1. INTRODUCTION

The Mr.Go 20-inch Rechargeable LED Ball Light is a versatile, illuminated globe designed for ambient lighting. Constructed from durable polyethylene, this waterproof and shockproof light is suitable for various indoor and outdoor settings, including patios, gardens, pools, and bedrooms. It features a long-lasting rechargeable lithium-ion battery and offers 16 RGB color options, 8 dimming levels, and 4 dynamic lighting effects, all controllable via a remote.

The Mr.Go 20-inch LED Ball Light provides ambient illumination, perfect for enhancing outdoor spaces like patios.

Versatile usage of the Mr.Go LED Ball Light in various environments, from home interiors to outdoor garden and party settings.

2. PACKING LIST

Please check the package contents upon receipt to ensure all items are present:

- 1 x 20-inch LED Glowing Ball

3. SETUP

3.1 Initial Charging

Before first use, fully charge the LED Ball Light. Connect the provided AC charger to the charging port located on the base of the sphere. Plug the charger into a standard 110/220V 50/60Hz power outlet. A full charge typically takes 5-6 hours. The light can operate for up to 48 hours on a single charge at the lowest brightness setting.

3.2 Remote Control Preparation

The remote control comes with a clear plastic tab to prevent battery drain during shipping. Remove this tab from the battery compartment before attempting to use the remote.

4. OPERATING INSTRUCTIONS

4.1 Powering On/Off

- **Using the Remote:** Press the 'ON' button to turn the light on and the 'OFF' button to turn it off.

- **Using the Sphere:** An on/off switch is located on the bottom of the LED sphere for manual control.

4.2 Remote Control Functions

The remote control allows for comprehensive customization of the LED Ball Light:

- **16 Color Selections:** Choose from a palette of 16 vibrant RGB colors.
- **Brightness Adjustment:** Adjust the light intensity with 8 dimming levels.
- **4 Dynamic Effects:** Select from various transition modes:
 - **Flash:** Rapid color changes.
 - **Strobe:** Flashing white light.
 - **Fade:** Gradual transition through RGB colors.
 - **Smooth:** Slow, continuous cycle through RGB colors.

The LED Ball Light can change to various colors, adapting to any mood or decor.

Adjust the brightness of the LED Ball Light to suit your preference, from dim ambient light to full illumination.

A brief official video demonstrating the Mr.Go LED Ball Light's color-changing and waterproof capabilities.

5. MAINTENANCE

5.1 Cleaning

To clean the LED Ball Light, wipe it with a damp cloth. Avoid using harsh chemicals or abrasive cleaners that could damage the polyethylene material.

5.2 Water Resistance

The Mr.Go LED Ball Light is IP65 waterproof, making it suitable for outdoor use and resistant to splashes and rain. However, it is not designed to be submerged in water or floated in a pool for extended periods. Ensure the charging port cover is securely closed when using outdoors or near water.

The waterproof design allows for safe placement near pools, adding ambiance to evening gatherings.

6. TROUBLESHOOTING

If you encounter issues with your Mr.Go LED Ball Light, please refer to the following common solutions:

- **Light Not Turning On:** Ensure the unit is fully charged. Check that the power switch on the bottom of the sphere is in the 'ON' position. Verify the remote control's battery is functional and the plastic tab has been removed.
- **Short Battery Life:** Ensure the unit is charged for the recommended 5-6 hours. Battery life can vary based on brightness and dynamic effect usage; brighter settings and active effects consume more power.
- **Remote Not Responding:** Check the remote's battery. Ensure there are no obstructions between the remote and the light. The remote has a working range of 16 to 26 feet.
- **Inconsistent Operation:** If the light malfunctions or behaves erratically, try turning it off and on again, or perform a full charge cycle.

If problems persist, please contact Mr.Go customer support for further assistance.

7. SPECIFICATIONS

Model Number	CQ-B
Diameter	20 inches
Product Dimensions (D x W x H)	20"D x 20"W x 19"H
Item Weight	4 Pounds
Material	Polyethylene (PE)
Power Source	Battery Powered
Battery Capacity	4400mAh rechargeable li-on battery
Charge Time	5-6 hours
Operating Time	Up to 48 hours (lowest brightness)
Input Voltage	110/220V 50/60Hz
Output Voltage	5V 1A (DC)
Water Resistance Level	IP65 Waterproof
Light Source Type	LED
Control Method	Remote Control, Push Button
Additional Features	Color Changing, Cordless, Dimmable, Portable, Rechargeable

8. WARRANTY & SUPPORT

8.1 Product Warranty

The Mr.Go 20-inch Rechargeable LED Ball Light comes with a **1-year warranty** from the date of purchase, covering manufacturing defects and material flaws.
