe it clean with a damp cloth. Dry thoroughly before reinserting.
3. **Exterior:** Wipe the exterior surfaces with a soft, damp cloth. Do not use abrasive cleaners or scouring pads, as these can scratch the finish.
4. **Interior:** Do not attempt to clean the interior heating elements. If bread becomes jammed, unplug the toaster and carefully remove the bread after it has cooled.

## Troubleshooting

Problem	Possible Cause	Solution
Toaster does not power on.	Not plugged in; power outlet issue; toaster not activated.	Ensure the toaster is securely plugged into a working outlet. Tap the touchscreen to activate the display.
Bread does not lower automatically.	START button not pressed; internal mechanism issue.	Ensure you have selected a bread type and browning level, then press the START button. If the issue persists, contact customer support.
Uneven toasting.	Bread type/thickness variation; crumb buildup.	Adjust browning level. Ensure bread slices are of similar thickness. Clean the crumb tray regularly.
Smoke or burning smell.	Food particles/crumbs inside; incorrect browning level.	Immediately press CANCEL and unplug the toaster. Allow to cool, then clean the crumb tray. Reduce browning level for future use.
