WolfLawS KM-1

WolfLawS KM-1 Wireless Gaming Mouse User Manual

Model: KM-1

1. INTRODUCTION

Thank you for choosing the WolfLawS KM-1 Wireless Gaming Mouse. This manual provides essential information for setting up, operating, and maintaining your new device. The KM-1 mouse features a lightweight honeycomb shell, 2.4G wireless technology, Chroma RGB lighting, and three adjustable DPI levels for an optimized user experience.

2. PACKAGE CONTENTS

- WolfLawS KM-1 Wireless Gaming Mouse
- USB Receiver
- Charging Cable
- User Manual

3. PRODUCT OVERVIEW

The WolfLawS KM-1 mouse is designed for comfort and performance. Its lightweight honeycomb shell promotes ventilation, keeping your palm cool during extended use. The mouse features six buttons for versatile control and customizable RGB lighting to match your setup.

DURABLE STRUCTURE

Taking You The Extreme Operation Feelings

Image 3.1: Side view of the KM-1 mouse, illustrating the durable honeycomb structure and the integrated RGB lighting strip along the base.

Key Features:

- **Lightweight Honeycomb Shell:** Provides enhanced grip and ventilation.
- **2.4G Wireless Technology:** Ensures stable and responsive connectivity up to 10 meters.
- **Chroma RGB Lights:** Multiple lighting effects including rainbow, stream, breathing, and pure modes.
- **3 Adjustable DPI Levels:** Easily switch between 800, 1600, and 3200 DPI.
- **6 Programmable Buttons:** Left, Right, Forward, Back, DPI, and Scroll wheel.
- **Ergonomic Design:** Comfortable for prolonged use.

4. SETUP

4.1 Connecting the Mouse

1. Locate the USB receiver, typically stored in a compartment on the underside of the mouse.
2. Plug the USB receiver into an available USB port on your computer.
3. Turn on the mouse using the ON/OFF switch located on the underside.
4. The mouse should automatically connect to your computer. No additional drivers or software are required.

Note: The 2.4G wireless connection has a maximum range of 10 meters. Ensure the mouse is within this range for optimal performance.

4.2 Charging the Mouse

The KM-1 mouse is equipped with a rechargeable Lithium Polymer battery. Use the provided charging cable to charge the mouse. Connect the cable to the mouse's charging port and to a USB power source (e.g., computer USB port, USB wall adapter).

Important: If the mouse cursor moves slowly, becomes unstable, or stops moving, it indicates a low battery. Charge the mouse promptly to restore normal functionality.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

Use the ON/OFF switch on the underside of the mouse to power it on or off. There is also an option to turn off only the lights while keeping the mouse functional.

5.2 DPI Adjustment

Press the DPI button (located behind the scroll wheel) to cycle through the three available DPI settings: 800, 1600, and 3200. Each press will change the cursor speed, allowing you to adjust sensitivity to your preference.

5.3 RGB Lighting Control

Activate the RGB lights by clicking the ON/OFF button to the 'ON' position. To switch between various lighting effects (rainbow, stream, breathing, pure mode) or to turn off the lights, use the dedicated light mode button, usually located near the ON/OFF switch or DPI button.

5.4 Button Functions

The KM-1 mouse features six buttons with the following default functions:

- **Left Button:** Primary click function.
- **Right Button:** Secondary click function.
- **Scroll Wheel:** Scroll up/down, middle click.
- **DPI Button:** Cycles through DPI settings.
- **Forward Button:** Navigates forward in web browsers or file explorers.
- **Back Button:** Navigates backward in web browsers or file explorers.

6. MAINTENANCE

6.1 Cleaning

To clean your mouse, use a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, ensuring no moisture enters the internal components. Avoid using harsh chemicals or abrasive materials.

6.2 Storage

Store the mouse in a cool, dry place away from direct sunlight and extreme temperatures. When not in use for extended periods, turn off the mouse to conserve battery life.

7. TROUBLESHOOTING

7.1 Mouse Not Responding

- Ensure the mouse is powered on.

- Verify the USB receiver is securely plugged into a working USB port.
- Check the mouse battery level and charge if necessary.
- Try plugging the USB receiver into a different USB port.

7.2 Cursor Movement Issues

- Charge the mouse battery. Low battery can cause erratic or slow cursor movement.
- Ensure the mouse sensor is clean and free from obstructions.
- Use the mouse on a suitable surface (e.g., a mouse pad) for optimal tracking.

7.3 RGB Lights Not Working

- Ensure the mouse is powered on.
- Check if the lights have been intentionally turned off via the light mode button.
- Charge the mouse battery.

8. SPECIFICATIONS

Brand	WolfLawS
Model Number	KM-1
Connectivity Technology	2.4G Wireless (USB Receiver)
Movement Detection Technology	Optical
DPI Levels	800, 1600, 3200
